

Cybex Callisto G 360

Cybex Callisto G 360 Rotating All-in-One Convertible Car Seat

Model: Callisto G 360

INTRODUCTION

The Cybex Callisto G 360 is an all-in-one convertible car seat designed to provide safety, comfort, and convenience for your child from infancy through elementary school years. This manual provides essential information for proper installation, operation, and maintenance of your car seat.

SAFETY FEATURES

The Callisto G 360 incorporates the **SafetyAssure Protection System**, engineered to enhance performance in various situations, making it up to 37% safer than standard seats based on head and chest injury metrics.

Key Safety Components:

- **Anti-Rebound Base with SecureFix360 Tether:** Minimizes movement during a crash and ensures maximum stability.
- **Linear Side-Impact Protection:** Reduces forces on the child in the event of a side collision.
- **Steel Frame Construction:** Integrates the seat and base, providing reinforced crash protection.
- **SensorSafe Bluetooth-Enabled Chest Clip:** Provides real-time safety alerts to your smartphone. This system can alert you if your child unbuckles while the car is moving, if the temperature in the car is too hot or too cold, or if your child is still buckled in after you leave the vehicle. In critical situations, it can even notify emergency contacts and share your location.

37% SAFER IN A CRASH* WITH SAFETYASSURE

*Based on head and chest injury metrics as compared to the same seat without these features

SETUP & INSTALLATION

The **SafeLock 1-Time Installation System** simplifies the car seat setup process, ensuring a secure fit with minimal effort.

Installation Steps:

1. **Tether:** Fasten the tether strap to your vehicle's designated anchor point for enhanced stability.
2. **Route:** Open the SafeLock door on the car seat, route the vehicle's seatbelt through the belt guide, and click it into place.
3. **Secure:** Pull the seatbelt tight to remove any slack, then close the SafeLock door to lock the belt securely.
4. **Check:** Ensure the car seat is firmly installed and does not move more than 1 inch side-to-side or front-to-back at the belt path.

OPERATING INSTRUCTIONS

360° Rotation

The Callisto G 360 features a 360° rotation mechanism, allowing you to easily turn the car seat towards the car door. This simplifies loading and unloading your child, reducing strain and improving accessibility. The rotation works in any recline position.

Recline Positions

The car seat offers 5 recline options, ensuring your child's comfort whether rear or forward-facing. Adjust the recline by pulling the lever located at the front of the seat base and tilting the seat to the desired position.

Adjustable Headrest

The 12-position adjustable headrest with a no-rethread harness system allows for a precise fit as your child grows, ensuring maximum comfort and safety. To adjust, simply lift the lever on the back of the headrest and slide it to the appropriate height.

Sun Canopy

A removable UPF 50+ sun canopy provides adjustable, oversized shade for full sun protection, keeping your child comfortable during rides.

MODES OF USE

The Callisto G 360 is an all-in-one seat, adapting to your child's growth through three distinct modes:

- **Rear-Facing Infant Seat:** For children weighing 4-40 lbs (1.8-18.2 kg).
- **Forward-Facing Toddler Seat:** For children weighing 26.5-65 lbs (12-29.5 kg).
- **Belt Positioning Booster:** For children weighing 40-120 lbs (18.2-54.4 kg).

MAINTENANCE

- **Fabrics:** The car seat features machine washable fabrics for easy cleaning. Refer to the care label for specific washing instructions.
- **Air Ventilation:** Advanced all-around air ventilation, featuring a perforated shell and breathable mesh fabrics, helps keep your child cool in every season. Ensure air vents are not obstructed.
- **Cup Holders:** The integrated color-matching cup holders are removable and dishwasher safe for convenient cleaning.
- **Harness System:** The Easy-In Flip Forward Buckle Pad and Magnetic Buckle Holders keep straps neatly out of the way for quick, hassle-free buckling. Regularly inspect the harness for any signs of wear or damage.

| Item Weight | 35 Pounds |
| Material Type | Plastic |
| Certifications | GREENGUARD Gold Certified |

TROUBLESHOOTING

- **Loose Installation:** Ensure the SafeLock system is correctly engaged and the seatbelt is pulled tight. Re-check the tether connection.
- **Harness Adjustment:** If the harness is difficult to adjust, ensure no fabric is caught in the mechanism. Refer to the manual for detailed adjustment steps.
- **SensorSafe Alerts:** If you are receiving unexpected SensorSafe alerts, check the SensorSafe app for diagnostic information. Ensure the receiver is properly plugged into your vehicle's OBD port and your phone is connected via Bluetooth.
- **Rotation Issues:** Ensure the car seat is not obstructed by vehicle seats or other items when attempting to rotate.

For any complex issues or concerns, please refer to the comprehensive user manual provided with your product or contact Cybex customer support.

WARRANTY & SUPPORT
