3. Assembly Instructions

Follow the detailed, step-by-step instructions provided in the physical instruction booklet included with your building set. Each step is illustrated to guide you through the construction process.

1. **Preparation:** Unpack all components and verify that all pieces are present by comparing them with the parts list in your physical manual. Organize pieces by color or type to facilitate assembly.
2. **Step-by-Step Construction:** Begin with Step 1 as indicated in the physical instruction booklet. Carefully follow the diagrams and text for each step. Ensure blocks are securely connected before proceeding.
3. **Attention to Detail:** Pay close attention to the orientation of pieces and the specific connection points shown in the diagrams.
4. **Completion:** Once all steps are completed, double-check your model against the final image in the manual to ensure

correct assembly.

Note: If any pieces are missing or damaged, please refer to the "Warranty and Support" section for assistance.

4. Operating Instructions

Once assembled, your Sembo Block Team Super Car is ready for imaginative play. This model is designed for display and light play.

- **Display:** Place your finished super car model on a stable surface for display.
- **Play:** Engage in creative play scenarios. The model may feature moving parts such as wheels, allowing for dynamic interaction.
- **Handling:** Handle the model gently to prevent accidental disassembly of smaller components.

5. Maintenance

Proper care will help maintain the appearance and integrity of your Sembo Block model.

- **Cleaning:** To clean the blocks, gently wipe them with a dry, soft cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled model or disassembled blocks in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Disassembly:** If disassembling the model, keep all pieces organized to facilitate future reassembly.

6. Troubleshooting

This section addresses common issues you might encounter during assembly or use.

Problem	Possible Cause	Solution
Missing or Damaged Pieces	Manufacturing error or accidental loss during unpacking.	Carefully check all packaging. If pieces are genuinely missing or damaged, contact customer support as per the "Warranty and Support" section.
Blocks do not connect securely	Incorrect orientation of blocks or not enough pressure applied.	Ensure blocks are aligned correctly according to the instruction diagrams. Apply firm, even pressure to snap them into place.
Model appears unstable or incorrect	One or more steps were incorrectly followed.	Review the previous assembly steps in the physical instruction booklet. Disassemble and reassemble the problematic section carefully.
