# Candy CNBQL3518EV/L Built-in Combined Refrigerator Instruction Manual

Brand: Candy | Model: CNBQL3518EV/L

## 1. INTRODUCTION

This manual provides essential information for the safe and efficient use of your Candy CNBQL3518EV/L built-in combined refrigerator. Please read these instructions carefully before installation and operation, and keep them for future reference.

The Candy CNBQL3518EV/L is a built-in combined refrigerator with a total net capacity of 268 liters. It features a ventilated cooling system in the refrigerator compartment and operates with an energy efficiency class E. Key features include:

- **Total Net Capacity:** 268 L
- **Refrigerator Net Capacity:** 194 L
- **Freezer Net Capacity:** 74 L
- **Cooling System:** Ventilated (refrigerator)
- **Energy Efficiency Class:** E
- **Noise Emission:** 35 dB (Class B)
- **Internal Lighting:** LED
- **Special Features:** Holiday function, Super Cool function, Door alarm, Low Frost technology.

## 2. SETUP

Proper installation is crucial for the performance and longevity of your refrigerator. This appliance is designed for built-in installation.

### 2.1 Unpacking

Carefully remove all packaging materials. Inspect the appliance for any damage during transit. Keep packaging materials away from children.

### 2.2 Positioning and Ventilation

Ensure the installation compartment meets the required dimensions: 56 cm width, 56 cm depth, and 177.8 cm height. Adequate ventilation is essential for optimal performance and energy efficiency. Do not obstruct the ventilation openings.

## 2.3 Door Reversal

The refrigerator doors are reversible, allowing you to change the hinge side from left to right, or vice versa, to suit your kitchen layout. Refer to the detailed diagrams in the included installation guide for step-by-step instructions on reversing the doors.

### 3. OPERATING

Your Candy refrigerator is equipped with electronic controls for precise temperature management and various functions to optimize food preservation.

#### 3.1 Temperature Control

The appliance features electronic control for setting the desired temperature in both the refrigerator and freezer compartments. Consult the control panel section in the full user manual for specific instructions on adjusting settings.

#### 3.2 Special Functions

- **Holiday Function:** Activates an energy-saving mode when you are away for an extended period, maintaining a higher temperature in the fridge to prevent odors while keeping the freezer running normally.
- **Super Cool Function:** Rapidly lowers the temperature in the refrigerator compartment, ideal for quickly chilling newly added groceries.
- **Door Alarm:** An audible alarm will sound if the refrigerator door is left open for too long, helping to prevent energy waste and food spoilage.

#### 3.3 Interior Lighting

The refrigerator compartment is illuminated with energy-efficient LED lighting, providing clear visibility of your stored items.

## 4. MAINTENANCE

Regular maintenance ensures the optimal performance and longevity of your appliance.

### 4.1 Low Frost Technology

The freezer compartment features Low Frost technology, which significantly reduces the formation of ice and frost compared to traditional freezers. This means less frequent manual defrosting is required, saving you time and effort. However, periodic manual defrosting will still be necessary.

### 4.2 Cleaning

Regularly clean the interior and exterior of your refrigerator with a mild detergent and soft cloth. Avoid abrasive cleaners or solvents. Ensure the appliance is unplugged before cleaning.

## 4.3 Defrosting

While the freezer benefits from Low Frost technology, both the refrigerator and freezer compartments require manual defrosting. Refer to the full user manual for detailed instructions on how to safely defrost your appliance.

## 5. TROUBLESHOOTING

Before contacting customer service, please check the following common issues:

- Appliance not cooling:** Check if the power cord is properly plugged in and if the circuit breaker has tripped. Ensure the temperature settings are correct.
- Excessive noise:** Verify that the appliance is level and not touching any walls or other objects. Normal operating noises from the compressor or refrigerant flow are expected.
- Door not closing properly:** Check for any obstructions, such as food packages or shelves. Ensure the door gasket is clean and intact.
- Water on the floor:** Check the drain hole in the refrigerator compartment for blockages. Ensure the water collection tray at the back of the appliance is correctly positioned.

For more detailed troubleshooting steps or persistent issues, refer to the comprehensive troubleshooting section in your full user manual or contact customer support.

## 6. SPECIFICATIONS

Feature	Specification
Model Number	CNBQL3518EV/L
Appliance Placement	Built-in
Total Net Capacity	268 L
Refrigerator Net Capacity	194 L
Freezer Net Capacity	74 L
Energy Efficiency Class	E
Annual Energy Consumption	220 kWh
Noise Emission Class	B
Noise Level	35 dB
Climate Class	SN-ST
Cooling System	Ventilated (Refrigerator)
Defrost System (Fridge)	Manual
