

TIMU F9-2US-4B

TIMU Dual System Bluetooth Tracker Smart Tags (Model F9-2US-4B) User Manual

Your guide to seamless item tracking.

1. INTRODUCTION

The TIMU Dual System Bluetooth Tracker Smart Tags are designed to help you locate your valuable items quickly and efficiently. These versatile tags offer compatibility with both Apple's "Find My" network and Google's "Find Hub" app, providing broad usability across mainstream iOS and Android devices. Each tag is lightweight, durable, and features a long-lasting replaceable battery.

Use these smart tags to keep track of keys, luggage, wallets, vehicles, backpacks, and even pets. With features like high-volume alerts, device sharing, and robust privacy protection, the TIMU Smart Tags ensure your belongings are always within reach.

2. SAFETY INFORMATION

- Keep the device away from extreme temperatures and direct sunlight.
- Do not attempt to disassemble or modify the device, as this may void the warranty and pose a safety risk.
- Keep button cell batteries out of reach of children. Swallowing may lead to serious injury or death.
- Dispose of the device and batteries according to local regulations.

3. SETUP

3.1 Initial Setup

1. The tags come with a pre-installed CR2032 lithium battery. Remove the insulation sheet from the battery compartment to activate the tag.
2. Press and hold the power button on the tag until you hear a beep, indicating it is powered on and ready for pairing.

3.2 Pairing with iOS (Apple Find My App)

1. Ensure Bluetooth and Location Services are enabled on your iOS device.
2. Open the **Find My** app.
3. Tap on the **Items** tab.
4. Tap **Add Item**, then select **Other Supported Items**.
5. The app will search for nearby tags. Once your TIMU Smart Tag appears (e.g., "Tagigo"), tap **Connect**.
6. Follow the on-screen prompts to name your item and assign an emoji.
7. Confirm the details to complete the pairing process.

3.3 Pairing with Android (Google Find Hub App)

1. Ensure Bluetooth and Location Services are enabled on your Android device.
2. Download and open the **Google Find Hub** app from the Google Play Store.
3. Press the power button on the tag once to enter pairing mode.
4. The connection page should pop up automatically in the app. Tap **Connect**.
5. Follow the on-screen prompts to name your item and assign an emoji.
6. Confirm the details to complete the pairing process.

Note: The TIMU Smart Tag can only be paired with either an iOS device or an Android device at one time. It cannot be simultaneously connected to both systems.

4. OPERATING INSTRUCTIONS

4.1 Locating Your Items

- **Play Sound:** From the Find My (iOS) or Find Hub (Android) app, select your tag and tap "Play Sound" to trigger an 80-100 decibel alert from the tag's built-in speaker. This is ideal for locating items in close proximity, such as under a sofa or in a cluttered drawer.
- **Find Nearby:** The app displays the distance to your lost item (Bluetooth range up to 36 meters) to help narrow your search area.
- **Map Search:** View the real-time location of your tag on the map within the app.

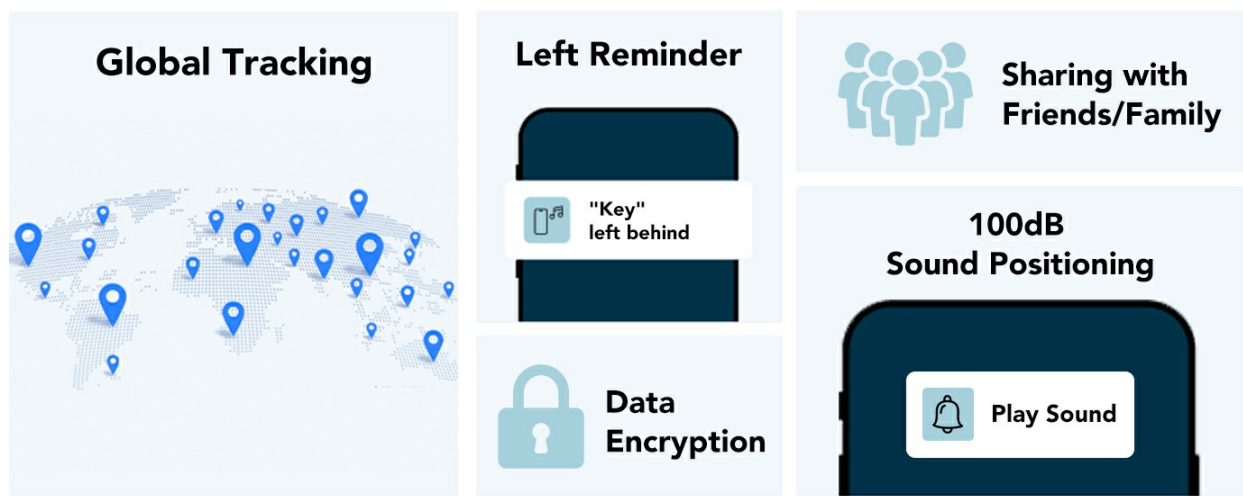

Image 4.1: An infographic illustrating key operating features including global tracking, left reminder notifications, sharing with family and friends, lost mode, sound localization, and map search capabilities.

4.2 Device Sharing

Utilizing new Android features or iOS 17, you can share access to your smart tag with others via Google Find Hub or the "Find" app. This allows designated individuals to view the real-time location maps of your items.

4.3 Privacy Protection

Both iOS and Android "Find" networks transmit data through encrypted, anonymous networks. No location information, history, or item-related data is stored, ensuring comprehensive user privacy protection.

Why choose Tagigo?

	Tagigo	Competitor 1	Competitor 2
Apple/Google Certification	✓		✓
Work on 'Find My' (protect privacy)	✓		✗
Bluetooth	5.4	5.0	5.0
Battery Life	2 Years	1 Years	1 Years
Volume	100dB	80dB	80dB

5. MAINTENANCE

5.1 Battery Replacement

The TIMU Smart Tags use a replaceable CR2032 button battery, offering up to 2 years of use. To replace the battery:

1. Carefully open the tag's casing (a small tool may be provided or required).
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery with the positive (+) side facing up.
4. Close the casing securely.

5.2 Water Resistance

The tags are IP67 water resistant, meaning they can resist rainwater and splashing water droplets. However, they are not designed for prolonged submersion in water.

5.3 Cleaning

Wipe the tags with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

The infographic is divided into several sections. The top-left section, titled 'WHAT'S IN THE PACKAGE?', shows four black smart tags and three CR2032 button batteries. The top-middle section, titled 'BLUETOOTH 5.4', features a blue chip icon. The top-right section, titled '2 YEARS OF USE (Replaceable Battery)', shows a tag with its casing open, revealing the battery, with a large '> 730' in the background. The bottom-left section, titled 'IP67 WATERPROOF', shows a tag surrounded by water droplets. The bottom-middle section, titled 'Not Compatible with HUAWEI', features a red warning sign icon.

Image 5.1: An infographic detailing key features such as 2 years of battery life with a replaceable button battery, IP67 water resistance, and Bluetooth 5.4 for accurate positioning.

6. TROUBLESHOOTING

- **Tag not pairing:** Ensure the tag is powered on, Bluetooth is enabled on your device, and you are within range. Try restarting both the tag and your device.
- **Sound not playing:** Check if the tag's battery is low. Ensure your device's volume is up and the tag is within Bluetooth range.
- **Inaccurate location:** Location accuracy can be affected by environmental factors. Ensure your device has a strong GPS signal and is connected to the internet.
- **Switching between iOS and Android:** If you wish to use the tag with a different operating system, you must first remove the tag from the currently paired app (Find My or Find Hub) before attempting to pair it with the new system.

7. SPECIFICATIONS
