TROUBLESHOOTING

Earbuds Not Pairing/Connecting:

- Ensure both earbuds are charged.
- Turn off and on your device's Bluetooth.
- Place earbuds back in the case, close the lid, wait a few seconds, then open again to re-enter pairing mode.
- If previously paired, try "forgetting" the device in your phone's Bluetooth settings and re-pairing.

Only One Earbud Working:

- Ensure both earbuds are charged.
- Place both earbuds back into the charging case, close the lid, and then open it again. This often resets the connection between them.
- Check if both earbuds are properly seated in the charging case and making contact with the charging pins.

Charging Issues:

- Verify the USB-C cable is securely connected to both the case and the power source.
- Try a different USB-C cable or power adapter.
- Ensure the charging contacts on the earbuds and in the case are clean and free of debris.
