## 1. INTRODUCTION

---

Thank you for choosing the Aeitto 1800W Blender & Grinder Combo. This appliance is designed for efficient blending and grinding, offering versatility for various kitchen tasks. Please read this manual thoroughly before first use to ensure safe operation and optimal performance. Keep this manual for future reference.

## 2. IMPORTANT SAFETY INFORMATION

---

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions before operating the blender.
- Do not immerse the motor base in water or other liquids.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts. Blades are sharp. Handle with care.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- The appliance is equipped with an overheat protection device. If the motor overheats, it will automatically shut off. Allow it to cool down before resuming operation.
- Do not use outdoors.
- Ensure the lid is securely locked in place before operating the blender.
- Never add ingredients while the appliance is running without the lid securely in place.

- Do not process hot liquids in the grinding cup.

### 3. PRODUCT COMPONENTS

---

Familiarize yourself with the parts of your Aeitto Blender & Grinder Combo:

1. **Motor Base:** Contains the 1800W motor and control panel.
2. **68oz Blending Jar:** Large capacity pitcher for smoothies, juices, and frozen drinks.
3. **Blending Blade Assembly:** Integrated into the 68oz jar for efficient processing.
4. **Lid with Removable Cap:** Secures the blending jar and allows for adding ingredients during operation.
5. **28oz Grinding Cup:** Smaller container designed for grinding dry ingredients like coffee beans, nuts, and spices.
6. **Grinding Blade Assembly:** Specific blade unit for the grinding cup.
7. **Tamper:** Used to push ingredients towards the blades in the blending jar, especially for thick mixtures.

## 4. SETUP AND ASSEMBLY

---

Before first use, wash all parts that will come into contact with food (blending jar, grinding cup, lids, blades, tamper) in warm, soapy water, then rinse and dry thoroughly.

### 4.1 Assembling the Blending Jar

1. Place the motor base on a clean, dry, and stable surface.
2. Ensure the blender is unplugged from the power outlet.
3. Align the blending jar onto the motor base, ensuring it clicks securely into place. The handle should face forward or to the right.
4. Add your ingredients to the blending jar. Do not exceed the MAX fill line.
5. Place the lid onto the blending jar and press down firmly until it locks. Ensure the pour spout is closed.

### 4.2 Assembling the Grinding Cup

1. Ensure the blender is unplugged.
2. Add dry ingredients to the grinding cup. Do not overfill.
3. Screw the grinding blade assembly onto the grinding cup until tight.
4. Invert the grinding cup and place it onto the motor base, twisting clockwise until it locks securely.

## 5. OPERATING INSTRUCTIONS

---

The Aeito blender features an intuitive control panel for various blending and grinding needs.

# Four Intelligent Preset Programs

Just turn the knob to make your favourite drink

Image: Close-up of the Aeitto blender's control panel.

## 5.1 Control Panel Overview

- **ON/OFF Switch:** Toggles the power to the unit.
- **Speed Dial (MIN-MAX):** Adjusts the blending speed manually. Turn clockwise for higher speeds.
- **PULSE Switch:** Provides short bursts of high-speed blending for chopping or quick mixing. Hold for continuous pulse.
- **Preset Programs Dial:** Selects automated programs for specific tasks: Warm Purees, Smoothies, Ice Crush, Grains.

## 5.2 Blending (Using 68oz Jar)

1. Ensure the blending jar is correctly assembled and filled with ingredients.
2. Plug the blender into a power outlet.
3. Turn the ON/OFF switch to 'ON'.
4. Select a preset program (e.g., 'SMOOTHIES') or manually adjust the speed dial from MIN to MAX.
5. For thick mixtures, use the tamper through the lid's opening to push ingredients towards the blades. Do not use the tamper if the lid cap is not removed.
6. Once desired consistency is reached, turn the speed dial to MIN, then switch the ON/OFF to 'OFF'.

7. Unplug the blender before removing the jar.

# 68oz. Large Capacity

Perfect for The Whole Family

Image: The 68oz blending jar demonstrating its large capacity for preparing multiple servings.

## 5.3 Grinding (Using 28oz Grinding Cup)

1. Ensure the grinding cup with blade assembly is correctly assembled and filled with dry ingredients.
2. Plug the blender into a power outlet.
3. Turn the ON/OFF switch to 'ON'.
4. Select the 'GRAINS' preset program or use the PULSE function for controlled grinding.
5. Monitor the consistency of your ingredients.
6. Once desired consistency is reached, turn the speed dial to MIN, then switch the ON/OFF to 'OFF'.
7. Unplug the blender before removing the grinding cup.

# Upgraded 6-Leaf Blades

Achieve smoother and finer blending

*Image: Close-up of the upgraded 6-leaf blade design for efficient blending and grinding.*

## 5.4 Using Preset Programs

The preset programs offer optimized blending cycles for common tasks:

- **WARM PUREES:** Ideal for creating smooth, warm purees from cooked vegetables or fruits.
- **SMOOTHIES:** Perfect for blending fruits, vegetables, and liquids into smooth beverages.
- **ICE CRUSH:** Designed to efficiently crush ice for frozen drinks.
- **GRAINS:** Optimized for grinding dry ingredients like coffee beans, nuts, or spices.

To use a preset program, simply turn the preset dial to the desired function after turning the blender ON. The blender will run for a predetermined time and stop automatically.

## 6. CLEANING AND MAINTENANCE

---

Proper cleaning ensures the longevity and hygiene of your blender.

### 6.1 Auto-Cleaning Function

1. After use, rinse the blending jar or grinding cup.

2. Fill the blending jar with approximately 2 cups of warm water and a few drops of dish soap.
3. Secure the lid.
4. Place the jar on the motor base and turn the ON/OFF switch to 'ON'.
5. Run the blender on a medium speed or use the 'PULSE' function for 30-60 seconds.
6. Empty the soapy water, rinse the jar thoroughly, and allow it to air dry.

## 6.2 Dishwasher Safe Parts

All parts of the blender, except the motor base, are dishwasher safe. Place them on the top rack of your dishwasher for cleaning.

## 6.3 Motor Base Cleaning

Wipe the motor base with a damp cloth. Do not immerse the motor base in water or spray it with water. Ensure it is completely dry before storing or next use.

## 7. TROUBLESHOOTING

If you encounter issues with your blender, refer to the following table for common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; Power switch off; Jar not properly seated; Overheat protection activated.	Ensure plug is secure; Turn ON/OFF switch to 'ON'; Re-seat jar until it clicks; Allow motor to cool for 15-30 minutes.
Ingredients are not blending smoothly.	Too little liquid; Too many ingredients; Ingredients are too large.	Add more liquid; Reduce ingredient quantity; Cut ingredients into smaller pieces; Use tamper to push ingredients towards blades.
Motor smells or makes unusual noise.	Overloading; Prolonged use; Overheat protection.	Reduce load; Allow motor to rest; Check if overheat protection has activated and allow to cool.
Lid leaks during operation.	Lid not properly secured; Overfilling.	Ensure lid is firmly pressed down and locked; Do not exceed MAX fill line.

## 8. PRODUCT SPECIFICATIONS

---

Feature	Detail
Model	B0FQBD189G
Power	1800W
Peak RPM	25,000 RPM
Blending Jar Capacity	68 oz (2.0 Liters)
Grinding Cup Capacity	28 oz (0.8 Liters)
Product Dimensions	7.87"D x 9.06"W x 19.29"H
Item Weight	11.43 pounds
Container Material	BPA-Free Plastic
Special Features	Overheat Protection, 6-Leaf Blades, 2-in-1 Blender & Grinder, Preset Programs

# 1800W Highest Power Motor

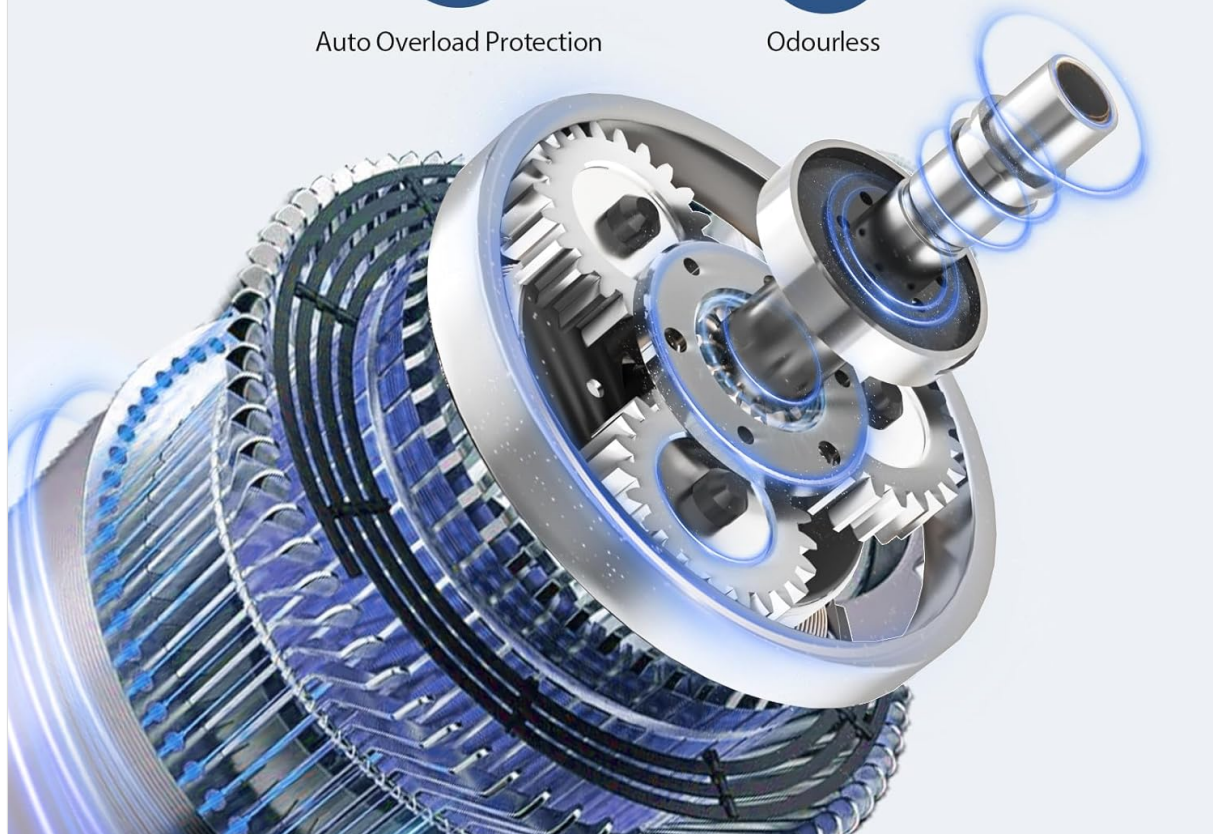

Maximum speed is up to 25,000 RPM
