Aroepurt AriVoice FoxxD A67L

Aroepurt Hybrid Phone Case for AriVoice FoxxD A67L - Instruction Manual

INTRODUCTION

This manual provides instructions for the proper installation, use, and maintenance of your Aroepurt Hybrid Phone Case for the AriVoice FoxxD A67L. Please read this guide thoroughly to ensure optimal performance and protection for your device.

INSTALLATION

Follow these steps to correctly install your phone case:

1. Ensure your AriVoice FoxxD A67L phone is clean and free of dust or debris.
2. Align the phone with the case, starting with one side.
3. Gently press the phone into the case, ensuring all corners are securely fitted.
4. Verify that all ports, buttons, and camera lenses are correctly aligned with the case openings.

FEATURES AND OPERATION

Protection Features

This case offers robust protection for your AriVoice FoxxD A67L. It features a PC hard back panel, a soft silicone frame, and four-corner shock airbags designed to absorb impact from drops. The case is engineered to be 1.2mm higher than the screen and 3mm higher than the camera, providing elevated protection against flat surface contact.

Elevated Design Protect Your Screen & Camera

1.2MM higher than the screen

3MM higher than the camera

Image: The diagram displays the phone case with highlighted areas showing the 1.2mm elevated screen edge and 3mm elevated camera bezel, designed to protect these vulnerable parts from scratches and direct impact.

Enhanced protection

1.5MM thicker all-round protection, can protect the phone from 2 meters height after a fall intact, above the camera as well as the screen design.

Image: This illustration shows the phone case with an arrow indicating the shock airbags at the corners, demonstrating how they provide enhanced protection against drops from up to 2 meters.

Design and Grip

The case features a frosted surface that resists fingerprints, maintaining a clean appearance. Its 3D multi-directional design changes appearance depending on light and angle, offering a unique visual effect. Non-slip design strips on both sides ensure a firm grip.

3D variation style

Different positions will change different effects and reflect different colors

Sparkling effect in the light

Frosted surface won't leave fingerprints

2 sides have non-slip design strips to give you a firm grip on your phone

Image: This image highlights the case's frosted surface, which prevents fingerprints, and the non-slip strips on the sides for improved handling. It also illustrates the 3D design that changes appearance with light.

Precise Fit

Engineered using a 1:1 real machine model, the case ensures precise cutouts for all ports, buttons, and the camera, allowing full functionality without interference.

1:1 real machine model, precise hole position

Fits perfectly and does not interfere with any functions

CARE AND MAINTENANCE

To keep your Aroepurt Hybrid Phone Case in optimal condition:

- Clean the case regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials, as these can damage the case's finish.
- For stubborn stains, a mild soap solution can be used, followed by wiping with a clean, dry cloth.
- Ensure the case is completely dry before reattaching it to your phone.

TROUBLESHOOTING

Case Does Not Fit Properly

If the case does not seem to fit your phone correctly:

- Double-check that your phone model is indeed the AriVoice FoxxD A67L. This case is specifically designed for this model.

- Remove the case and re-install, ensuring all corners are seated firmly.
- Inspect the phone and case for any obstructions or foreign objects preventing a proper fit.

Fingerprints or Smudges

While the case has a frosted, fingerprint-resistant surface, some smudges may still occur with heavy use.

- Wipe the case with a soft, lint-free cloth to remove smudges.
- For persistent marks, use a slightly damp cloth as described in the "Care and Maintenance" section.
