1. PRODUCT OVERVIEW

The Pawfly 3 Inch Aquarium Shrimp Net is designed for delicate handling of small aquatic life and efficient cleaning of aquariums and small ponds. It features an extendable stainless steel handle and a soft, fine nylon mesh net.

Image 1.1: The Pawfly Aquarium Shrimp Net highlighting its strengthened frame and durable stainless steel rod.

Key Features:

- **Tiny Shrimp Net:** Diameter: 3.1 inches; Pocket depth: 2.1 inches. Ideal for scooping shrimp, fry, and baby fish in small tanks and ponds.
- **Telescopic Handle:** Stainless steel handle extends from 5.3 inches (closed) to 15.5 inches

(extended), allowing access to deeper areas without hand immersion. The rod is designed for stiffness and resistance to rust.

- **Fine Nylon Mesh:** Soft, well-woven nylon netting that stretches naturally in water, preventing injury to delicate aquatic life.
- **Versatile Use:** Securely catches and transfers small fish and shrimp. Also effective for skimming debris, food residue, or leaves from aquariums and small ponds.
- **Easy to Store:** Features a key ring at the handle's end for convenient hanging storage.

2. SETUP

The Pawfly Aquarium Shrimp Net requires minimal setup before use.

1. **Unpack the Net:** Carefully remove the net from its packaging.
2. **Extend the Handle:** Hold the handle firmly and gently pull the inner sections outwards to extend it to the desired length. The handle can extend up to 15.5 inches (approximately 40 cm).

Image 2.1: The telescopic handle extended, illustrating its reach for deeper tanks.

3. **Inspect the Net:** Before first use, check the nylon mesh for any snags or damage to ensure it is safe for aquatic life.

3. OPERATING INSTRUCTIONS

The Pawfly Aquarium Shrimp Net is designed for gentle and effective use in various aquatic environments.

3.1 Catching and Transferring Aquatic Life:

- Slowly submerge the net into the water.
- Gently guide the target fish, shrimp, or fry into the net. Avoid sudden movements that could startle or harm them.
- Once the aquatic life is in the net, carefully lift it out of the water and transfer it to the desired location. The soft mesh minimizes stress and injury.

Image 3.1: The fine nylon mesh net designed for safe and gentle handling of delicate aquatic creatures.

3.2 Skimming Debris:

- Extend the handle to reach floating debris, food residue, or leaves on the water surface or bottom.
- Slowly sweep the net through the water to collect unwanted particles. The fine mesh ensures efficient collection of small debris.
- Lift the net out of the water and dispose of the collected debris.

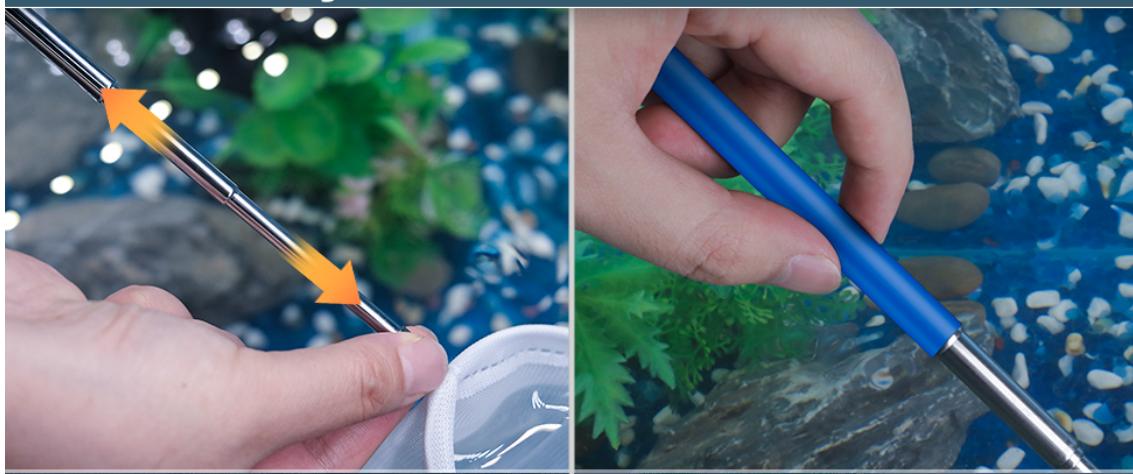

Image 3.2: The net's versatility for skimming various types of debris and waste from aquariums.

4. MAINTENANCE

Proper maintenance ensures the longevity and effectiveness of your Pawfly Aquarium Shrimp Net.

- Cleaning:** After each use, rinse the net thoroughly with clean water to remove any residue or debris.
- Drying:** Allow the net to air dry completely in a cool, ventilated place.
- Storage:** Utilize the integrated key ring at the end of the handle to hang the net for convenient and space-saving storage. Retract the handle to its shortest length before hanging.

Sturdy Stainless Steel Handle

Freely extendable up to 20 inches
Tough & resistant to rust or corrosion

Thick plastic cover for protection
Effectively prevent slipping during use

Image 4.1: The practical key ring allows for easy hanging and storage of the net.

5. TROUBLESHOOTING

The Pawfly Aquarium Shrimp Net is a simple tool with few components, making troubleshooting generally straightforward.

- Handle not extending/retracting smoothly:** Ensure the handle sections are clean and free of debris. Gently twist and pull/push to operate. Avoid forcing the mechanism.
- Net appears damaged:** Inspect the mesh for tears or holes. While the net is durable, sharp objects can cause damage. If significantly damaged, replacement may be necessary.
- Ineffective debris collection:** Ensure the net is fully submerged and swept slowly through the water. Very fine particles might require multiple passes.

6. SPECIFICATIONS

Feature	Detail
Net Diameter	3.1 inches
Net Pocket Depth	2.1 inches
Handle Material	Stainless Steel
Handle Length (Closed)	5.3 inches
Handle Length (Extended)	15.5 inches
