## Shodu HB188NA-5060

# Shodu Electric Blanket Throw Instruction Manual

Model: HB188NA-5060 | Brand: Shodu

## INTRODUCTION

---

The Shodu Electric Blanket Throw is designed to provide warmth and comfort with its soft flannel fabric and advanced heating technology. This manual guides you through the safe and effective use, maintenance, and specifications of your heated blanket.

## SAFETY INFORMATION

Your safety is paramount. Please read and adhere to all safety instructions before using the electric blanket.

- The electric blanket is designed for standard 120V AC wall outlets at 60Hz.
- It features NTC overheating protection technology and a 10-hour automatic shut-off to prevent overheating and ensure safety.
- The blanket is ETL & FCC certified, indicating compliance with safety standards and low electromagnetic radiation.
- **Important:** Do not tuck in, trap, fold, cross, pinch, or wrap the control or cord with the heated blanket during use. Ensure the blanket is spread out flat to allow heat to dissipate evenly and prevent damage to heating elements.

Image: Visual guide illustrating improper ways to use the electric blanket, emphasizing the importance of keeping it unfolded and untangled.

## SETUP

Follow these steps to set up your electric blanket for the first time:

1. **Unpack:** Carefully remove the electric blanket and its controller from the packaging.
2. **Connect Controller:** Locate the circular adapter on the side of the blanket. Connect the controller cord to this adapter. Ensure it clicks securely into place.
3. **Plug In:** Plug the power cord into a standard 120V AC wall outlet. The power cord is 8.5 feet long, offering flexibility in placement.
4. **Spread Flat:** Lay the blanket flat on your bed, sofa, or desired surface, ensuring there are no folds, creases, or bunched areas.

selecting a heat level.

## OPERATING INSTRUCTIONS

---

The electric blanket features a user-friendly one-button control design for easy operation.

1. **Power On/Off:** Press the power button on the controller to turn the blanket on or off.
2. **Adjust Heat Settings:** The controller offers 5 heat settings, ranging from 86°F (Warm) to 113°F (Most High). Press the power button repeatedly to cycle through the heat levels. The indicator lights will show the currently selected setting.
3. **Automatic Shut-off:** For your safety and convenience, the blanket will automatically turn off after 10 hours of continuous use.

## MAINTENANCE

---

To ensure the longevity and proper functioning of your electric blanket, follow these care instructions:

- **Disconnect Controller:** Always unplug the controller cord from the blanket before washing.
- **Washing:** The electric blanket can be hand-washed or machine-washed. If using a machine, wash gently with cold water.
- **Do NOT:** Dry clean, bleach, or iron the blanket.
- **Drying:** Ensure the blanket is completely dry before reconnecting the power plug or control plug. Air dry or tumble dry on a low-temperature setting.
- **Reconnect:** Once completely dry, first connect the controller cord to the blanket, then plug into electricity for use.

## SPECIFICATIONS

Feature	Detail
---------	--------

Material	Flannel
Color	Blue & White
Brand	Shodu
Special Feature	Corded Electric, Skin Friendly, Thermal
Style	Modern
Blanket Form	Throw Blanket
Age Range (Description)	Adult
Product Dimensions	50"L x 60"W
Theme	Heated blanket
Fabric Type	Flannel
Number of Items	1
Model Name	HB188NA-5060
UPC	797093398601
Manufacturer	Shodu
Item Weight	4.51 pounds
ASIN	B0FQ2FV1XM
Item model number	HB188NA-5060
Date First Available	September 6, 2025

## TROUBLESHOOTING

---

If you encounter any issues with your Shodu Electric Blanket Throw, please refer to the following general guidelines:

- **No Heat:** Ensure the controller is securely connected to the blanket and the power cord is firmly plugged into a working electrical outlet. Check if the blanket is spread flat and not folded or bunched, which can trigger safety features.
- **Uneven Heat:** Make sure the blanket is laid out smoothly without any wrinkles or folds that could prevent even heat distribution.
- **Controller Lights Not On:** Verify the power connection. If the issue persists, try a different outlet.

For more detailed troubleshooting or persistent problems, please contact customer support.
