Chrangmay 505

Chrangmay 31.5" Corner Makeup Vanity Table with Lighted Mirror Instruction Manual

Model: 505

Introduction

Thank you for purchasing the Chrangmay 31.5" Corner Makeup Vanity Table with Lighted Mirror. This manual provides essential information for the safe assembly, operation, and maintenance of your new vanity table. Please read these instructions carefully before use and retain them for future reference.

Safety Information

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Always unplug the vanity before assembly, disassembly, or cleaning.
- Exercise caution regarding sharp edges and potential pinch points during assembly and use.
- Do not place heavy objects on the vanity that could compromise its stability or cause it to tip over.
- Keep the vanity away from direct heat sources and excessive moisture.
- If the vanity is to be used by children, ensure adult supervision to prevent accidents.
- The main desk with the mirror and the side storage cabinet are designed to be adjustable in position but are not secured together with screws or locking mechanisms. Exercise caution, especially in households with children or pets, to prevent accidental displacement or tipping.

Package Contents

Before beginning assembly, ensure all parts are present and undamaged. Refer to the included assembly guide for a complete list of components and hardware.

- Vanity Tabletop with integrated drawers
- Lighted Mirror
- Side Storage Cabinet with drawers
- Table Legs (with adjustable feet)

- Assembly Hardware (screws, connectors, etc.)
- Power Adapter for Lighted Mirror

Assembly Instructions

Assembly is required. It is recommended to have two people for assembly. Please follow the detailed instructions provided in the separate assembly manual included with your product. The following points highlight key features and considerations during assembly:

1. Flexible Configuration

The vanity table is designed for flexible placement. The side storage cabinet can be positioned on either the left or right side of the main vanity desk. The overall length of the vanity can also be adjusted by sliding the main desk relative to the storage cabinet.

Figure 1: Adjustable Storage Cabinet Position and Vanity Length

This image illustrates how the side storage cabinet can be placed on either the left or right side of the main vanity desk, and how the overall width of the vanity can be adjusted to fit your space.

Important Note: The main desk and the side storage cabinet are designed to be adjustable and are not permanently secured together. Ensure stable placement and be mindful of this feature, especially in active environments.

2. Installing Legs and Back Plate

Attach the table legs securely to the main vanity desk and the storage cabinet. The legs feature adjustable feet to ensure stability on uneven surfaces. The vanity also includes a 0.47-inch thick back plate for enhanced stability and load-bearing capacity.

Figure 2: Through-Hole Mounting Legs

This image shows the sturdy through-hole mounting legs, designed for good load-bearing properties and free movement without falling off.

Figure 3: Adjustable Foot

This image displays the 360-degree adjustable foot, allowing for leveling the vanity on uneven floors.

3. Drawer Installation

Install the drawers using the provided smooth three-section slides. These slides ensure easy pushing and pulling and allow the drawers to extend fully for convenient access to items.

Figure 4: Smooth Three-Section Drawer Slides

This image highlights the smooth three-section guide rail design, which allows drawers to pull out completely and operate quietly (under 40 dB).

Operating Instructions

1. Lighted Mirror Operation

The vanity mirror features integrated LED lighting with three adjustable color modes and dimmable brightness.

- **Power On/Off:** Touch the intelligent switch located on the mirror surface to turn the lights on or off.
- **Change Light Color:** Briefly touch the intelligent switch to cycle through the three light color modes: Cool Light, Neutral Light, and Warm Light.
- **Adjust Brightness:** Press and hold the intelligent switch to adjust the brightness level of the selected light color. Release when the desired brightness is achieved.

Figure 5: Lighted Mirror Controls

This image demonstrates the three adjustable light modes (Cool, Neutral, Warm) and the touch-sensitive control for power and brightness adjustment on the mirror.

2. Drawer Usage

The vanity features multiple drawers for organized storage. The main desk includes two drawers, and the side storage cabinet includes two larger drawers. Each drawer has a load capacity of 30 lbs.

Figure 6: Drawer Storage

This image illustrates the storage capacity of the vanity, showing items organized within the drawers and on the spacious desktop.

Maintenance

- **Cleaning:** For general cleaning, wipe the vanity surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Mirror Care:** Clean the mirror with a glass cleaner and a soft, lint-free cloth. Do not spray cleaner directly onto the mirror to prevent liquid from entering the electrical components.
- **Drawer Slides:** Periodically check drawer slides for smooth operation. If needed, a small amount of silicone lubricant can be applied to the slides.
- **Hardware:** Ensure all screws and fittings remain tight. Periodically check and tighten as necessary to maintain structural integrity.

Troubleshooting

Problem	Possible Cause	Solution
Lighted mirror does not turn on.	Power adapter not connected or faulty.	Ensure the power adapter is securely plugged into both the vanity and a working electrical outlet. Check the outlet with another device.
Lights are dim or flickering.	Brightness setting is low; power issue.	Press and hold the touch switch to increase brightness. Check power connection.
Drawers are stiff or do not slide smoothly.	Misalignment; debris in slides; slides need lubrication.	Check for proper alignment of drawer slides. Clear any obstructions. Apply a silicone lubricant to the slides if necessary.
Vanity feels unstable or wobbly.	Uneven floor; loose leg connections.	Adjust the leveling feet on the bottom of the legs. Ensure all leg attachment screws are tightened securely.

Specifications

Feature	Detail
Model Number	505
Brand	Chrangmay
Material	E0 Grade Environmental Protection Density Board, Engineered Wood, Metal Legs
Color	Black
Overall Dimensions (Adjustable)	Approx. 15.75"D x 31.5"-47.25"W x 51.18"H (including mirror)
