IMPORTANT SAFETY INFORMATION

- Always assemble the dresser on a soft, clean surface to prevent scratches.
- Ensure all parts and hardware are present before beginning assembly.
- Do not overtighten screws, as this may damage the material.
- This dresser includes an anti-tilt device. It is crucial to install this device to prevent tipping and ensure safety, especially for households with children.
- Keep small parts away from children during assembly.
- Periodically check all connections to ensure they remain tight.

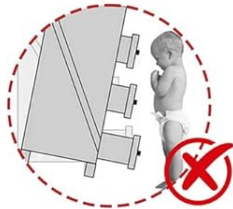

Product Dimensions

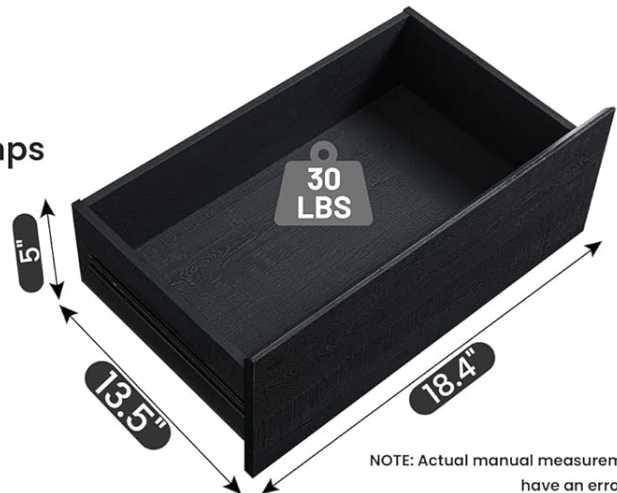

Rounded corners prevent bumps

Anti-tipping Device

Anti-tilt Straps (M, N)

Plastic Feet (O)

Note: The exact quantity of each hardware piece is detailed in the assembly diagrams provided with your product.

SETUP AND ASSEMBLY

Estimated assembly time: 45 minutes. Two people are recommended for assembly.

Tools Required: Phillips head screwdriver (not included), Hammer (not included).

Preparation:

- Clear a spacious area for assembly.
- Use the packaging carton as a working surface to prevent product damage.
- Separate and identify all parts and hardware according to the provided diagrams.

Assembly Steps:

Step 1: Prepare Drawer Glides

Before attaching the drawer glides, separate the mobile plastic parts by dragging them outward. This will allow the inner rail to detach from the outer rail.

Your browser does not support the video tag.

Video Description: A close-up demonstration of how to separate the mobile plastic parts of a drawer glide by pulling them outward. This prepares the glides for installation onto the dresser and drawer components.

Step 2: Follow the Comprehensive Assembly Video

For a detailed, step-by-step visual guide on assembling your Standifurno 9-Drawer Dresser, please refer to the official

installation video below. This video covers all major assembly stages, including attaching panels, installing drawer glides, assembling drawers, and securing the top panel.

Video Description: A comprehensive video guide demonstrating the complete assembly process for the Standifurno 9-Drawer Dresser, from unpacking to final installation of drawers and safety features.

OPERATING INSTRUCTIONS

Drawer Usage:

- To open a drawer, gently pull the top edge of the drawer front. The 45° angled design allows for easy access without external handles.
- To close a drawer, push it firmly until it is fully seated within the dresser frame.
- Avoid overloading drawers to ensure smooth operation and prevent damage to the glides. Each drawer can hold up to 30 lbs.

Ample Storage Space for Any Room

Meet your different storage needs

Actual capacity may vary based on the size of your items.

Image Description: The dresser with several drawers partially open, showcasing the spacious interior for storing clothes, accessories, books, and other household items.

Unique Curved Design

- Features a uniquely curved design that adds a soft, modern sculptural element to your space

Smooth Slide Rails

Effortless operation ensured by ● high-quality drawer slides

45° Angled Drawer Fronts

- Allows for easy and comfortable opening with a simple touch

Image Description: A composite image highlighting three key features: the unique curved design of the dresser's edges, a close-up of a drawer with smooth slide rails, and a hand demonstrating the easy opening of a 45-degree angled drawer front.

MAINTENANCE

Cleaning:

- Wipe surfaces with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- Promptly clean up spills to prevent staining.

General Care:

- Keep the dresser away from direct sunlight and heat sources to prevent warping or fading.
- Avoid placing hot items directly on the tabletop without protection.

- Regularly check and tighten all screws and connections to maintain stability.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--------------------------------|--|--|
| Drawers do not slide smoothly. | Misaligned drawer glides or overloaded drawer. | Check that glides are correctly installed and screws are tight. Reduce drawer contents if overloaded. |
| Dresser feels wobbly. | Loose connections or uneven floor. | Tighten all cam locks and screws. Ensure the dresser is on a level surface; use shims if necessary. Verify anti-tilt device is securely installed. |
| Parts missing or damaged. | Packaging error or transit damage. | Contact customer support with your model number and a description of the issue. |
