MAINTENANCE

To ensure the longevity and performance of your SKAPENDY VK81 headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. The foldable design makes it ideal for travel and compact storage.
- **Battery Care:** Avoid fully discharging the battery frequently. Charge it regularly to maintain battery health.
- **Microphone Care:** Handle the flexible microphone boom gently. Avoid excessive bending or twisting.

TROUBLESHOOTING

If you encounter issues with your headset, please refer to the following common solutions:

• **No Sound/Low Volume:**

- Ensure the headset is powered on and properly connected (2.4GHz dongle or Bluetooth).
- Check the volume levels on both the headset and your connected device.
- Verify that the correct audio output device is selected in your device's sound settings.

• **Microphone Not Working:**

- Ensure the microphone is not muted on the headset.
- Check if the microphone is properly inserted into its port.
- Verify microphone settings on your connected device (e.g., input device selection, volume).
- Note: Microphone function is not supported on Nintendo Switch.

• **Connectivity Issues:**

- For 2.4GHz mode, ensure the USB dongle is securely plugged in. Try a different USB port.
- For Bluetooth mode, ensure Bluetooth is enabled on your device and the headset is in pairing mode (long press 'M' button for 3s).
- Move closer to your device to reduce interference.
- Restart both the headset and your connected device.

• **RGB Lights Not Working:**

- Ensure the headset has sufficient battery charge.
- Press the RGB button to toggle the lighting on/off.
