Aoxun 10x12FT Outdoor Metal Storage Shed - Model G37009-1012BK - Instruction Manual

Model: G37009-1012BK

Brand: Aoxun

IMPORTANT SAFETY INFORMATION

Safety warnings regarding proper assembly, handling heavy components, and potential hazards are provided with the product. Always read and understand all safety instructions before beginning assembly or use. Wear appropriate personal protective equipment, such as gloves and eye protection, during assembly. Ensure the shed is assembled on a level, stable surface to prevent tipping or structural instability. Keep children and pets away from the assembly area.

PRODUCT OVERVIEW

The Aoxun 10x12FT Outdoor Metal Storage Shed is designed to provide ample storage space for various outdoor essentials. Constructed from robust, thick-gauge galvanized steel with reinforced panels and a strong frame, it offers exceptional resistance to dents, rust, and harsh weather conditions like rain, wind, and sun. The shed features a practical, water-shedding sloped roof to prevent pooling and leaks, while integrated ventilation ensures crucial airflow to reduce moisture buildup and protect stored items. Its double-hinged, lockable doors provide convenient access and enhanced security for your valuables.

SPACE-MAXIMIZING STORAGE DESIGN

COMPONENTS LIST

Please refer to the packing list included with your product for a complete and detailed list of all components, hardware, and tools required for assembly. Ensure all parts are present and undamaged before beginning assembly.

SETUP & ASSEMBLY

Assembly of the Aoxun 10x12FT Outdoor Metal Storage Shed requires careful attention to detail and is best performed by two individuals. A solid, level foundation is essential for structural integrity and proper door alignment. Follow the step-by-step instructions provided in the separate assembly manual. Common tools required include a screwdriver, wrench, and possibly a drill. Ensure all bolts and screws are tightened securely but do not overtighten to avoid damaging the panels.

OPERATING INSTRUCTIONS

The shed features double-hinged doors for wide access, allowing easy entry and exit of larger items. To open, unlatch the locking mechanism and pull the doors outwards. To secure, close both doors and engage the latch. A padlock (not included) can be used with the integrated lockable door mechanism for added security. The integrated air vents, located near the roofline, facilitate air circulation to prevent condensation and maintain a suitable environment for stored items. Ensure these vents remain unobstructed.

- 1 Four Air Vents
- 2 Lockable Door
- 3 Plastic Corner Protector

MAINTENANCE

To ensure the longevity and optimal performance of your Aoxun metal storage shed, regular maintenance is recommended. Periodically inspect all panels, bolts, and screws for tightness and signs of wear or damage. The galvanized steel construction is designed for rust resistance, but cleaning with mild soap and water can help maintain its appearance. The sloped roof is designed to shed rain and snow; however, in areas with heavy snowfall, it is advisable to gently remove excessive snow accumulation to prevent undue stress on the structure. Ensure the ventilation openings are clear of debris to maintain proper airflow.

TROUBLESHOOTING

- **Difficulty with Assembly:** Ensure all parts are correctly oriented according to the manual. Double-check that holes align before tightening fasteners. A second person can greatly assist with holding panels in place.
- **Panel Alignment Issues:** If panels do not align perfectly, slightly loosen surrounding fasteners, adjust the panel, and then re-tighten. Ensure the base is perfectly level.
- **Water Leaks:** Verify that all roof panels are properly overlapped and all screws, especially those on the roof, have their washers securely in place. Check for any gaps or damaged seals.
- **Door Sticking/Misalignment:** Confirm the shed is on a level foundation. Check door hinges and adjust if necessary. Ensure no debris is obstructing the door's path.
- **Dents or Damage:** While the shed is designed to be robust, minor dents can occur during handling or assembly. Small dents in non-structural panels typically do not affect functionality.

SPECIFICATIONS

Feature	Detail
Brand	Aoxun
Color	Black
Material	Alloy Steel
Product Dimensions (L x W x H)	141"D x 113"W x 77"H (Approx. 11.75ft D x 9.42ft W x 6.42ft H)
Style	Utility
Top Material Type	Metal
Water Resistance Level	Water Resistant
Frame Material	Metal
Door Style	Double Hinged, Lockable
Assembly Required	Yes
Item Weight	109 pounds
Model Number	G37009-1012BK
