

Novalife HB-B1058K

Novalife 8-in-1 Nut Milk Maker Machine

MODEL: HB-B1058K

1. Important Safety Instructions

Please read all instructions carefully before using the appliance and retain for future reference.

- **Electrical Safety:** Ensure the appliance is connected to a grounded outlet with the correct voltage (120 Volts). Do not immerse the main unit in water.
- **Hot Surfaces:** The appliance generates heat during operation. *Caution: Hot surface.* Avoid touching hot surfaces directly.
- **Blade Safety:** The machine is equipped with sharp stainless steel blades. Exercise extreme caution when cleaning the interior to prevent injury.
- **Water Level:** Always ensure the water level is between the minimum (0.8L) and maximum (1.0L for hot, 1.2L for cold) marks to prevent overflow or dry burning.
- **Lid Placement:** The appliance will not operate if the lid is not securely fastened. Ensure the lid is properly closed before starting any function.
- **Juice Function:** When using the juice function, cut fruits and vegetables into small pieces and ensure the water level is below 1 liter to prevent spills.
- **Dishwasher Safety:** This item is **not** dishwasher safe. Hand wash components as instructed.

2. Product Overview

The Novalife 8-in-1 Nut Milk Maker is a versatile kitchen appliance designed for easy preparation of various plant-based beverages and more.

Key Features:

- **8-in-1 Multifunction:** Prepares nut milk, soymilk, oat milk, coconut milk, juice, rice paste, milkshake, and boils water.
- **40-Ounce (1.2 Liter) Capacity:** Ideal for 4-6 servings per batch.
- **12-Hour Delay Start:** Schedule preparation in advance.
- **Keep Warm Function:** Maintains beverage temperature between 104-140°F.
- **20 Stainless Steel Blades:** Professional grinding system for smooth results.
- **One-Touch Self-Cleaning System:** Simplifies cleanup.
- **Touch Control Panel:** Easy selection of functions.

4. Operating Instructions

The Novalife 8-in-1 Nut Milk Maker features a user-friendly touch control panel for selecting various functions.

Basic Operation:

1. **Add Ingredients:** Place your desired ingredients into the stainless steel pitcher.
2. **Add Water:** Pour filtered water into the pitcher, ensuring the level is between the MIN and MAX marks.
3. **Secure Lid:** Place the lid firmly on the pitcher. The machine will beep if the lid is not correctly seated.
4. **Select Function:** Press the 'Menu/Cancel' button repeatedly to cycle through the available functions until your desired program is highlighted.
5. **Start:** Once the desired function is selected, the machine will automatically begin the process after a few seconds.
6. **Cancel:** To cancel a function, press and hold the 'Menu/Cancel' button.

Specific Functions:

- **Soymilk:** Ideal for homemade soy milk. Takes approximately 33 minutes.
- **Nut Milk (Almond, Oat, Coconut, etc.):** For various nut and plant-based milks. Blending time varies (e.g., 8 minutes for almond/cashew milk, 6 minutes for oat milk).
- **Juice:** For fresh fruit and vegetable juices. Takes approximately 3 minutes.
- **Rice Paste:** For creamy rice paste. Takes approximately 27 minutes.
- **Milk Shake:** For blending milkshakes and smoothies. Takes approximately 3 minutes.
- **Boil Water:** Heats water to boiling point. Takes approximately 7 minutes for 4 cups.
- **Self Clean:** Automatic high-temperature cleaning cycle. Takes approximately 10 minutes.

Advanced Features:

- **Keep Warm:** Activates automatically after certain hot programs or can be selected manually to

maintain temperature (104-140°F).

- **Delay Start:** Press the 'Delay Start' button to set a delayed start time from 1 to 12 hours. Prepare ingredients, set the delay, and wake up to fresh beverages.

40 oz Mega Capacity

5. Recipes

Your Novalife 8-in-1 Nut Milk Maker comes with a professional-grade full-color cookbook. This guide features dozens of recipes for soy milk, nut milks, juices, oat milk, plant-based and non-dairy beverages, and light desserts. Follow the clear step-by-step illustrated instructions to easily create popular and healthy drinks.

6. Cleaning and Maintenance

Regular cleaning ensures the longevity and optimal performance of your nut milk maker.

Self-Cleaning Function:

1. After use, remove any large food residues from the pitcher.

2. Fill the pitcher with water up to the 'Max Hot 1L' line.
3. Secure the lid.
4. Press the 'Menu/Cancel' button until 'Self Clean' is highlighted.
5. The machine will perform a 10-minute high-temperature cleaning cycle.
6. Once complete, carefully empty the water and rinse the interior.

Image: The self-clean function in action, showing the machine automatically cleaning itself with high-temperature water.

Manual Cleaning:

- For stubborn residues, use the included cleaning brush with warm soapy water.
- Carefully clean around the blades.
- Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners.

7. Troubleshooting

If you encounter any issues, please refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Machine does not start	Lid not properly closed or power not connected.	Ensure lid is securely fastened and power cord is plugged in.
