Regular maintenance will help prolong the life and appearance of your bed frame.

Avoid harsh chemicals or excessive moisture. Spot clean with a mild fabric cleaner if necessary, testing on an inconspicuous area first.
- **Frame Cleaning:** Wipe down the frame with a soft, damp cloth. Avoid abrasive cleaners.
- **Check Connections:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten as needed to maintain stability and prevent squeaking.
- **Electrical Components:** Ensure the charging station and LED light connections are secure and free from damage. Do not attempt to repair electrical components yourself.
