Garvee Twin Size Loft Bed with Desk and Storage Shelves Instruction Manual

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, safe operation, and maintenance of your Garvee Twin Size Loft Bed with an integrated desk and storage shelves. Please read this manual thoroughly before assembly and use to ensure proper setup and to maximize the product's lifespan and safety.

The Garvee Loft Bed is designed to optimize space in smaller rooms, offering a sleeping area, a spacious desk for work or study, and convenient storage shelves. Its robust metal construction ensures stability and durability for both children and adults.

SAFETY INFORMATION

Your safety is paramount. Adhere to all warnings and instructions to prevent injury or damage to the product.

- Always follow the assembly instructions carefully to ensure stability.
- Do not exceed the weight capacity of **350 lbs (158.75 kg)**.
- Ensure all bolts and connectors are securely tightened before use and periodically check for tightness.
- The mattress top must sit at least 6 inches below the top of the guard rail for safe use. Recommended mattress thickness is 4-6 inches.
- An anti-tip kit is included and must be used to anchor the bed firmly to the wall, preventing wobble and ensuring maximum stability.
- Do not allow children to play on or under the bed without supervision.
- Use the built-in ladder for climbing only. Do not use chairs or other furniture to access the upper bunk.
- Keep small parts away from children during assembly to prevent choking hazards.

Anti-Tip Mechanism

Non-Slip Ladder Padding

Steel Slat Support

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support immediately.

- Metal frame components (legs, side rails, guardrails, ladder sections)
- Steel mattress support slats
- Desk surface and support beams
- Two triangular storage shelves
- Hardware pack (bolts, nuts, washers, Allen wrench)
- Anti-tip kit
- Instruction manual

ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults. Clear a spacious area for assembly and keep all parts organized. Do not fully tighten bolts until instructed.

Step 1: Prepare the Area and Identify Parts

Unpack all components and lay them out on a soft, clean surface to prevent scratches. Identify each part using the provided parts list in the separate assembly guide.

Step 2: Assemble the Base Frame

Connect the main vertical support legs and horizontal beams to form the base structure of the loft bed. Hand-tighten all bolts initially.

Step 3: Install the Desk and Shelves

Attach the large desk surface to the designated support points on the frame. Secure the two triangular storage shelves to their respective corner positions.

Loft bed Comes With Desk

74.8"L x 17.7"W desktop ensuring you have more space to use for work or study

Image: The integrated desk, providing ample space for a laptop and other items.

Stylish 2-Tier Triangle Shelves

Effortlessly organize and elegantly display your collectibles or photo frames.

Image: The two-tier triangular shelves, suitable for displaying decor or storing small items.

Step 4: Attach the Upper Bed Frame and Guardrails

Assemble the upper bed frame, including the side rails and end panels. Attach the full-length safety guardrails to the upper bunk structure.

Step 5: Install the Ladder

Secure the built-in ladder to the designated attachment points. Ensure the non-slip tread pads are correctly positioned on the rungs.

Step 6: Insert Steel Slats and Final Tightening

Place the steel mattress support slats across the upper bed frame. Once all components are in place and aligned, fully tighten all bolts using the provided Allen wrench. Do not overtighten.

Step 7: Install the Anti-Tip Kit

Follow the instructions provided with the anti-tip kit to securely anchor the loft bed to a wall stud. This step is critical for stability and safety.

OPERATING INSTRUCTIONS

The Garvee Loft Bed is designed for versatile use, combining sleeping, working, and storage functions.

- **Sleeping Area:** Place a twin-size mattress directly onto the steel slats. Ensure the mattress meets the safety requirements regarding guard rail height.
- **Desk Usage:** The spacious desk (74.8" L x 17.7" W) can accommodate computers, books, and other study or work essentials. Maintain an organized workspace for optimal productivity.
- **Storage Shelves:** Utilize the two corner triangular shelves for organizing books, displaying decorative items, or storing personal belongings.
- **Ladder Access:** Always use the built-in ladder for safe access to and from the upper bunk. Ensure hands and feet are dry to prevent slipping.

MAINTENANCE

Regular maintenance will help preserve the appearance and structural integrity of your loft bed.

- **Cleaning:** Wipe down metal surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish. For the desk and shelves, use a mild all-purpose cleaner.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten as necessary.
- **Structural Integrity:** Check for any signs of wear, damage, or instability. If any issues are found, discontinue use and contact customer support.
- **Ladder Pads:** Ensure non-slip ladder pads are intact and securely attached. Replace if worn or damaged.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose bolts; Anti-tip kit not installed or improperly installed.	Check and tighten all bolts. Ensure the anti-tip kit is correctly anchored to a wall stud.
Difficulty assembling parts	Incorrect orientation of parts; Bolts not aligned.	Refer to the assembly guide for correct part orientation. Do not fully tighten bolts until all parts are loosely connected.
Ladder feels slippery	Non-slip pads are worn or missing; Wet feet/hands.	Inspect and replace non-slip pads if necessary. Ensure hands and feet are dry before climbing.
Mattress does not fit properly	Incorrect mattress size; Mattress too thick.	Ensure you are using a twin-size mattress. Verify mattress thickness is within the recommended 4-6 inches and sits at least 6 inches below the guard rail.

PRODUCT SPECIFICATIONS

PRODUCT SIZE
