ghd Chronos Curve Conical Wand (1.1" Barrel)

Instruction Manual

Model: 99350173961

1. Introduction

The ghd Chronos Curve Conical Wand is designed to create frizz-free curls with advanced responsive technology. This manual provides essential information for the safe and effective use of your styling tool.

- **Curl Responsive Technology:** Monitors and adapts to dynamic curling actions for optimal heat control and high-definition curls.
- **Professional Design:** Features a 1.1-inch conical barrel with an anodized coating for enhanced shine and precise styling.
- **Optimal Temperature:** Maintains a consistent 365°F, the ideal temperature for effective styling without causing extreme heat damage.
- **Safety Features:** Includes an integrated silicone stand, a 20-minute automatic sleep mode, and a protective styling glove.
- **Convenience:** Offers a quick 25-second heat-up time and an extra-long 8.8 ft professional cable for flexible use.

2. Safety Information

Please read all safety instructions before using the ghd Chronos Curve Conical Wand. Failure to follow these instructions may result in electric shock, fire, or injury.

- Always ensure your hands are dry before plugging in or unplugging the appliance.
- Do not use this appliance near water, such as in bathtubs, showers, basins, or other vessels containing water.
- Keep the appliance away from children.
- Do not leave the appliance unattended when switched on.
- Allow the appliance to cool completely before storing.
- The barrel becomes very hot during use. Avoid direct contact with skin. Use the provided heat-resistant glove.
- Do not wrap the power cord around the appliance as this may damage the cord.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.

3. Package Contents

Verify that all items are present in your package:

- ghd Chronos Curve Conical Wand (1.1" Barrel)
- Heat-resistant protective glove
- Instruction Manual

4. Setup

Follow these steps for initial setup of your ghd Chronos Curve Conical Wand:

1. Unpack the ghd Chronos Curve Conical Wand and its accessories from the box.
2. Place the wand on a heat-resistant surface using its integrated silicone stand.
3. Plug the power cord into a suitable electrical outlet.
4. Press the power button to turn on the wand. The indicator light will illuminate, and the wand will begin to heat up. It reaches its optimal temperature of 365°F in approximately 25 seconds.
5. Wear the provided heat-resistant glove on the hand you will use to wrap hair around the barrel.

5. Operating Instructions

Achieve beautiful, long-lasting curls with your ghd Chronos Curve Conical Wand by following these steps:

1. Ensure your hair is dry and detangled. Apply a heat protectant spray if desired.
2. Section your hair. Take a medium section of hair, approximately 1 inch wide.
3. Position the wand diagonally into the hair, starting near the root.
4. Wrap the hair around the barrel from root to tip, ensuring the ends are securely wrapped. Hold for 3-5 seconds.
5. Release the curl gently from the wand. Allow the curl to cool in your hand for a few seconds to set its shape.
6. Continue this technique, alternating the direction of wrapping for a natural look.
7. Once all sections are curled, use a wide-tooth comb to gently brush through the curls to create soft, beachy waves.

6. Maintenance

Proper maintenance ensures the longevity and performance of your ghd Chronos Curve Conical Wand.

- **Cleaning:** Ensure the wand is unplugged and completely cool before cleaning. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Storage:** Store the wand in a safe, dry place, away from moisture and direct sunlight. Do not wrap the cord tightly around the appliance.
- **Inspection:** Regularly inspect the power cord for any signs of damage. If damage is found, discontinue use and contact customer support.

7. Troubleshooting

If you encounter issues with your ghd Chronos Curve Conical Wand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Wand does not heat up.	Not plugged in correctly, power outlet issue, or appliance fault.	Check power connection. Try a different outlet. If problem persists, contact customer support.
Wand turns off unexpectedly.	Automatic sleep mode activated (after 20 minutes of inactivity).	Press the power button to restart the wand.
Hair is not curling effectively.	Hair section too large, not holding long enough, or hair is damp.	Ensure hair is completely dry. Use smaller sections. Hold hair on the barrel for the recommended 3-5 seconds.

8. Specifications

Feature	Detail
Product Dimensions	4 x 3 x 3 inches
