TYCOLE T1119

TYCOLE Rose Building Toy Instruction Manual

Model: T1119

Brand: TYCOLE

1. PRODUCT OVERVIEW

The TYCOLE Rose Building Toy (Model T1119) is a construction set designed for assembling a decorative rose flower arrangement in a pot. This set contains 338 interlocking plastic building blocks, allowing for a detailed and engaging assembly experience.

The finished model features adjustable petals and stems, providing flexibility in display. It is intended for users aged 6 years and older, with an age range description of 'Teen' and suitable for adults, boys, and girls.

2. SETUP AND ASSEMBLY

This section provides instructions for assembling your TYCOLE Rose Building Toy. Please follow the steps carefully to ensure correct construction.

2.1 Unpacking

1. Carefully open the product packaging.
2. Remove all building block bags and the instruction manual.
3. Verify that all components are present according to the parts list provided in the manual. The set contains 338 pieces.

2.2 Assembly Process

The assembly process is guided by the included detailed instruction manual. It is recommended to sort the building blocks by type and color before beginning assembly.

- Follow the step-by-step diagrams in the manual. Each step will list the required parts.

- Ensure that pieces are firmly interlocked. Moderate force may be required for some connections.
- Pay close attention to the orientation of pieces, especially for the rose petals and stems, as some parts may have specific angles or connections.
- The assembly is divided into thematic sections, typically starting with the pot and then proceeding to the roses.

3. OPERATING AND DISPLAY

Once assembled, the TYCOLE Rose Building Toy can be adjusted and displayed as a decorative item.

3.1 Adjusting Petals and Stems

The design incorporates adjustable elements for customization:

- **Petals:** Gently rotate or pivot individual petals to achieve your desired rose bloom appearance.
- **Stems:** The stems are designed to be adjustable, allowing you to change the height and angle of the roses. Exercise care when adjusting to avoid dislodging connected pieces.

ADJUSTABLE PETALS AND STEMS

3.2 Display

The assembled rose building toy is a collectible item suitable for display in various indoor environments. Ensure it is placed on a stable, flat surface to prevent accidental falls.

4. MAINTENANCE

Proper care will help maintain the appearance and integrity of your TYCOLE Rose Building Toy.

4.1 Cleaning

- To clean the building toy, gently wipe it with a soft, dry cloth.
- For more stubborn dust or dirt, a slightly damp cloth can be used. Ensure no excess water enters crevices.
- Avoid using harsh chemicals, abrasive cleaners, or excessive water, as these may damage the plastic material or paint.

4.2 Storage

If disassembling for storage, keep all pieces in a secure container to prevent loss. Store the toy or its components in a cool, dry place away from direct sunlight to prevent material degradation or discoloration.

5. TROUBLESHOOTING

This section addresses common issues you might encounter during assembly or use.

5.1 Missing Pieces

- Carefully re-check all packaging materials and the assembly area. Small pieces can be easily overlooked.
- If a piece is genuinely missing, please contact TYCOLE customer support with your product model number (T1119) and a description of the missing part.

5.2 Difficulty Assembling Pieces

- **Incorrect Orientation:** Ensure the pieces are oriented exactly as shown in the instruction manual. Some pieces may only fit in one specific direction.
- **Insufficient Force:** Building blocks often require a firm push to interlock securely. Apply steady, even pressure.
- **Complex Steps:** The manual may present several parts to be assembled in a single step. Review the diagram carefully and identify all required components before attempting the connection.
- **Mismatched Parts:** Double-check that you are using the correct pieces for the current step. Some pieces may appear similar but have subtle differences.

5.3 Loose Connections

- If a connection feels loose, try re-attaching the pieces with more force to ensure they are fully seated.
- Verify that the correct pieces are used for that specific connection point.

6. SPECIFICATIONS

Brand	TYCOLE
Model Number	T1119
Material	Plastic
Colour	Red/Brown
Number of Pieces	338
Item Dimensions (L x W x H)	19 x 5.5 x 23 centimetres
Educational Objective	Motor Skills
Special Features	Collectible
Recommended Age Range	Teen (Minimum 72 months, Maximum 1500 months)
Included Components	Building blocks
Manufacturer	Shantou Taigaole Technology Co. , Ltd.
