Funsicle F53FB12S0

Funsicle FiltraBoost 1200S Pool Pump with AutoSkimmer Instruction Manual

Model: F53FB12S0

INTRODUCTION

The Funsicle FiltraBoost 1200S Pool Pump with AutoSkimmer is designed to provide efficient filtration and water circulation for above-ground pools. This 2-in-1 system combines a powerful HydroSurge motor with an automatic skimmer to maintain superior water clarity and reduce energy consumption. It is compatible with Funsicle Oasis, Oasis Designer, and Activity Pools.

Key features include:

- **HydroSurge Motor:** Delivers higher system flow rates while reducing energy consumption.
- **Enhanced Filtration:** Automatic 2-in-1 skimmer and filter for improved water circulation and clarity.
- **Compatibility:** Designed for Funsicle above-ground pools with appropriate outlet and inlet openings.
- **Water Flow Rate:** 1,200 GPH (Gallons Per Hour) for efficient debris and contaminant removal.
- **Safety and Convenience:** Includes a GFCI plug and a hose-free design for easy attachment to the pool wall. Features a transparent unit for filter monitoring.

Automatic 2-in-1 Skimmer & Filter

- Eliminates both large debris and fine particles for cleaner swims
- Efficient HydroSurge™ motor: Stronger filtration for superior water clarity
- Quieter operation and reduced energy costs
- Delivers flow rate of 1,200 GPH (gallons per hour)
- Replace Type C Filter Cartridge only every 2 weeks

User-Friendly Features

- Clear visibility of the pump's interior for easier maintenance
- Hose-free attachment to the pool wall
- Built-in drink holder and essentials tray

SETUP INSTRUCTIONS

Follow these steps to properly set up your Funsicle FiltraBoost 1200S Pool Pump. Ensure the pool is empty or at a safe water level before installation.

- Unpack Components:** Carefully remove all components from the packaging. Verify that all parts are present according to the product manual's parts list.
- Position the Pump:** The FiltraBoost 1200S is designed for sidewall attachment. Position the pump on the exterior of your above-ground pool, ensuring it aligns with the pool's outlet and inlet openings.
- Attach to Pool Wall:** Securely attach the pump unit to the pool wall using the provided mounting hardware. Ensure a tight and stable connection to prevent leaks and ensure proper operation. The hose-free design means it conveniently attaches directly.
- Install Filter Cartridge:** Open the transparent unit and insert the Type C filter cartridge. Close the unit securely.
- Connect Power:** Plug the GFCI plug into a suitable electrical outlet. Ensure the outlet is protected and meets all local electrical codes. *Do not operate the pump until the pool is filled to the recommended level.*

OPERATING INSTRUCTIONS

Once the pump is properly installed and the pool is filled, you can begin operation.

1. **Power On:** Ensure the GFCI plug is securely connected to a power outlet. The pump will begin circulating water.
2. **Automatic Skimming:** The integrated AutoSkimmer will automatically collect larger debris from the water surface as the pump operates.
3. **Filtration:** Water is drawn through the Type C filter cartridge, which captures fine particles, ensuring clean and clear pool water.
4. **Monitoring:** The transparent unit allows for easy visual monitoring of the filter cartridge and skimmer basket to determine when cleaning or replacement is needed.

MAINTENANCE

Regular maintenance is crucial for the longevity and efficiency of your FiltraBoost 1200S Pool Pump.

- **Clean Skimmer Basket:** Periodically check and empty the skimmer basket to remove collected leaves, insects, and other large debris. This prevents clogging and maintains optimal skimming performance.
- **Replace Filter Cartridge:** The Type C filter cartridge should be replaced approximately every two weeks, or more frequently depending on pool usage and water conditions. A dirty filter reduces pump efficiency and water clarity.
- **Inspect Connections:** Regularly check all connections and seals for any signs of wear or leaks. Ensure the pump is securely attached to the pool wall.
- **Winterization:** Before freezing temperatures, disconnect the pump, drain all water, clean the filter and skimmer, and store the unit in a dry, protected area.

TROUBLESHOOTING

If you encounter issues with your FiltraBoost 1200S Pool Pump, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Pump not running	No power; GFCI tripped; Motor malfunction	Check power connection and outlet. Reset GFCI. If problem persists, contact customer support.
Low water flow	Clogged filter cartridge; Full skimmer basket; Air in system	Clean or replace filter cartridge. Empty skimmer basket. Ensure pump is fully submerged and all air is purged from the system.
Water not clearing	Dirty filter; Insufficient run time; Chemical imbalance	Replace filter cartridge. Ensure pump runs for adequate time (8-12 hours daily). Test and adjust pool chemicals as needed.
Unusual noise from pump	Debris in impeller; Air in system; Worn motor bearings	Disconnect power and inspect impeller for debris. Purge air from system. If noise continues, contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	Funsicle
Model Number	F53FB12S0
Product Style	Sidewall Pump with AutoSkimmer
Power Source	Hydraulic Powered (Electric with GFCI Plug)
Water Flow Rate	1,200 GPH (Gallons Per Hour)
Filter Type	Type C Filter Cartridge
Compatibility	Funsicle Oasis, Oasis Designer & Activity Pools (2026 Season Models and Later)
UPC	195545038813
