1.2 Wall Mounting

Follow these steps to securely mount your LED wall lamp:

1. Select a suitable location on the wall for installation.
2. Use the mounting bracket as a template to mark the drill holes.
3. Drill holes and insert wall plugs.
4. Secure the mounting bracket to the wall using the provided screws.
5. Attach the lamp base to the mounted bracket. Ensure it is securely fastened.

1.3 Battery Charging

The lamp features a removable 8000 mAh battery. For initial use, fully charge the battery.

1. Gently slide the battery compartment out from the lamp base.
2. Connect the provided USB-C cable to the battery pack and a suitable USB power adapter (not included).
3. The charging indicator will show the charging status (e.g., red for charging, green for fully charged).
4. Once fully charged, reinsert the battery pack into the lamp base.

2. OPERATING INSTRUCTIONS

The Viugreum LED Wall Lamp can be operated using both the integrated touch control and the included remote control.

2.1 Touch Control

The touch switch is located on the lamp base:

- **Click:** Turn the lamp ON/OFF.
- **Long Press:** Adjust brightness (10% to 100%).
- **Short Press:** Change color temperature (3000K Warm, 4500K Natural, 6500K Cold).

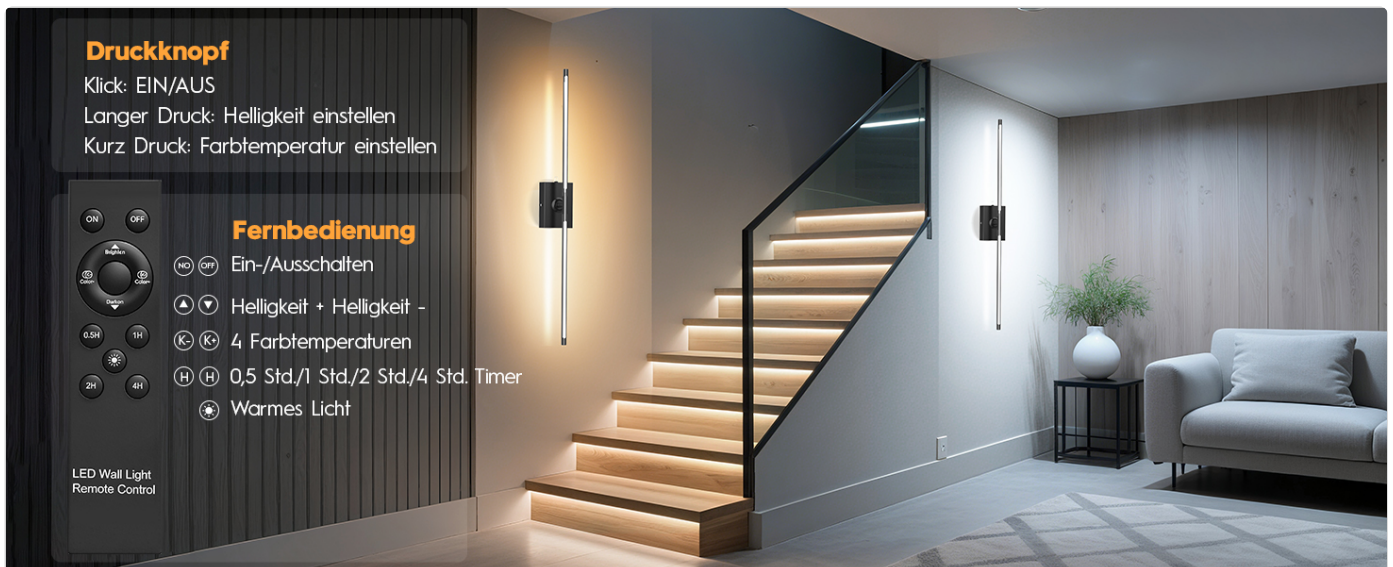

Image: Demonstrating the touch control functions for power, brightness, and color temperature adjustments.

2.2 Remote Control

The remote control offers comprehensive adjustments for brightness, color temperature, and timer settings.

- **ON/OFF:** Power button.
- **Brightness Adjustment:** Use '+' and '-' buttons to increase or decrease brightness (10% to 100%).
- **Color Temperature Adjustment:** Cycle through 3000K (Warm), 4500K (Natural), and 6500K (Cold) settings.

- **Timer Function:** Set the lamp to turn off automatically after 0.5, 1, 2, or 4 hours.

3. MAINTENANCE

3.1 Cleaning

To maintain the appearance and performance of your lamp:

- Ensure the lamp is turned off and disconnected from any power source before cleaning.
- Wipe the surface with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish.

3.2 Battery Care

Proper battery care ensures longevity and optimal performance:

- Charge the battery fully before first use.
- Avoid completely draining the battery frequently. Recharge when the light output becomes noticeably dim.
- If storing the lamp for an extended period, charge the battery to approximately 50% and store in a cool, dry place. Recharge every 3-6 months to prevent deep discharge.
- The battery is designed for easy removal and charging, eliminating the need to disassemble the entire lamp.

4. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	Battery is depleted or not properly inserted.	Charge the battery. Ensure the battery pack is correctly inserted into the lamp base.

Problem	Possible Cause	Solution
Remote control not working.	Remote battery is depleted or line of sight is obstructed.	Replace the remote control battery. Ensure there are no obstructions between the remote and the lamp.
Light output is dim or inconsistent.	Low battery charge.	Recharge the lamp battery.
Cannot change color temperature or brightness.	Incorrect operation or remote control issue.	Refer to the "Operating Instructions" section. Try using both touch and remote controls. Ensure remote battery is functional.

5. SPECIFICATIONS
