## WHAT'S IN THE BOX

Your WolfLawS X3 Wireless Gaming Headset package includes the following items:

- WolfLawS X3 Wireless Gaming Headset
- 2.4GHz Wireless Transmitter (Dongle)
- USB-A to USB-C Charging Cable
- User Manual

## 2.4GHz WIRELESS CONNECTIVITY & LOW LATENCY

*Image: All components included with the WolfLawS X3 headset: the headset itself, a small black 2.4GHz transmitter, a USB-C charging cable, and the user manual.*

### PRODUCT FEATURES

- **Dual-Mode Connectivity:** Seamlessly switch between 2.4GHz wireless for gaming and Bluetooth 5.0 for mobile devices.
- **Extended Playtime:** Up to 50+ hours of battery life on a single 2.5-hour charge.
- **Low Latency:** Less than 20ms audio latency for real-time sound synchronization.
- **Immersive Audio:** 50mm dynamic drivers with 3D Surround Sound for enhanced gaming audio.
- **Noise-Cancelling Microphone:** Flexible microphone with noise reduction for clear communication.
- **Comfort Design:** Breathable air protein ear cushions and an adjustable headband for prolonged comfort.
- **Intuitive Controls:** On-ear volume wheel, mic mute button, and mode switch for easy adjustments.

## SETUP INSTRUCTIONS

### Connecting to Xbox Series X|S / Xbox One (2.4GHz Wireless)

1. Ensure your Xbox controller is an official Xbox Series X|S or Xbox One controller.
2. Insert the 2.4GHz wireless transmitter (dongle) into the USB port of your Xbox console.
3. Power on the headset by holding the Power Button for 3 seconds.
4. Press and hold the Mode Switch button on the headset for 2 seconds to switch to 2.4GHz mode (white LED indicator).
5. The headset will automatically pair with the transmitter. A solid white LED on the headset indicates a successful connection.

*Image: A visual guide illustrating the multi-connection capabilities of the headset, showing how to connect via 2.4GHz USB dongle to various devices and via Bluetooth mode.*

### Connecting to PS5 / PC / Mac / Switch (2.4GHz Wireless)

1. Insert the 2.4GHz wireless transmitter (dongle) into an available USB port on your PS5, PC, Mac, or Switch dock.
2. Power on the headset by holding the Power Button for 3 seconds.
3. Press and hold the Mode Switch button on the headset for 2 seconds to switch to 2.4GHz mode (white LED indicator).
4. The headset will automatically pair with the transmitter. A solid white LED on the headset indicates a successful connection.

### Connecting to Mobile / Mac / Switch (Bluetooth 5.0)

1. Power on the headset by holding the Power Button for 3 seconds.
2. Press and hold the Mode Switch button on the headset for 2 seconds to switch to Bluetooth mode (blue LED indicator). The blue LED will flash rapidly, indicating pairing mode.
3. On your mobile device, Mac, or Switch, go to Bluetooth settings and select "WolfLawS X3" from the list of available devices.

4. A solid blue LED on the headset indicates a successful connection.

## OPERATING INSTRUCTIONS

### Headset Controls

- **Power Button:** Press and hold for 3 seconds to power on/off.
- **Mode Switch Button:** Press and hold for 2 seconds to switch between 2.4GHz (white LED) and Bluetooth (blue LED) modes.

- **Volume Wheel:** Scroll up (+) to increase volume, scroll down (-) to decrease volume.
- **Mic On/Off Button:** Press to mute/unmute the microphone.
- **Flexible Microphone:** The microphone can be folded up when not in use for convenience.

## CHARGING

---

To charge your WolfLawS X3 headset:

1. Connect the USB-C end of the charging cable to the headset's USB-C port.
2. Connect the USB-A end of the charging cable to a compatible USB power source (e.g., computer, wall adapter).
3. The LED indicator on the headset will show charging status.
4. A full charge takes approximately 2.5 hours and provides over 50 hours of playtime.

## MAINTENANCE

---

- Clean the headset regularly with a soft, dry cloth.
- Avoid exposing the headset to extreme temperatures, humidity, or direct sunlight.
- Do not attempt to disassemble or modify the headset, as this will void the warranty.
- Store the headset in a cool, dry place when not in use. The earcups can swivel flat for easier storage.

## TROUBLESHOOTING

---

### No Sound from Microphone / Microphone Sound Too Low

1. Ensure the headset is in the correct mode (2.4GHz or Bluetooth) for your device.
2. Check the mic mute button on the headset to ensure the microphone is not muted.

3. For Xbox consoles, confirm the microphone settings: Go to **Audio & music** settings, ensure **Headset mic** is ON, and adjust **Headset chat mixer** to balance game sound and chat sound.
4. Make sure the microphone is properly plugged into its port on the headset.

## Echo from the Microphone

1. Turn off the **Mic monitoring** mode in your Xbox console settings (Audio & music).

## Excessive Noise / Static

1. When using the 2.4GHz transmitter with an Xbox controller, ensure the transmitter is fully inserted into the controller's 3.5mm jack until it snaps securely. A loose connection can cause electrical noise.
2. Ensure the headset is not too far from the connected device or transmitter, as this can cause signal interference.

## Headset Volume Too Low

1. Adjust the volume wheel on the headset to increase the volume.
2. For Xbox consoles, check the **Headset Volume** setting in **Audio & music** and ensure it is set to maximum. The default volume is often 80%.
