MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the engineered wood.
- **Mirror Care:** Use a glass cleaner specifically designed for mirrors. Spray cleaner onto a cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the wood finish.
- **Humidity Control:** Maintain a stable room temperature and humidity level to prevent warping or cracking of the wood.

TROUBLESHOOTING

Problem	Possible Cause	Solution
LED mirror lights do not turn on.	Power cord not plugged in; loose connection; power outage.	Ensure the vanity's power cord is securely plugged into a functional wall outlet. Check for power to the outlet.
