Setup and Assembly

The SAMTRA King Size Bed Frame is designed for straightforward assembly. All necessary parts and tools are included in a single package. Assembly typically takes less than an hour with the assistance of a second person.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Verify all parts against the included parts list.
2. **Assemble Headboard:** Follow the specific instructions in your manual to connect the headboard sections and install the LED strip and charging station components.
3. **Attach Side Rails:** Securely connect the side rails to the headboard and footboard using the provided bolts and tools. Do not overtighten until all connections are made.
4. **Install Center Support:** Place the center support beam and legs as indicated in the manual to ensure proper mattress support.
5. **Place Slats:** Lay the metal support slats across the bed frame. Ensure they are evenly spaced and secured according to the instructions. The non-slip strips and rubber locks (if applicable) should be properly engaged.
6. **Final Tightening:** Once all components are in place and aligned, securely tighten all bolts. Do not overtighten to avoid stripping threads.
7. **Connect Power:** Plug in the power cord for the LED lights and charging station to a suitable wall outlet.

Maintenance and Care

- **Cleaning:** Wipe the wooden surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Dusting:** Regularly dust the frame and headboard to prevent buildup.
- **Hardware Check:** Periodically inspect all bolts and screws to ensure they are tight. Retighten as necessary to maintain stability and prevent squeaking.
- **LED Care:** Do not attempt to disassemble or modify the LED light strip. If issues arise, contact customer support.

Troubleshooting

Problem	Possible Cause	Solution
---------	----------------	----------

Bed frame squeaks	Loose bolts; uneven floor; slats not properly seated.	Tighten all bolts. Ensure the bed is on a level surface. Check that all slats are correctly positioned and secured.
LED lights not working	Power cord disconnected; remote battery low; LED strip damaged.	Ensure the power cord is securely plugged into the wall and the headboard. Replace remote batteries. If the issue persists, contact customer support.
Charging ports not functioning	Power cord disconnected; device cable faulty; port damage.	Verify the bed frame's power cord is plugged in. Try a different charging cable or device. If still not working, contact customer support.
Bed feels unstable	Loose connections; missing support legs; incorrect assembly.	Re-check all bolt connections and tighten them. Ensure all support legs are installed and making firm contact with the floor. Review assembly steps.
