ZJIAH Twin Bunk Beds

ZJIAH Low Bunk Bed Twin Over Twin Instruction Manual

Model: Twin Bunk Beds

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your ZJIAH Low Bunk Bed Twin Over Twin. Please read all instructions carefully before assembly and use to ensure safe and proper functioning of the product. Keep this manual for future reference.

2. SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always follow assembly instructions carefully to prevent instability.
- Be cautious of sharp edges during assembly and use.
- Do not exceed the weight capacity of 400 lbs for the bottom bed and 200 lbs for the top bed.
- Keep the ladder clear of obstacles for safe climbing.
- This product is intended for children, so adult supervision is recommended at all times.
- Ensure all connections are tight before each use. Periodically check and tighten hardware as needed.
- The top bunk is not suitable for children under 6 years of age.
- Use only mattresses that are 6 to 8 inches thick for both upper and lower bunks.
- Always use the guardrails on the top bunk.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact ZJIAH customer support.

- Bed Frame Components (Headboards, Footboards, Side Rails)
- Guardrails (for upper bunk)

- Ladder
- Slats (for upper bunk)
- Hardware Pack (screws, bolts, nuts, Allen wrench)
- Assembly Manual

Overall Dimensions (L x W x H)	79.1" x 42" x 46.5"
Material	Solid Wood
Color	White
Upper Bunk Weight Capacity	200 lbs
Bottom Bunk Weight Capacity	400 lbs
Recommended Mattress Thickness	6" - 8" (Upper/Bottom)
Special Features	No Box Spring Needed, Slatted, Space Saving, Low Profile

Image 1: Diagram showing the dimensions of the ZJIAH Low Bunk Bed Twin Over Twin. Overall dimensions are 79.1 inches L x 42 inches W x 46.5 inches H. The top bunk is 13.4 inches high from the guardrail to the mattress support, and the bottom bunk has 27.8 inches of clearance.

5. ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults. Please follow the steps below. Refer to the included hardware pack and

diagrams for specific component identification.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify all parts against the parts list in your included manual.
2. **Assemble End Panels:** Attach the headboard and footboard panels for both the upper and lower bunks. Ensure all bolts are finger-tight at this stage.
3. **Attach Side Rails:** Connect the side rails to the assembled end panels for both the upper and lower bunks. Ensure the rail connectors are securely fitted.
4. **Install Slats:** Place the wooden slats onto the support ledges of the upper bunk. Secure them with the provided screws. The bottom bunk does not include slats and is designed for a mattress to rest directly on the floor.
5. **Attach Guardrails:** Securely attach the full-length guardrails to the upper bunk's side rails using the designated hardware.
6. **Install Ladder:** Attach the 3-step wide ladder to the designated side of the bunk bed. Ensure it is firmly secured to prevent movement.
7. **Final Tightening:** Once all components are in place, systematically tighten all bolts and screws using the provided Allen wrench. Do not overtighten.

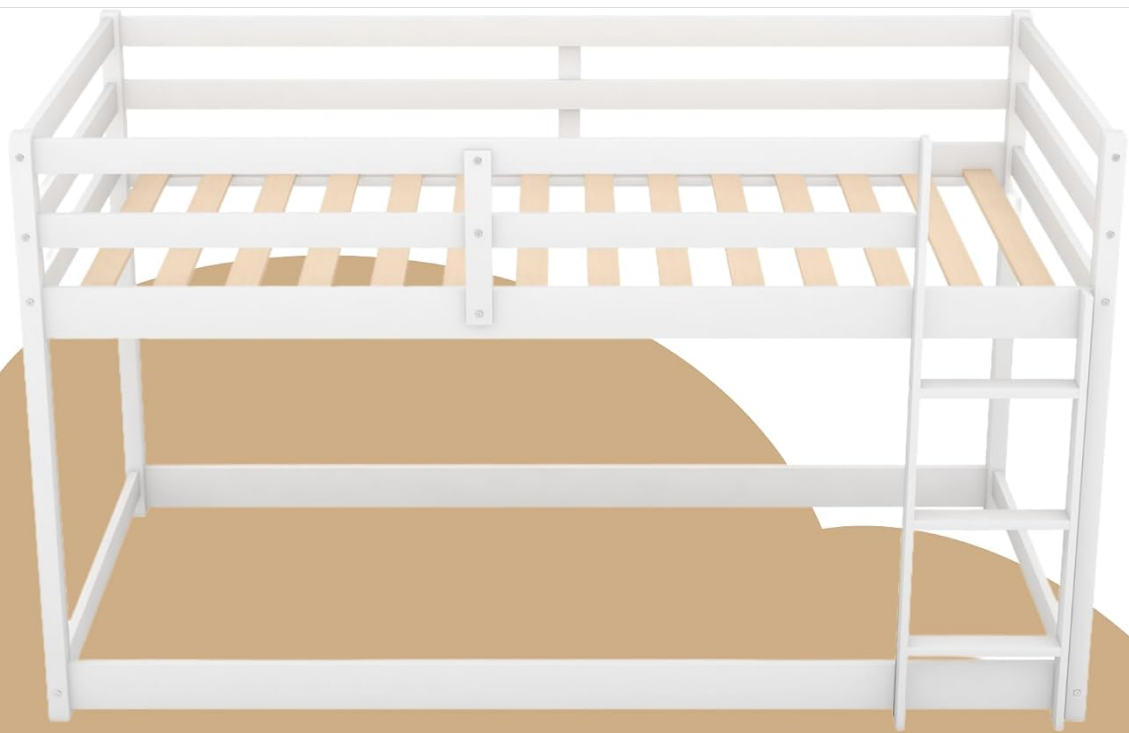

Solid Wood Low Bunk Bed Twin Over Twin

	Sturdy Wooden Frame		Easy to Assemble	
Large Weight Capacity		Space-saving Design		Safe and Non-toxic

6. OPERATING INSTRUCTIONS

To ensure safe and comfortable use of your bunk bed, please adhere to the following guidelines:

- **Weight Limits:** The upper bunk has a maximum weight capacity of 200 lbs. The lower bunk has a maximum weight capacity of 400 lbs. Do not exceed these limits.
- **Mattress Usage:** Use only twin-size mattresses with a thickness between 6 and 8 inches for both bunks. Ensure the mattress on the upper bunk sits below the top edge of the guardrails.
- **Ladder Use:** Always use the provided ladder for climbing to and from the upper bunk. Ensure the ladder is stable and free of obstructions before use. Face the ladder when climbing up or down.
- **Guardrails:** The upper bunk is equipped with full-length guardrails for safety. Do not remove or modify these guardrails.
- **General Use:** Do not allow jumping on the bed. Avoid rough play on or around the bunk bed.

7. MAINTENANCE

Regular maintenance will help prolong the life and safety of your bunk bed.

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they may damage the finish.
- **Hardware Checks:** Periodically (e.g., monthly) inspect all bolts, screws, and connections to ensure they are tight. Retighten as necessary. Loose hardware can compromise the bed's stability and safety.
- **Structural Integrity:** Check for any signs of wear, cracks, or damage to the wooden components. If significant damage is found, discontinue use and contact customer support.

8. TROUBLESHOOTING

If you encounter any issues with your bunk bed, refer to these common troubleshooting tips:

- **Squeaking Noises:** Squeaking often indicates loose hardware. Re-tighten all bolts and screws throughout the frame. Ensure the bed is on a level surface.
- **Instability/Wobbling:** This is usually due to incomplete or loose assembly. Double-check all connections and ensure every bolt is securely tightened according to the assembly instructions.
- **Missing Parts:** If you discover missing parts during assembly, do not attempt to substitute them with other hardware. Contact ZJIAH customer support immediately for replacements.

9. WARRANTY AND SUPPORT

For any questions, concerns, or to report missing/damaged parts, please contact ZJIAH customer support. Refer to your purchase documentation for specific warranty details. Keep your proof of purchase for warranty claims.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
