## uwant V500

# uwant V500 Cordless Vacuum Cleaner Instruction Manual

Model: V500

## INTRODUCTION

---

Thank you for choosing the uwant V500 Cordless Vacuum Cleaner. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read it thoroughly before first use and keep it for future reference.

## WHAT'S IN THE BOX

---

Carefully unpack all components and ensure all items are present. If any parts are missing or damaged, please contact customer support.

- Base Station x 1
- Vacuum Cleaner (Main Unit) x 1
- Metal Tube x 1
- Narrow Crevice Tool x 1
- 2-in-1 Brush Tool x 1
- Floor Brush x 1
- Battery x 1
- Adapter x 1
- Dust Bag x 2 (1 pre-installed)

## Experience the Power of Self-Emptying

Up to 60 days hands-free;  
Keeps cleaning simple & dust-free.

2L Dust Bag & 0.4L Dust Cup

Image: All components included with the uwant V500 Cordless Vacuum Cleaner.

Text Description: The image displays all parts of the uwant V500 Cordless Vacuum Cleaner laid out. These include the main vacuum unit, the floor brush, metal extension tube, narrow crevice tool, 2-in-1 brush tool, battery, power adapter, base station, and two dust bags.

## SETUP

### 1. Assembling the Vacuum

1. Insert the metal tube into the main vacuum unit until it clicks securely.
2. Attach the floor brush to the other end of the metal tube, ensuring it clicks into place.
3. Insert the battery into the designated slot on the main unit until it locks.

### 2. Setting up the Auto-Empty Docking Station

1. Assemble the base station components as shown in the diagram.
2. Connect the power adapter to the base station and plug it into a wall outlet.
3. Place the assembled vacuum cleaner onto the base station for charging and storage. The base station also provides storage for the accessory tools.

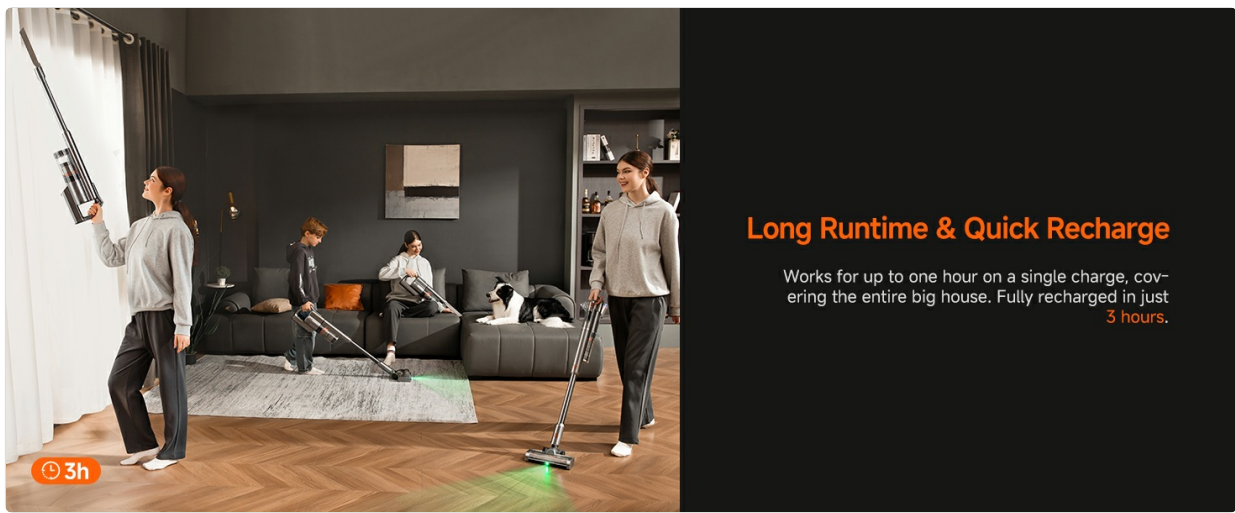

Image: The uwant V500 vacuum docked in its all-in-one station, showing charging and accessory storage.

Text Description: The image illustrates the compact docking station for the uwant V500. The vacuum automatically charges when docked, and the station includes dedicated slots for organizing accessories like the crevice tool and 2-in-1 brush. A dog is visible in the background, suggesting a pet-friendly environment.

## OPERATING INSTRUCTIONS

### 1. Power Modes and Suction

The uwant V500 offers multiple power modes to suit different cleaning needs:

- **Eco Mode:** For light cleaning and extended battery life.
- **Standard Mode:** Balanced power for everyday cleaning on various surfaces.
- **Boost Mode:** Provides maximum suction (up to 50,000Pa) for stubborn dirt and deep cleaning.

Select the desired mode using the control panel on the main unit. The vacuum delivers powerful suction to effectively remove embedded dirt, pet hair, crumbs, and fine dust from carpets, rugs, and hard floors.

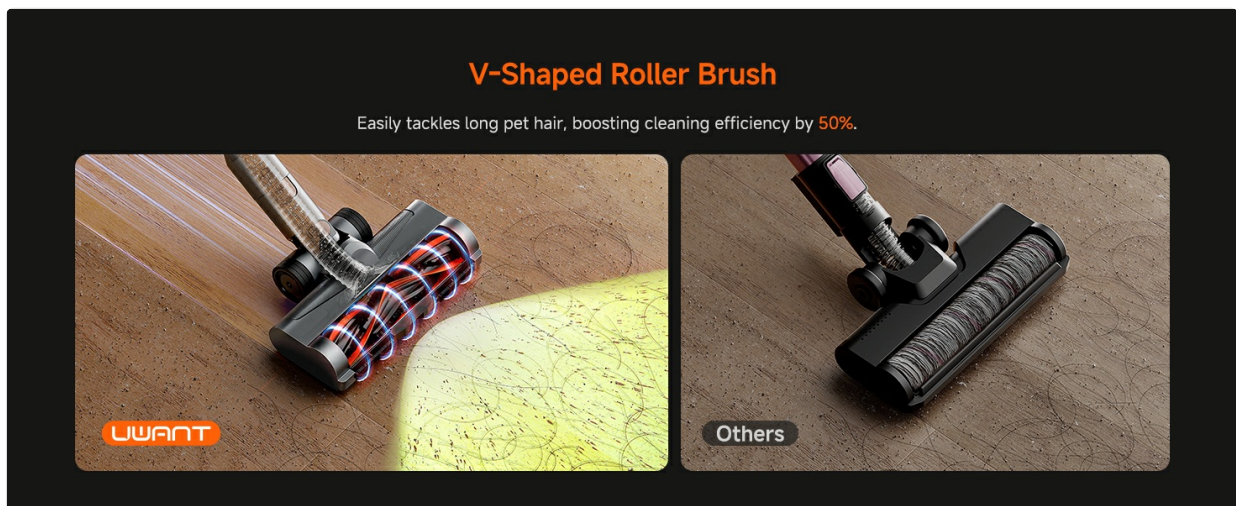

Image: The uwant V500 vacuum head cleaning a floor with confetti, highlighting its 50,000Pa suction power and three cleaning modes (Eco, Standard, Boost).

Text Description: This image shows the uwant V500 vacuum in action, cleaning a floor covered with colorful confetti. The display on the vacuum indicates its 50,000Pa suction power and the three available modes: Eco, Standard, and Boost, along with a battery indicator. The green light from the brush head illuminates the debris, emphasizing its effectiveness.

### 2. Green Light Dust Detection

The floor brush is equipped with a green LED headlight that reveals hidden dust and debris, making cleaning more thorough, especially in low-light areas or on hard-to-see surfaces.

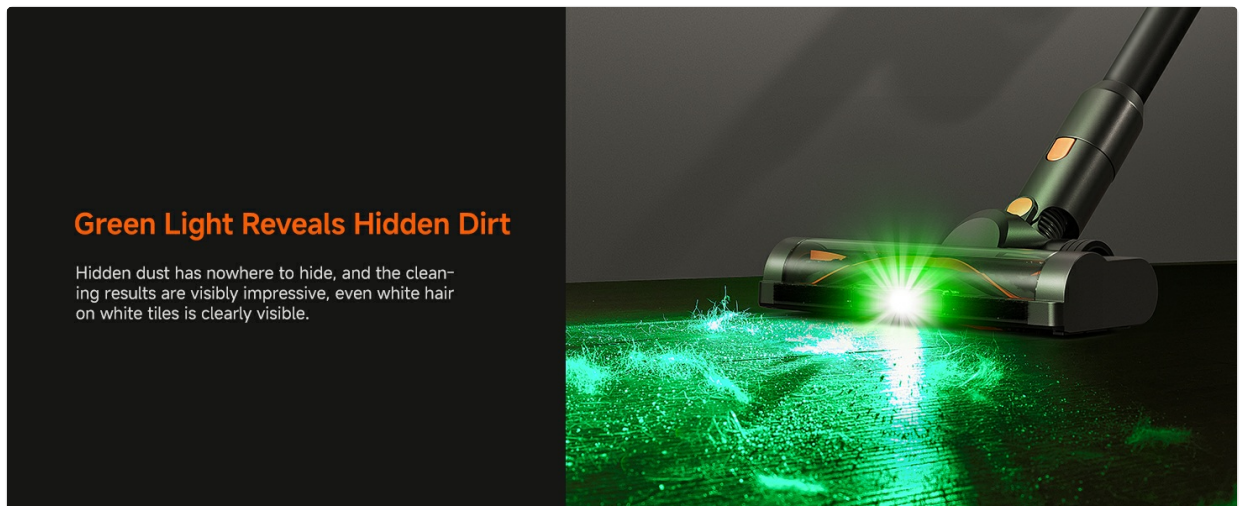

Image: The uwant V500's green light illuminating dust and pet hair on a dark floor, demonstrating its dust detection capability.

Text Description: The image shows the uwant V500's floor brush with a bright green LED light shining on a dark floor, revealing fine dust particles and pet hair that would otherwise be invisible. This feature enhances cleaning effectiveness by making hidden dirt clearly visible.

### 3. Auto-Empty and Dust Scraping System

When the vacuum is returned to its docking station, the auto-empty base automatically transfers collected dust and debris from the vacuum's dust cup into a larger 2L dust bag within the station. A built-in scraper ring simultaneously cleans hair and debris from the brush roll, minimizing tangles and reducing manual maintenance.

Image: The uwant V500's auto-empty base with a dust bag being inserted, illustrating the self-emptying feature.

Text Description: This image shows the uwant V500's auto-empty base, with a hand inserting a 2L dust bag into the station. The main vacuum unit is shown docked, emphasizing the hands-free dust collection system. A dog is visible in the background, suggesting the product's suitability for pet owners.

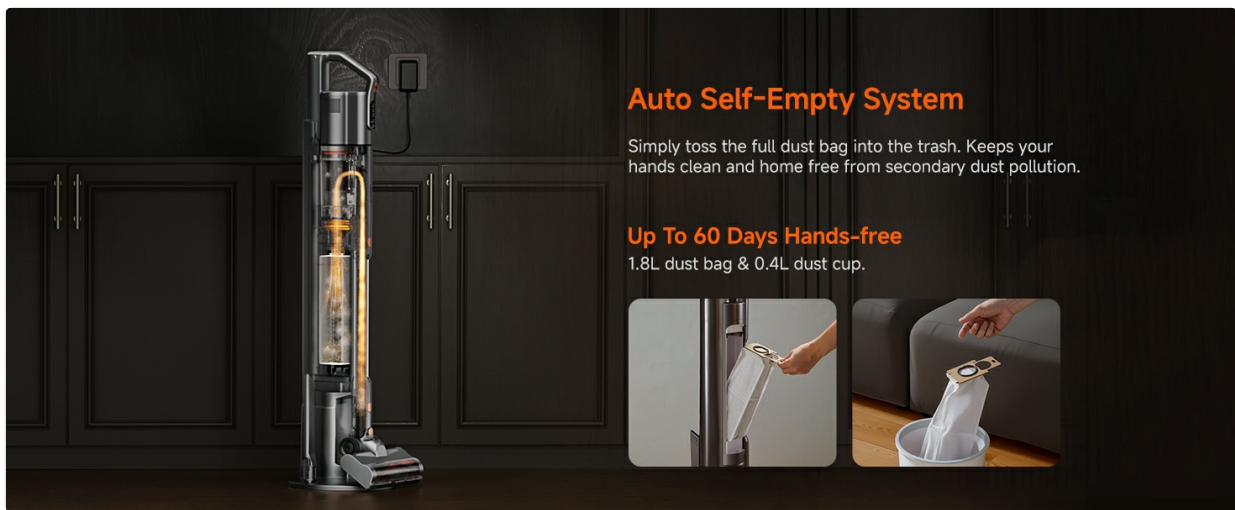

Image: A close-up of the uwant V500's dust cup and internal components, highlighting the dust scraping technology.

Text Description: The image provides a detailed view of the uwant V500's dust cup, showcasing the internal dust scraping technology. Text overlays indicate that this technology prevents hair tangles and clogs, tackles sticky dust like damp dirt, and helps maintain strong suction longer.

#### 4. Battery Life and Charging

The high-capacity battery provides up to 60 minutes of runtime in normal mode on a single charge. A full recharge takes approximately 3 hours. The battery indicator on the main unit displays the remaining charge.

Image: The uwant V500's battery and charging details, showing approximately 60 minutes runtime and 3 hours charging time.

Text Description: This image highlights the extended runtime and rapid charging capabilities of the uwant V500. It specifies a runtime of approximately 60 minutes in normal mode, a battery capacity of 7x2,500 mAh, and a charging time of 3 hours. The vacuum is shown next to its charging base.

## MAINTENANCE

### 1. Emptying the Dust Bag

The auto-empty base's dust bag needs to be replaced approximately every 180 days, depending on usage. To replace:

1. Open the dust bag compartment on the base station.
2. Carefully remove the full dust bag and dispose of it.
3. Insert a new dust bag, ensuring it is properly seated.
4. Close the compartment securely.

## 2. Cleaning Filters

The V500 features a 7-stage HEPA filtration system. Regularly check and clean the filters to maintain optimal suction and air quality. Refer to the user manual for detailed filter cleaning instructions.

Image: A cutaway view of the uwant V500's 7-stage filtration system, showing the various filter layers.

Text Description: The image displays a transparent view of the uwant V500's dust collection and filtration system, highlighting its 7-stage design. Text indicates that this system traps 99.98% of dust, including PM2.5 and pollen, preventing pollution and extending motor life.

## 3. Brush Roll Maintenance

The anti-tangle brush roll minimizes hair wrap. However, if significant hair or debris accumulates, remove the brush roll from the floor brush and clean it. The auto-empty base's scraper ring also assists in keeping the brush roll clean.

## TROUBLESHOOTING

- **No Power:** Ensure the battery is fully charged and correctly inserted. Check if the power adapter is properly connected to the base station and wall outlet.
- **Weak Suction:** Check if the dust cup or dust bag is full and needs emptying/replacement. Clean all filters. Ensure the brush roll is free of obstructions and spinning correctly.
- **Unusual Noise:** Inspect the brush roll and suction path for any foreign objects. Ensure all parts are correctly

assembled.

- **Auto-Empty Not Working:** Check if the dust bag in the base station is full or incorrectly inserted. Ensure the vacuum is properly docked.

For further assistance, refer to the detailed troubleshooting section in the full user manual or contact customer support.

## SPECIFICATIONS

Feature	Detail
Brand	uwant
Model Name	V500
Special Feature	Cordless, Auto-Empty, Auto Dust Scrap System, Green LED Dust Reveal
Filter Type	HEPA Filter (7-Layer Filtration)
Suction Power	Up to 50,000Pa
Power Source	Battery Powered
Battery Capacity	7x2,500 mAh
Runtime (Normal Mode)	Approx. 60 minutes
Charging Time	Approx. 3 hours
Dust Cup Capacity	0.4 Liters
Auto-Empty Dust Bag Capacity	2 Liters (up to 180 days hands-free)
Item Weight	5.5 Pounds
Dimensions (L x W x H)	11.6"L x 9.7"W x 7"H
Voltage	26.2 Volts
Wattage	450 watts
Control Method	Touch

## WARRANTY AND SUPPORT
