

## HUBBLE CONNECTED Nursery Pal Skyview

# HUBBLE CONNECTED Nursery Pal Skyview Baby Monitor Instruction Manual

## 1. PRODUCT OVERVIEW

---

The HUBBLE CONNECTED Nursery Pal Skyview is a comprehensive baby monitoring system designed to provide parents with real-time insights and control over their baby's nursery environment. This system includes a Full HD 1080p baby camera, a 5-inch parent unit, and various mounting options, offering both local and remote access via a smart device.

Key features include a 7-color night light, a built-in sleep trainer and soother, two-way communication, infrared night vision, room temperature sensors, and digital pan, tilt, and zoom capabilities. The system is designed for secure and private monitoring with protected cloud storage and 256-bit WiFi encryption.

## 2. WHAT'S IN THE BOX

---

Please verify that all components are present in your package:

- Full HD 1080p Baby Camera Unit
- 5-inch HD Parent Unit
- Magnetic Mount
- Crib Mount (includes top & bottom clamp, gooseneck, 4 poles with cord management)

## 3. SETUP INSTRUCTIONS

---

### 3.1 Charging the Parent Unit

1. Connect one power adapter to the Parent Unit and plug it into a power outlet.
2. Charge the Parent Unit for at least 4 hours before initial use to ensure optimal battery life.

### 3.2 Powering the Camera Unit

1. Connect the second power adapter to the Camera Unit and plug it into a power outlet.
2. Ensure the camera is placed within range of your Wi-Fi network if you plan to use the HubbleClub app.

### 3.3 Mounting the Camera

The camera offers flexible mounting options:

- **Magnetic Desk Mount:** For quick and secure attachment to shelves, walls, or metallic surfaces. The camera can be detached for portable use.

- **Crib Mount:** Provides a safe and stable setup for cribs or bassinets. It features adjustable height and angle with a secure strap system, ideal for close-up baby monitoring.

Image 3.1: Smart Mounting Options. The image displays the magnetic desk mount for quick attachment to various surfaces and the crib mount for secure placement on cribs or bassinets, offering adjustable height and angle.

### 3.4 Connecting to the HubbleClub App

1. Download the HubbleClub app from the App Store or Google Play.
2. Follow the in-app instructions to create an account and pair your camera unit with your smart device.
3. Ensure your smart device is connected to a 2.4 GHz Wi-Fi network during the pairing process.

## 4. OPERATING INSTRUCTIONS

### 4.1 Monitoring Your Baby

The Nursery Pal Skyview allows you to monitor your baby through the 5-inch Parent Unit or remotely via the HubbleClub app on your smartphone.

- **Live Video Feed:** View a real-time 1080p Full HD video stream of your baby.

- **Digital Pan, Tilt, and Zoom:** Adjust the camera's view remotely using the Parent Unit or the app to get a better look at your baby.
- **Infrared Night Vision:** Automatically activates in low-light conditions to provide a clear view of your baby at night.

## See, Control & Comfort Your Baby in Full HD

**7-Color Night Light**

- ✓ 1080p Full HD Remote Access via Smart Device
- ✓ Built in Sleep Trainer and Smart Soother
- ✓ Digital Pan, Tilt, and Zoom

Image 4.1: The baby camera unit featuring a 7-color night light. This image also highlights 1080p Full HD remote access, built-in sleep trainer and smart soother, and digital pan, tilt, and zoom capabilities.

# Up to 1000 ft. (300m) Range with Extended Battery Life

- ✓ 5" Diagonal Color Screen
- ✓ Remote Access Via Smart Device
- ✓ Two-way talk (speak to and hear the baby)
- ✓ Room temperature monitoring

Image 4.2: The 5-inch diagonal color screen of the parent unit, showing a live feed of a sleeping baby. Features like 1,000 ft. range, two-way talk, remote access, and room temperature monitoring are indicated.

## 4.2 Two-Way Communication

Use the two-way talk feature to soothe your baby from another room or communicate with someone in the nursery. Press and hold the talk button on the Parent Unit or use the microphone icon in the HubbleClub app to speak.

## 4.3 Night Light and Soother

The camera unit features a 7-color night light and a library of pre-loaded nature sounds, lullabies, bedtime stories, and audiobooks. These can be activated and controlled via the Parent Unit or the HubbleClub app to help soothe your baby to sleep.

Image 4.3: The Hubble Connected camera unit with its night light active, providing gentle illumination in a nursery setting where a baby is sleeping.

#### 4.4 HubbleClub App Features

The HubbleClub app enhances your monitoring experience with advanced features:

- **Smart Insights:** Download and share snapshots and videos, track growth and development.
- **Motion-Activated Video:** Receive alerts and view recordings when motion is detected.
- **BabyZones:** Set up virtual boundaries and receive alerts if your baby moves outside them.
- **Sleep Trainer:** Access expert sleep advice and parenting tips.
- **Advanced AI Monitoring:** Features like Covered Face & Roll Over Alerts, Advanced Sleep Analytics, Baby Eye Wellness Tracker, and Precious Baby Moments detection.

# Smart Features That Help You Care, Connect & Comfort Your Baby

- ✓ Download and Share Snapshots and Videos
- ✓ Baby Growth and Development Tracker
- ✓ Expert Sleep Advice & Parenting Tips
- ✓ Two-Way Communication
- ✓ Room Temperature Display
- ✓ BabyZone Set-up and Alerts

Image 4.4: Smartphone displays illustrating the HubbleClub app's smart features, including snapshot sharing, growth tracking, two-way communication, room temperature display, and BabyZone setup.

# Advanced AI Monitoring for Safer, Smarter Care

Image 4.5: A smartphone screen demonstrating advanced AI monitoring within the HubbleClub app, showing alerts for partial face visibility and cry detection, along with features like advanced sleep analytics and baby eye wellness tracker.

## 5. MAINTENANCE

---

### 5.1 Cleaning the Units

- Ensure both the Camera Unit and Parent Unit are powered off and unplugged before cleaning.
- Wipe the surfaces of the units with a soft, dry, lint-free cloth.
- Do not use cleaning sprays, liquid cleaners, or abrasive cleaning agents.
- Clean the camera lens gently with a lens cleaning cloth to avoid scratches.

### 5.2 Battery Care

- To preserve battery life, avoid fully discharging the Parent Unit's battery frequently.
- If storing the unit for an extended period, charge the battery to approximately 50% and store it in a cool, dry place.

## 6. TROUBLESHOOTING

## 6.1 No Power to Unit

- Ensure the power adapter is securely connected to the unit and the power outlet.
- Verify the power outlet is functional by plugging in another device.
- For the Parent Unit, ensure the battery is charged.

## 6.2 No Video/Poor Video Quality

- Check that both the Camera Unit and Parent Unit are powered on and within range of each other.
- Ensure there are no obstructions between the camera and parent unit that could interfere with the signal.
- If using the app, verify your Wi-Fi connection is stable and strong.
- Clean the camera lens if the image appears blurry.

## 6.3 No Audio/Poor Audio Quality

- Increase the volume on the Parent Unit or your smart device.
- Ensure the microphone on the Camera Unit is not obstructed.
- Check for interference from other electronic devices.

## 6.4 App Connectivity Issues

- Ensure your smartphone is connected to a stable 2.4 GHz Wi-Fi network.
- Restart the HubbleClub app and your camera unit.
- Check for app updates in your device's app store.
- If issues persist, try re-pairing the camera with the app.
