# GLORIOUS Model O3 Wireless Gaming Mouse User Manual

Comprehensive instructions for setup, operation, and maintenance of your GLORIOUS Model O3 Wireless Gaming Mouse.

## INTRODUCTION

The GLORIOUS Model O3 Wireless Gaming Mouse is engineered for high-performance gaming, featuring an ultralight design, advanced optical sensor, and innovative InfinitePlay swappable battery system. This manual provides essential information to help you get the most out of your new gaming mouse.

The Model O3 Wireless features a solid shell and an ultralight 66g symmetrical design for speed and elegance.

## SETUP

### What's in the Box

Contents of the GLORIOUS Model O3 Wireless Gaming Mouse package.

- GLORIOUS Model O3 Wireless Mouse
- Charging Station / 8K Hz Wireless Base
- 2x Swappable Batteries
- Paracord Cable (USB-C to USB-A)

## Initial Charging & Connection

1. **Charge Batteries:** Insert one of the swappable batteries into the charging station. Connect the charging station to your PC using the provided Paracord Cable. The charging station will indicate the battery status.
2. **Insert Battery into Mouse:** While one battery charges, insert the other fully charged battery into the mouse's battery compartment located on the underside.
3. **Connect Wireless Base:** Connect the 8K Hz Wireless Base (charging station) to your PC via the Paracord Cable. The mouse will automatically connect wirelessly.
4. **Wired Mode (Optional):** For wired use or charging the internal battery, connect the Paracord Cable directly to the mouse.

The Multipurpose 8K Wireless Base serves as a charging hub and wireless receiver.

## Software Installation (Glorious Core)

To unlock full customization options for DPI, RGB lighting, button remapping, and polling rate, download and install the Glorious Core software from the official GLORIOUS website. Ensure your operating system

is Windows 10 or higher for compatibility.

## OPERATING INSTRUCTIONS

### Basic Mouse Functions

- **Left/Right Click:** Standard mouse buttons for primary actions.
- **Scroll Wheel:** Scroll up/down for navigation, click for middle-mouse button function.
- **Side Buttons:** Typically used for forward/backward navigation or customizable in software.
- **DPI Button:** Located on the top of the mouse, cycles through preset DPI stages.

The mouse features durable optical switches for responsive clicks.

### DPI Adjustment

The Model O3 Wireless features a BAMF 3.0 optical sensor with up to 30,000 DPI. Use the dedicated DPI button on the mouse to cycle through pre-configured DPI settings. For fine-tuning and custom DPI stages, utilize the Glorious Core software.

### RGB Lighting Customization

The mouse features customizable RGB lighting. Use the Glorious Core software to select from various lighting effects, colors, and brightness levels to personalize your mouse's appearance.

### InfinitePlay Swappable Battery System

The InfinitePlay system allows for continuous wireless gaming. The mouse comes with two swappable battery packs. When one battery runs low, you can instantly swap it with a charged one from the charging station. A small internal "Guardian Battery" ensures the mouse remains powered during the brief swap, preventing disconnection.

The InfinitePlay system allows for seamless battery swapping.

## 8K Polling Rate

The included wireless base supports an 8K Hz polling rate, providing ultra-responsive and low-latency communication between the mouse and your PC. Ensure the wireless base is connected and configured correctly in the Glorious Core software for optimal performance.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the mouse. For the honeycomb shell, a can of compressed air can help remove dust and debris. Avoid using harsh chemicals or abrasive materials.
- **Battery Care:** To prolong battery life, avoid fully discharging the batteries regularly. Store unused batteries in a cool, dry place.

## TROUBLESHOOTING

---

- **Mouse Not Responding:**
  - Ensure the battery is charged and correctly inserted.
  - Verify the wireless base is properly connected to your PC.
  - Try connecting the mouse directly via the Paracord Cable to check for wired functionality.
  - Restart your computer.
- **Side Buttons Malfunctioning:**
  - This can sometimes be resolved by connecting the mouse via USB cable and then disconnecting it.
  - Check Glorious Core software for any conflicting button assignments or firmware updates.
- **Inconsistent Tracking:**
  - Clean the optical sensor on the underside of the mouse.
  - Ensure you are using the mouse on a clean, suitable mouse pad.
  - Check for firmware updates via Glorious Core.
- **Software Issues (Glorious Core):**
  - Ensure you have the latest version of Glorious Core installed.
  - Restart the software or your PC.

- If issues persist, reinstall the software.
