Jiawu SmartWatch Fitness Tracker Call IP67 User Manual

Model: Jiawu6wpv5q14ir

INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Jiawu SmartWatch Fitness Tracker. Please read this manual carefully before using the device to ensure proper functionality and to maximize your user experience.

PACKAGE CONTENTS

Upon unpacking, please verify that all items listed below are present and in good condition.

- Jiawu SmartWatch (with metal band installed)
- Silicone Band (pair)
- Charging Cable (USB)
- User Manual (this document)

Image: Contents of the Jiawu SmartWatch package, showing the smartwatch with a metal band, a pair of silicone bands, and the USB charging cable.

SETUP

1. Initial Charging

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge takes approximately 2 hours.

Image: Close-up of the USB charging cable for the Jiawu SmartWatch.

2. Powering On

Press and hold the power button (usually located on the side of the watch) until the screen illuminates. The watch will display the startup sequence.

3. App Installation and Pairing

1. Download the *FitCloudPro* application from your smartphone's app store (compatible with Android 5.0 and above, iOS 11.0 and above).
2. Open the *FitCloudPro* app and create an account or log in.
3. Enable Bluetooth on your smartphone.
4. In the *FitCloudPro* app, navigate to the device pairing section and search for your Jiawu SmartWatch.
5. Select your watch from the list of available devices to initiate the pairing process. Follow any on-screen prompts on both your phone and watch to confirm the connection.

Once paired, the watch will synchronize time, date, and other settings with your smartphone.

4. Band Installation/Adjustment

The smartwatch comes with a metal band pre-installed and an additional silicone band. To change or adjust the band, use the quick-release pins located on the underside of the band near the watch lugs. Ensure the band is securely attached before wearing.

OPERATING INSTRUCTIONS

1. Navigating the Interface

The Jiawu SmartWatch features a 1.46-inch TFT touch screen with a 360x360 resolution. Swipe left, right, up, or down to access different functions and menus. Press the side button to return to the home screen or wake the device.

2. Customizing Watch Faces

You can personalize your watch face through the *FitCloudPro* app. Select from various pre-installed designs or upload your own images to customize the display to your preference.

3. Fitness Tracking (100+ Sports Modes)

The smartwatch supports over 100 sports modes. To start a workout:

1. Swipe on the watch screen to find the "Workout" or "Sports" menu.
2. Select your desired activity (e.g., running, cycling, swimming).
3. Tap to start the tracking. The watch will record data such as steps, distance, calories burned, and heart rate.
4. To end a workout, swipe or press the side button, then select "End" or "Pause".

All recorded data will synchronize with the *FitCloudPro* app for detailed analysis.

4. Call and Notification Management

Once paired with your smartphone, the smartwatch allows you to manage calls and receive notifications directly on your wrist.

- **Incoming Calls:** When a call comes in, the watch will display the caller ID. You can answer, reject, or end calls directly from the watch screen.
- **Notifications:** Receive alerts for messages, emails, and app notifications. Swipe down from the top of the watch face to view your notification history.

Information notifications, always online.

Image: A person interacting with the voice assistant feature on the Jiawu SmartWatch.

5. Sleep Monitoring

Wear the smartwatch while sleeping to track your sleep patterns. The watch automatically detects sleep duration and quality (deep sleep, light sleep, awake time). View detailed sleep reports in the *FitCloudPro* app to help improve your sleep habits.

MAINTENANCE

1. Cleaning

- Wipe the watch screen and body with a soft, lint-free cloth.
- For stubborn stains, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- Clean the charging contacts regularly to ensure efficient charging.

2. Water Resistance (IP67)

The Jiawu SmartWatch has an IP67 water resistance rating, meaning it is protected against dust and can withstand immersion in

water up to 1 meter for up to 30 minutes. It is suitable for daily activities like hand washing, sweating during workouts, and rain. It is also suitable for swimming. However, it is not recommended for hot showers, saunas, or diving, as steam and high water pressure can compromise the seals.

3. Battery Care

- Avoid fully discharging the battery frequently.
- Store the watch in a cool, dry place when not in use for extended periods.
- Use only the provided charging cable.

TROUBLESHOOTING

Problem	Possible Solution
Watch does not power on	Ensure the watch is fully charged. Press and hold the power button for at least 10-15 seconds.
Cannot pair with smartphone	• Ensure Bluetooth is enabled on your phone. • Make sure the watch is within range of your phone. • Restart both the watch and your phone. • Clear the Bluetooth cache on your phone (if applicable). • Ensure the <i>FitCloudPro</i> app is updated to the latest version.
Notifications not received	• Check notification settings in the <i>FitCloudPro</i> app. • Ensure the app has necessary permissions on your phone (e.g., notification access). • Verify that the watch is connected via Bluetooth.
Inaccurate fitness data	• Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. • Calibrate the watch in the <i>FitCloudPro</i> app if a calibration option is available.
Short battery life	• Reduce screen brightness. • Disable unnecessary features (e.g., continuous heart rate monitoring if not needed). • Ensure the watch is fully charged (approx. 2 hours for 7 days usage).

SPECIFICATIONS

Model Number	Jiawu6wpv5q14ir
Display	1.46 inch TFT, 360x360 resolution, Touch Screen
Main Control Chip	BT8959T5
Flash Memory	128 MB
Water Resistance Rating	IP67
Battery Type	260 mAh Lithium Battery

Charging Time	Approx. 2 hours
Usage Time	Up to 7 days
Standby Power Consumption	At least 70uA
Compatible Systems	Android 5.0 and above, iOS 11.0 and above
Application	FitCloudPro
Connectivity Technology	Bluetooth (implied by call function and app pairing)
Country of Origin	China

Note: The specification "ethernet" for connectivity technology in some product listings appears to be an error in the source data. Smartwatches typically use Bluetooth for smartphone connectivity.

WARRANTY INFORMATION

This Jiawu SmartWatch comes with a **2-year manufacturer's warranty**. This warranty covers defects in materials and workmanship under normal use. It does not cover damage caused by misuse, accidents, unauthorized modifications, or failure to follow the instructions in this manual. Please retain your proof of purchase for warranty claims.

SUPPORT

If you encounter any issues not covered in the troubleshooting section or require further assistance, please contact Jiawu customer support. Refer to the product packaging or the official Jiawu website for contact details. For the latest updates and FAQs, visit the *FitCloudPro* app's support section or the manufacturer's website.
