6. MAINTENANCE

6.1 Cleaning the Monitor

To clean the screen and exterior of your monitor:

- Turn off the monitor and unplug the power cord.
- Use a soft, lint-free cloth slightly dampened with water or a non-abrasive screen cleaner.
- Wipe the screen gently. Avoid applying excessive pressure.
- Do not use alcohol, ammonia, or abrasive cleaners, as these can damage the screen surface.

6.2 Storage

When storing the monitor for an extended period, ensure it is powered off, unplugged, and stored in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

If you encounter issues with your ZZA monitor, refer to the following common solutions:

- **Monitor does not power on:** Ensure all cables are securely connected, including the power adapter. Verify the power outlet is functional.
- **No signal or blank screen:** Check that the video cable (HDMI or DisplayPort) is firmly connected to both the monitor and your device. Ensure the correct input source is selected in the OSD menu. Try restarting your connected device.
- **Distorted or incorrect colors:** Reset the monitor to factory settings via the OSD menu. Check your device's display settings for proper resolution and refresh rate.
- **Flickering screen:** Ensure the video cable is securely connected. If using FreeSync, try disabling it in the OSD menu or your device's graphics settings to see if the issue persists.
- **Monitor arm compatibility:** The ZZA monitor supports VESA mount standard 100x100mm. Ensure your monitor arm is compatible with this standard.
- **Missing cables:** ZZA monitors typically include either a DisplayPort or HDMI cable. Refer to your specific model's packaging or product page for included accessories.

If the problem persists after attempting these solutions, please contact ZZA customer support through the Amazon Buyer Message Center for further assistance.
