MAINTENANCE

To maintain the appearance and longevity of your Huuger nightstand, follow these care guidelines:

- **Cleaning:** The premium painted surface is waterproof and easy to clean. Wipe with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Spills:** Promptly wipe up any spills to prevent staining or damage to the engineered wood.
- **Protection:** Use coasters under drinks and protective pads under heavy or sharp objects placed on the top surface.
- **Movement:** When moving the nightstand, lift it rather than dragging to prevent damage to the legs and floor. The felt pads on the legs help reduce noise and protect flooring during minor adjustments.

TROUBLESHOOTING

This section addresses common concerns you might encounter with your nightstand.

- **Drawer Pulls Clanking:** If the drawer pulls produce a clanking sound when opening or closing drawers, especially if using only one handle, this is due to the design of the ring pulls. This is generally not a functional issue. If desired, the pulls can be replaced with alternative knob-style hardware.
- **Nightstand Not Sitting Flush Against Wall:** The integrated charging station uses a standard plug that extends from the wall. If your wall outlet is directly behind the nightstand, the unit may not sit flush against the wall, requiring approximately 3.5 inches of clearance. This can affect the effectiveness of the anti-tip brackets if they do not extend far enough to reach the wall. Consider using a low-profile extension cord or relocating the nightstand if a flush fit is critical.
- **Assembly Difficulties:** If you encounter issues during assembly, double-check the illustrated instructions and ensure all parts are correctly identified and oriented. The parts kit includes some extra pieces in case of loss.
