## 1. INTRODUCTION

---

The Lumisilk Lumina 2.0 Pro is an advanced Intense Pulsed Light (IPL) hair removal device designed for effective and long-lasting hair reduction. This manual provides essential information for safe and optimal use of your device, ensuring a smooth and comfortable experience. Please read all instructions carefully before first use and retain this manual for future reference.

no requiere carga

**Image 1:** Overview of Lumisilk Lumina 2.0 Pro benefits. This image highlights features such as less hair after one use, smoother skin for longer, painless and gentle operation, 6 intensity levels, full body treatment in 30 minutes, 900,000 flashes (sufficient for over 30 years), suitability for all body parts, and corded use without requiring charging.

## 2. SAFETY INFORMATION

Your safety is paramount. Adhere to the following precautions to prevent injury or damage to the device:

- **Read the entire manual:** Before using the device, thoroughly read and understand all instructions.
- **Skin Tone Compatibility:** IPL technology is most effective on light to medium skin tones with dark hair. It is not suitable for very dark skin tones or very light (blonde, red, grey) hair. Consult the skin tone chart in the manual (if provided) or a professional if unsure.
- **Eye Protection:** Always wear the provided safety glasses during treatment to protect your eyes from the intense light. Do not look directly into the light flash.
- **Areas to Avoid:** Do not use the device on tattoos, moles, birthmarks, scars, varicose veins, or areas with skin conditions such as eczema, psoriasis, or active infections. Avoid use on mucous membranes (e.g., lips, nostrils, genitals).
- **Medical Conditions:** Consult a doctor before use if you have any medical conditions, are pregnant, breastfeeding, or taking photosensitizing medications.
- **Sun Exposure:** Avoid sun exposure or tanning beds for at least 4 weeks before and during treatment.

Always use sunscreen (SPF 30+) on treated areas exposed to the sun.

- **Cleaning:** Ensure the device is clean and dry before each use. Do not use abrasive cleaners or immerse the device in water.
- **Children and Pets:** Keep the device out of reach of children and pets.
- **Power Supply:** Use only the original power adapter supplied with the device.

### 3. PACKAGE CONTENTS

---

Verify that all items are present in the package:

- Lumisilk Lumina 2.0 Pro IPL Hair Removal Device
- Power Adapter
- Safety Glasses
- User Manual

### 4. SETUP

---

1. **Prepare Skin:** Before treatment, ensure the skin is clean, dry, and free of any lotions, oils, or deodorants. Shave the area to be treated. Do not wax, pluck, or use depilatory creams, as these remove the hair follicle which is necessary for IPL to be effective.
2. **Connect Power:** Plug the power adapter into the device and then into a suitable electrical outlet. The device will enter standby mode.
3. **Wear Safety Glasses:** Always put on the provided safety glasses before turning on the device.

### 5. OPERATING INSTRUCTIONS

---

#### 5.1 Powering On/Off

- To power on, press and hold the power button for 2 seconds. The LCD screen will illuminate.
- To power off, press and hold the power button for 2 seconds again.

#### 5.2 Selecting Energy Levels

The device offers 6 adjustable energy levels. Start with a lower level (1-2) and gradually increase as your skin tolerates it. Higher levels provide more effective results but require careful skin monitoring.

- Press the power button briefly to cycle through the 6 energy levels. The selected level will be displayed on the LCD screen.

## 6 niveles adaptados a tu piel.

**Image 2:** Device display and mode selection. This image illustrates the device's LCD screen showing the selected energy level (e.g., 6) and the two operating modes: Automatic (flashes automatically upon skin contact) and Manual (flashes when the button is pressed).

### 5.3 Operating Modes (Automatic/Manual)

The Lumina 2.0 Pro features two modes for convenience:

- **Automatic Mode:** Ideal for larger areas like legs or arms. The device will automatically emit a flash when the treatment window is fully in contact with the skin.
- **Manual Mode:** Suitable for smaller or sensitive areas like the face or bikini line. Press the flash button each time you want to emit a flash.
- To switch between modes, press and hold the flash button for 2 seconds. The mode indicator on the LCD screen will change.

### 5.4 Application Technique

1. Ensure the treatment window is clean.
2. Place the treatment window firmly against the skin, ensuring full contact.
3. In Automatic Mode, the device will flash automatically. In Manual Mode, press the flash button.
4. Move the device slowly across the skin, ensuring each area is treated once. Avoid overlapping

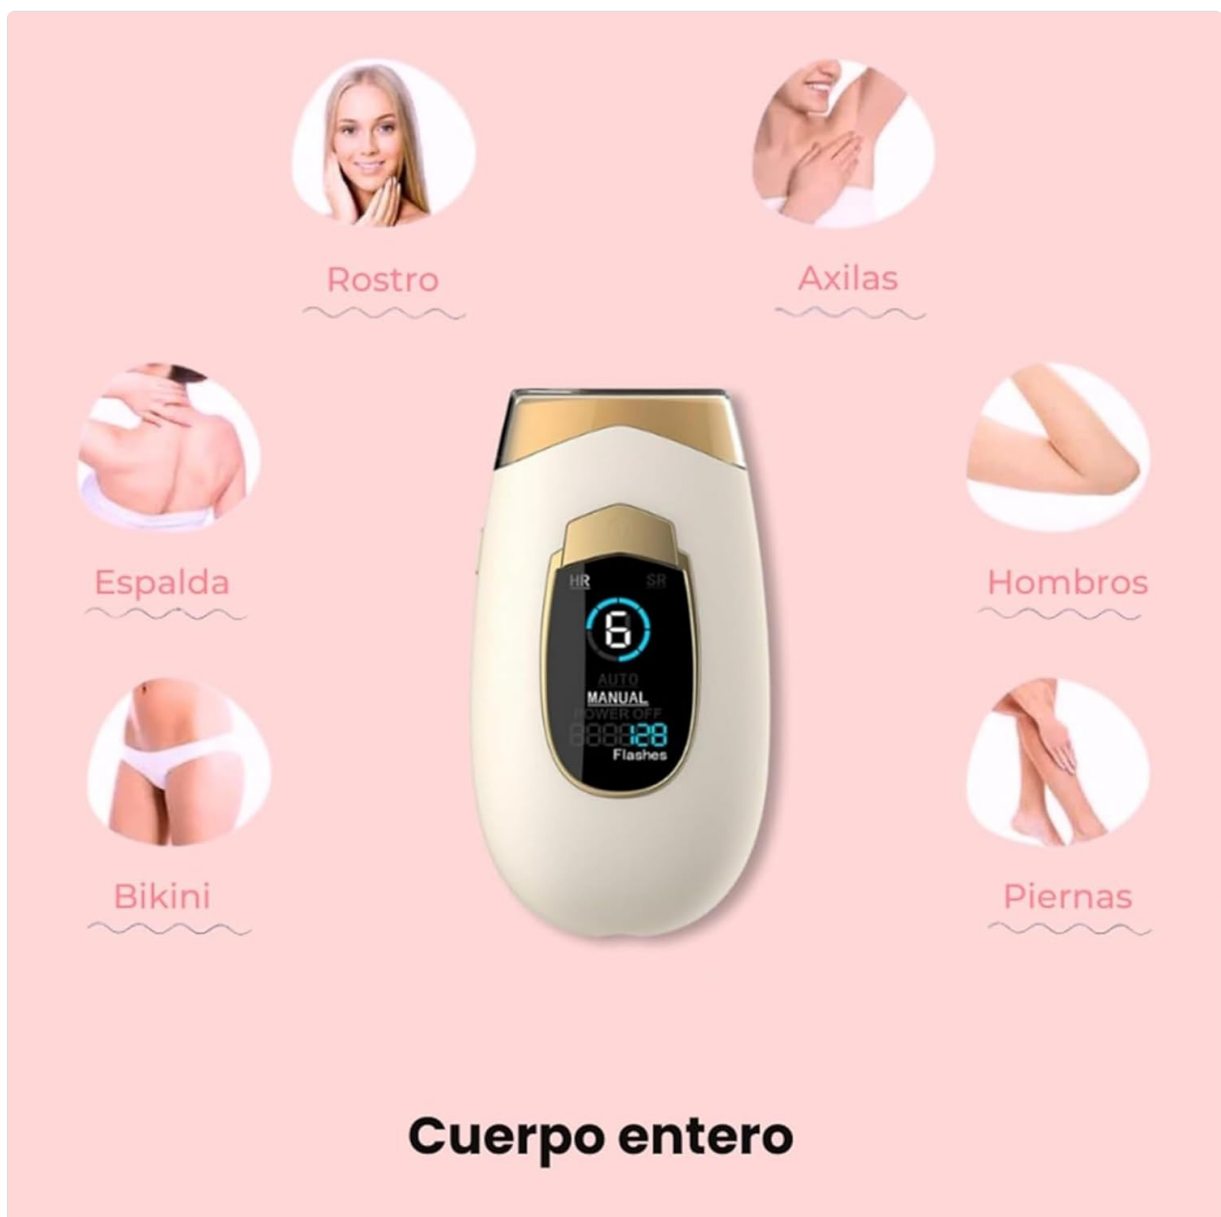

flashes excessively.

5. After treatment, a slight redness or warmth is normal. Apply a soothing lotion if desired.

## 5.5 Recommended Treatment Areas

The device is suitable for use on various body parts:

- Face (below cheekbones)
- Armpits
- Back
- Shoulders
- Bikini Area
- Legs
- Arms

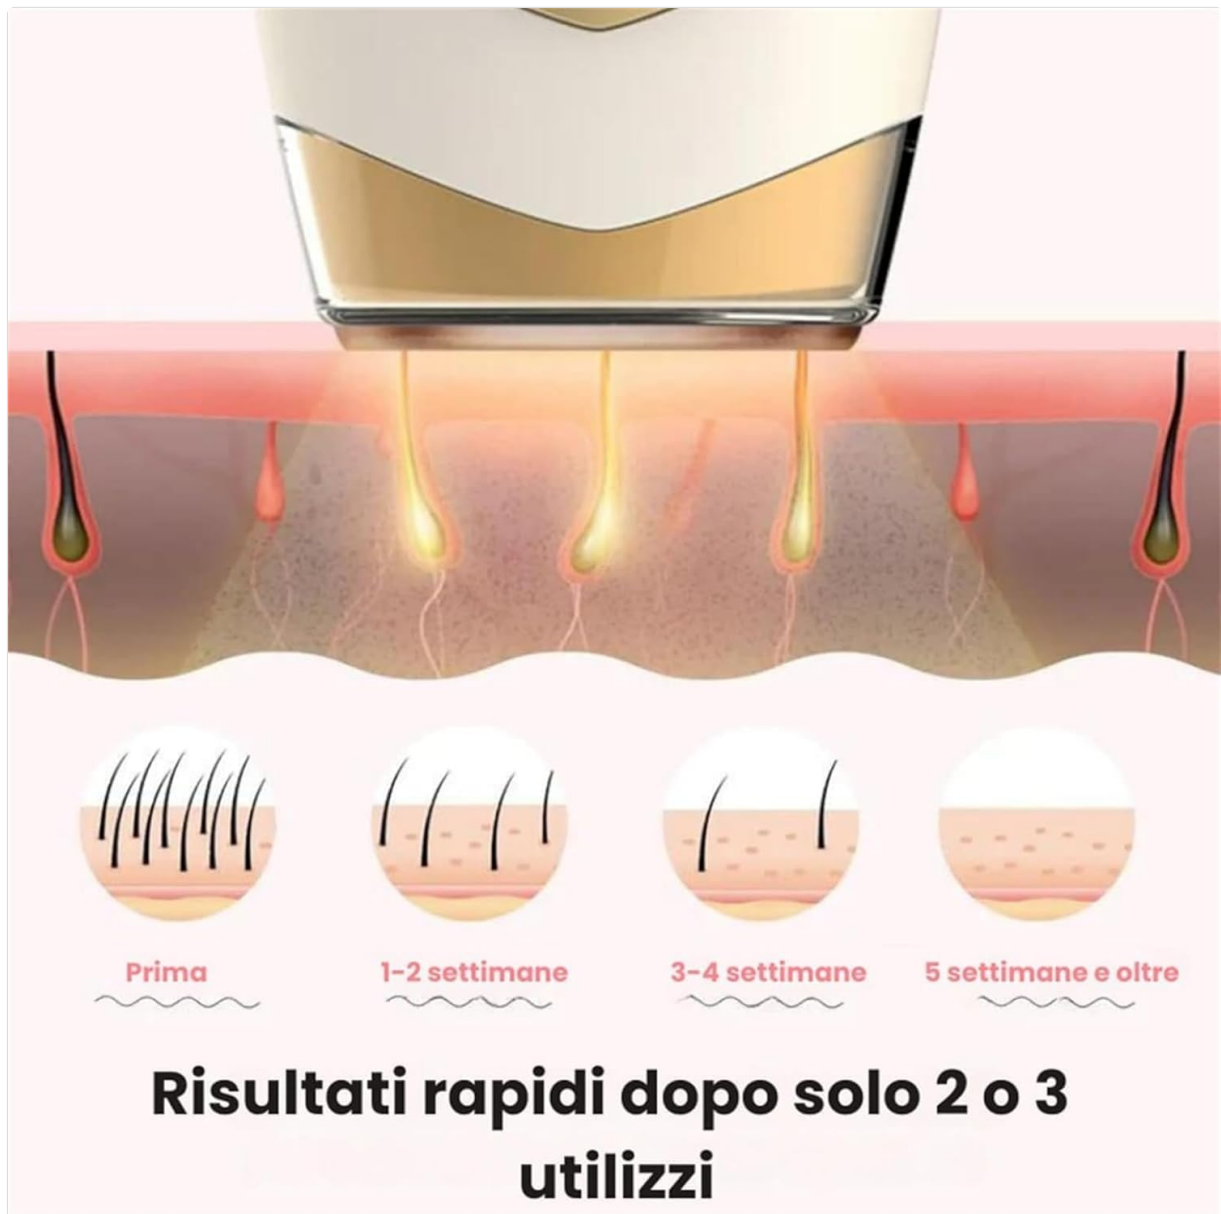

**Image 3:** Recommended treatment areas for the Lumisilk Lumina 2.0 Pro. This image visually indicates that the device can be used on the face, armpits, back, shoulders, bikini area, and legs for full body hair removal.

## 5.6 Treatment Schedule and Expected Results

For optimal results, follow a consistent treatment schedule:

- **Initial Phase:** Perform 2-3 sessions per week for the first 5 weeks. Each session should last approximately 10 minutes per area.
- **Visible Results:** Noticeable hair reduction can be observed after 5 weeks of consistent use.
- **Maintenance Phase:** After the initial phase, reduce treatments to once every 2-4 weeks or as needed to maintain results.

**Image 4:** Hair reduction progress with Lumisilk Lumina 2.0 Pro. This diagram shows the typical progression of hair reduction, from full hair before treatment, to noticeable reduction after 1-2 weeks, further reduction after 3-4 weeks, and smooth skin from 5 weeks onwards, indicating fast results.

## 6. MAINTENANCE

### 6.1 Cleaning the Device

- Always unplug the device before cleaning.
- Use a soft, dry cloth to wipe the treatment window and the device body.
- If necessary, a slightly damp cloth with a mild, non-abrasive cleaner can be used, but ensure no liquid enters the device.
- Allow the device to dry completely before storing or next use.

## 6.2 Storage

- Store the device in a cool, dry place, away from direct sunlight and moisture.
- Keep it in its original packaging or a protective case to prevent damage.

## 7. TROUBLESHOOTING

If you encounter issues, refer to the table below:

Problem	Possible Cause	Solution
Device does not turn on.	Not properly plugged in; power outlet issue.	Ensure power adapter is securely connected to both the device and the outlet. Try a different outlet.
Device flashes intermittently or not at all.	Treatment window not in full contact with skin; device overheating.	Ensure the treatment window is fully pressed against the skin. Allow the device to cool down for a few minutes if it feels warm.
Skin irritation or discomfort.	Energy level too high; unsuitable skin type; improper use.	Reduce the energy level. Ensure your skin tone is compatible with IPL. Review application technique. If irritation persists, discontinue use and consult a doctor.
No visible hair reduction after several weeks.	Inconsistent use; incorrect energy level; hair/skin type not ideal.	Ensure consistent treatment schedule. Increase energy level if tolerated. IPL may not be effective for very light hair or very dark skin.

## 8. SPECIFICATIONS

- **Model:** Lumina 2.0 Pro
- **Technology:** Intense Pulsed Light (IPL)
- **Energy Levels:** 6 adjustable levels
- **Flash Capacity:** Up to 999,900 flashes (long-lasting)
