3. MAINTENANCE

3.1 Cleaning

To clean the device, use a soft, dry, lint-free cloth. Avoid using abrasive cleaners, solvents, or aerosol sprays directly on the device. Do not expose the device to excessive moisture.

3.2 Software Updates

You can install new apps and update existing ones to access the latest features. Ensure the device is connected to Wi-Fi for updates.

3.3 Storage Management

Regularly manage your storage by uninstalling unused apps or transferring files to a computer. The device supports microSD cards up to 1TB for expanded storage. Ensure the microSD card is formatted correctly by the device if prompted.

4. TROUBLESHOOTING

4.1 Screen Blank or Frozen

If the screen becomes blank or the device freezes, try performing a forced restart. Press and hold the power button for approximately 10-15 seconds until the device powers off, then power it on again.

4.2 Bluetooth Connectivity Issues

If you experience intermittent Bluetooth connection or audio cutting out, try restarting the MP3 player. Ensure the device you are trying to connect to is in pairing mode and within range.

4.3 Battery Drains Quickly

Battery life can be significantly affected by screen usage. Reduce screen brightness, close background applications, and limit continuous video playback to extend battery life. Ensure the device is fully charged before extended use.

4.4 App Compatibility

This player does not support applications that require Google Play services, such as YouTube and YouTube Music. Attempting to install such apps may result in installation failure or improper functionality.
