ASSEMBLY INSTRUCTIONS

Follow the detailed step-by-step instructions provided in the included manual to assemble your sunflower bouquet and vase. It is recommended to sort pieces by color and type before beginning assembly.

General Assembly Steps:

1. **Unpack and Sort:** Carefully open all bags and sort the building blocks according to color and shape. Refer to the parts list in your manual to ensure all pieces are present.
2. **Build the Vase:** Begin by assembling the base of the vase, following the sequential steps in the instruction booklet. Ensure all connections are firm.
3. **Construct the Flowers:** Assemble each flower type (sunflowers, daisies, hyacinths, eucalyptus) individually. Pay close attention to the petal and leaf orientations for a realistic appearance. The petals are adjustable for customized display.
4. **Combine and Arrange:** Once the vase and individual flowers are complete, insert the flower stems into the vase. Arrange them to create your desired bouquet composition. The stems are designed for robust connection and can be adjusted for height and angle.

MAINTENANCE

To keep your Qinline Sunflower Bouquet looking its best, follow these simple maintenance tips:

- **Cleaning:** Dust regularly with a soft, dry cloth or a soft brush. For deeper cleaning, gently wipe with a damp cloth and mild soap, then dry immediately. Avoid harsh chemicals or abrasive materials.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss and dust accumulation.
- **Handling:** Handle the assembled bouquet with care to prevent pieces from detaching.

TROUBLESHOOTING

Encountering issues during assembly? Here are some common solutions:

- **Missing Pieces:** Double-check all packaging and sorting areas. If a piece is genuinely missing, please contact Qinline customer support with your product model number (HPJM04) and a description of the missing part.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and aligned. Apply gentle, even pressure. Avoid forcing pieces, as this can cause damage.
- **Unstable Structure:** Review previous steps to confirm all connections are secure. Sometimes a loose connection early in the build can affect overall stability.
- **Instructions Unclear:** Refer to the visual aids in the manual. If still unclear, the provided assembly videos may offer additional clarity.
