LUE BONA YB-293-02

LUE BONA Bar Stools (Model YB-293-02) Instruction Manual

Your guide to assembly, usage, and care.

INTRODUCTION

Thank you for choosing LUE BONA Bar Stools. This manual provides detailed instructions to ensure safe assembly, proper use, and effective maintenance of your new bar stools. Please read this guide thoroughly before beginning assembly or use, and retain it for future reference.

IMPORTANT SAFETY INFORMATION

- Always use within the maximum weight limit of **350 lbs (158 kg)**. Exceeding this limit may result in damage to the stool or personal injury.
- Do not move the stool while seated to prevent tipping and potential falls.
- Ensure all screws and bolts are securely tightened before each use. Periodically check and re-tighten as necessary.
- Keep children away from the assembly area. Small parts can be a choking hazard.
- Assemble the stool on a soft, clean surface to prevent scratching the product or flooring.

PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Bar Stool Seat (x3)
- Wooden Legs (x12, 4 per stool)
- Footrest Bars (x12, 4 per stool)
- Assembly Hardware (screws, washers, Allen wrench)
- Instruction Manual (this document)

ASSEMBLY INSTRUCTIONS

Assembly typically takes 10-15 minutes per stool. It is recommended to assemble on a soft, flat surface to prevent damage.

1. Unpack all components and lay them out on a clean, soft surface.

2. Attach the four wooden legs to the underside of the bar stool seat using the provided screws and washers. Ensure the legs are oriented correctly, with the wider end at the top connecting to the seat. Do not fully tighten screws yet.
3. Connect the footrest bars between the legs. Each leg typically has pre-drilled holes for the footrest bars. Secure them with the remaining hardware.
4. Once all legs and footrest bars are in place, gradually tighten all screws evenly until secure. Avoid over-tightening.
5. Place the assembled stool on a level surface and check for stability. Adjust leg levelers if necessary.

USAGE GUIDELINES

These bar stools are designed for comfortable seating at bar-height counters.

- **Recommended Counter Height:** These 27.6-inch seat height stools are suitable for bar counters between 36-39 inches high.
- **Comfort:** The thick cushioning and ergonomic design provide back support for extended periods of sitting.
- **Placement:** Ideal for kitchen islands, home bars, counters, or recreation rooms.

Spacious Seats for Every Body

No More Squishy Seats - Enjoy True Comfort

CARE AND MAINTENANCE

Proper care will extend the life and appearance of your bar stools.

- **Cleaning Fabric:** For spills, blot immediately with a clean, dry cloth. For general cleaning, use a mild fabric cleaner or a damp cloth with a small amount of mild soap. Test on an inconspicuous area first. Avoid harsh chemicals.
- **Cleaning Wooden Legs:** Wipe with a soft, damp cloth. Avoid abrasive cleaners.
- **Regular Checks:** Periodically inspect all connections and tighten any loose screws to maintain stability.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fabric fading and wood discoloration.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Stool wobbles after assembly.	Screws are not evenly tightened; uneven floor.	Loosen all screws slightly, sit on the stool to settle the legs, then re-tighten all screws evenly. Use leg levelers if available, or place on a flat surface.
Parts are missing or damaged.	Shipping damage or packaging error.	Do not proceed with assembly. Contact LUE BONA customer support immediately for replacement parts.

Problem	Possible Cause	Solution
Difficulty tightening screws.	Misaligned parts or cross-threaded screws.	Ensure parts are correctly aligned before inserting screws. Do not force screws; if resistance is met, unscrew and re-align.

PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	YB-293-02
Product Dimensions (D x W x H)	21.3"D x 19.7"W x 36.2"H
Seat Height	27.6 inches
