4. MAINTENANCE

To ensure the longevity and optimal performance of your CAMECHO car stereo, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Temperature:** Operate the unit within the specified temperature range (-20 °C to 70 °C). Extreme temperatures can affect performance and lifespan.
- **Software Updates:** Periodically check for and install software updates to ensure the system runs efficiently and securely.
- **Avoid Liquids:** Keep the unit away from liquids to prevent damage to internal components.

5. TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common troubleshooting steps:

5.1. Unit Not Powering On or Functioning

If the in-car player is not working after installation, ensure that ports 'A' and 'B' (as circled in the wiring diagram image in Section 2.2) are correctly connected. Disconnect and reconnect them, then retest the unit. Incorrect wiring is a common cause of power or functionality issues.

5.2. General Troubleshooting Tips

- **No Sound:** Check speaker connections and audio settings (volume, EQ).

- **Poor Radio Reception:** Ensure the radio antenna is properly connected.
- **GPS Signal Issues:** Verify the GPS antenna is installed in a clear location with an unobstructed view of the sky.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, contact support.

If you are unsure how to proceed with any troubleshooting step, or if the problem persists, please contact CAMECHO customer support for assistance.
