LITTLE TREE 63-Inch Slim Storage Cart Instruction Manual

Model: 0889CART | Brand: LITTLE TREE

INTRODUCTION

This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your LITTLE TREE 63-Inch Slim Storage Cart. Please read these instructions thoroughly before beginning assembly or use, and retain this manual for future reference.

SAFETY INFORMATION

Use caution when moving on uneven surfaces to prevent tipping. Be careful around sharp edges and when assembling or disassembling the cart to avoid pinched fingers. Do not overload shelves; each can hold up to 70 lbs. Ensure all parts are properly secured before use. Do not allow children to play on, with, or around the cart.

PRODUCT OVERVIEW AND FEATURES

The LITTLE TREE 63-Inch Slim Storage Cart is a versatile 5-tier mobile shelf organizer designed to maximize storage in narrow spaces. Its robust construction and thoughtful design make it suitable for various rooms.

- **Extra-Tall Design:** Standing at 63 inches, this cart offers significant vertical storage, providing approximately 20% more space than standard storage carts.
- **Space-Saving Slim Profile:** Engineered to fit into tight gaps, such as between appliances or in small corners, optimizing unused areas.
- **Sturdy MDF Construction:** Made from Medium-Density Fiberboard, offering a solid, quiet, and wobble-free surface that is gentle on stored items. Features a sleek, minimalist white finish.
- **Easy-Roll Wheels for Mobility:** Equipped with smooth-gliding wheels for effortless movement. The reinforced metal handle allows for one-handed repositioning.
- **5 Shelves for Customizable Organization:** Five tiers provide ample storage. Each shelf supports up to 70 lbs and can accommodate various items, from tall bottles to small appliances.
- **Stability Tip:** For optimal stability, especially when rolling or fully loaded, position the cart between walls or appliances for side support. It is not recommended for use in open, unsupervised areas.

SETUP AND ASSEMBLY

Assembly of the LITTLE TREE Slim Storage Cart is required. A detailed assembly instruction manual with diagrams is included in the product packaging. Please follow these instructions carefully. All necessary components and hardware are provided.

Assembly typically takes 30-45 minutes.

Ensure you have a clear, flat workspace. Identify all parts before beginning. Do not overtighten screws during initial assembly; tighten fully once all components are in place. If you encounter any difficulties, refer to the included manual or contact customer support.

OPERATING INSTRUCTIONS

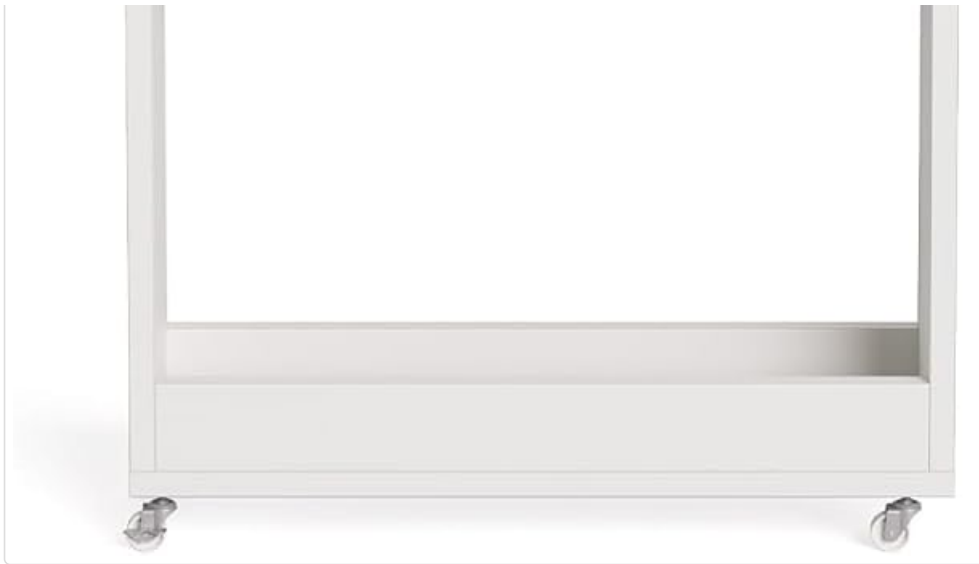

To operate your storage cart:

1. **Loading:** Distribute weight evenly across the shelves. Do not exceed the maximum weight capacity of 70 lbs per shelf. Place heavier items on lower shelves for improved stability.
2. **Moving:** Use the metal handle to gently pull or push the cart. Move the cart slowly, especially when fully loaded or on

uneven surfaces, to prevent tipping.

3. **Positioning:** For enhanced stability, position the cart in narrow spaces, such as between a refrigerator and a wall, or between other furniture pieces that can provide lateral support.
4. **Braking Casters:** If your cart includes braking casters, engage them when the cart is in its desired stationary position to prevent accidental movement.

The cart fits snugly next to a refrigerator, providing accessible storage for kitchen essentials.

Demonstration of the cart's versatility in a living room setting, storing various household items.

METAL HANDLE

RAISED GUARDRAIL

SWIVEL WHEELS

The cart provides practical storage for laundry supplies, fitting neatly beside a washing machine.

MAINTENANCE

To ensure the longevity and appearance of your storage cart:

- **Cleaning:** Wipe surfaces with a damp cloth to remove dust and spills. Follow with a dry cloth to prevent moisture damage.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Caster Care:** Keep casters free of debris to ensure smooth rolling.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Cart is wobbly or unstable.	Loose screws; uneven load distribution; not positioned against a support.	Ensure all screws are tightened. Redistribute items evenly. Position the cart between walls or appliances for lateral support.
Difficulty rolling the cart.	Casters are dirty or damaged; braking casters are engaged.	Clean casters of any debris. Disengage braking casters. If casters are damaged, contact customer support for replacements.
Items falling off shelves.	Overloaded shelves; cart moved too quickly; items not placed securely.	Do not exceed 70 lbs per shelf. Move the cart slowly. Ensure items are placed within the guardrails.
