Pyle PLMRWKBT82BK

Pyle 8-Inch Bluetooth Marine Wakeboard Speakers

MODEL: PLMRWKBT82BK

Introduction

This manual provides essential instructions for the installation, operation, and maintenance of your Pyle 8-inch Bluetooth Marine Wakeboard Speakers. These dual 2-way waterproof speakers are designed for outdoor environments, including boats, ATVs, UTVs, and Jeeps, featuring integrated LED lights and Bluetooth wireless streaming capabilities. Please read this manual thoroughly before use to ensure proper functionality and longevity of your product.

Safety Information

- **Water Exposure:** While these speakers are IP-44 rated waterproof, avoid submerging them in water. Ensure all connections are secure and sealed to prevent water ingress.
- **Power Connections:** Always disconnect power before making any electrical connections. Ensure correct polarity to prevent damage to the speakers or your vehicle's electrical system.
- **Mounting:** Securely mount the speakers using the provided hardware. Improper mounting can lead to speakers detaching during operation, causing injury or damage.
- **Volume Levels:** Prolonged exposure to high volume levels can cause hearing damage. Adjust volume to a comfortable level.
- **Operating Temperature:** Do not operate the speakers outside their recommended temperature range.

What's in the Box

Verify that all components are present before beginning installation:

- (2) Pyle 8-Inch Bluetooth Marine Wakeboard Speakers
- (1) Mounting Bracket
- (8) Bolt Screws
- (2) Rubber Shims

Setup & Installation

The Pyle Marine Wakeboard Speakers are designed for versatile mounting on various outdoor vehicles. The universal mounting brackets accommodate bars and roll cages up to 2.35 inches in diameter.

Mounting the Speakers

- Select Mounting Location:** Choose a secure location on your boat, ATV, UTV, or Jeep where the speakers will not obstruct vision or movement, and where wiring can be safely routed.
- Attach Brackets:** Position the mounting bracket around the chosen bar or roll cage. Use the rubber shims if necessary to ensure a snug fit and prevent scratching.
- Secure Speakers:** Align the speaker with the bracket and secure it using the provided bolt screws. Ensure all screws are tightened firmly to prevent vibration and movement.

Easy Installation

(L x W x H): 11.42" x 22.72" x 13.39" -inches

Max Power 300 Watt

Impedance 4 Ohm

Magnet 20 oz

20.5 lbs.

Wiring Connections

Connect the speaker wires to your audio source (e.g., marine stereo, amplifier) following the polarity markings (+/-). Ensure all connections are insulated and protected from water and corrosion.

Operating Instructions

Bluetooth Pairing

- Power On:** Ensure the speakers are powered on and in Bluetooth pairing mode. The LED lights may indicate pairing status.
- Activate Bluetooth:** On your smartphone, tablet, or other Bluetooth-enabled device, go to the Bluetooth settings and enable Bluetooth.
- Search for Device:** Scan for available devices. You should see "Pyle Audio" or a similar name appear in the list.
- Connect:** Select the Pyle speaker device to initiate pairing. Once connected, a confirmation tone may sound, and the LED lights may change their pattern.
- Play Audio:** You can now stream audio wirelessly from your device to the speakers.

Bluetooth Compatible

Wireless Music Streaming

LED Lights

The speakers feature integrated LED lights that enhance the visual experience. These lights typically activate when the speakers are powered on and may pulse with the music or offer different modes depending on the model's specific control method (e.g., touch control as indicated in specifications).

Maintenance

- Cleaning:** Clean the speaker enclosures with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish or waterproof seals.
- Corrosion Prevention:** Regularly inspect the speakers and mounting hardware for signs of corrosion, especially after exposure to saltwater. Rinse with fresh water and dry thoroughly.
- Connection Checks:** Periodically check all electrical connections to ensure they are tight and free from corrosion.
- Storage:** If storing the speakers for an extended period, especially in harsh conditions, consider covering them or removing them from the vehicle to protect them.

Troubleshooting

Problem	Possible Cause	Solution
No sound from speakers	No power; Incorrect wiring; Bluetooth not connected; Volume too low	Check power supply and connections; Verify wiring polarity; Repair Bluetooth device; Increase volume on both speaker and source device
Bluetooth connection unstable or failing	Device too far; Interference; Speaker not in pairing mode	Move device closer to speakers; Avoid sources of interference; Ensure speakers are in pairing mode and re-attempt connection
Distorted audio	Volume too high; Poor audio source quality; Damaged speaker wire	Reduce volume; Use a higher quality audio source; Inspect and replace damaged wiring
LED lights not working	No power; Faulty connection	Check power supply; Inspect wiring to LED components
