Bubbacare 1

Bubbacare 1200W PTC Ceramic Space Heater User Manual

Model: 1

Introduction

Thank you for purchasing the Bubbacare 1200W PTC Ceramic Space Heater. This manual provides important information for the safe operation, installation, maintenance, and troubleshooting of your new heater. Please read this manual thoroughly before use and retain it for future reference. Proper use ensures efficient performance and extends the life of your appliance.

Product Features

- **Fast and Efficient Heating:** Utilizes advanced 1200W PTC ceramic heating technology for rapid warmth, heating up to a 200 sq. ft. area quickly. Offers two heating modes: 1200W (High) and 750W (Low).
- **Multi-Protection Safety:** Equipped with tip-over protection, overheating protection, safety plugs, and V-0 flame retardant materials. UL 1278-tested for enhanced safety.
- **Quiet Operation:** Features a silent fan design with oblique airflow technology, reducing wind noise to below 40dB, making it quieter than many traditional electric heaters.
- **Energy Efficiency:** Ceramic heating technology optimizes heat output while minimizing electricity consumption, potentially offering up to 30% energy savings compared to older electric space heaters.
- **Compact and Portable Design:** Fully assembled with dimensions of approximately 5.98 x 8.46 x 5.59 inches and a lightweight design (1.5 lbs). Includes a built-in handle for easy transport and placement in various indoor settings.

Package Contents

Upon unpacking, please ensure all items listed below are present and in good condition:

- 1 x Bubbacare Space Heater
- 1 x User Manual (this document)

Image: The heater, its packaging, and the included user manual, with dimensions indicated.

Setup

1. **Unpacking:** Carefully remove the heater and all accessories from the packaging. Retain packaging for storage or if return is necessary.
2. **Placement:** Place the heater on a firm, level surface. Ensure there is at least 3 feet (0.9 meters) of clear space around the heater to allow for proper airflow and to prevent fire hazards. Do not place the heater directly under a power outlet.
3. **Power Connection:** Ensure the heater's power switch is in the "O" (off) position before plugging it into a reliable power outlet. The power outlet, plug, and power lead capacity should be above 10A.

Operating Instructions

1. **Power On:** Ensure the heater is plugged into a suitable power outlet.
2. **Select Heating Mode:** Locate the temperature gear switch on the heater.
   - Position "O": Power Off
   - Position "I": Warm Air Gear (750W Low Heat)
   - Position "II": Hot Air Gear (1200W High Heat)

   Adjust the switch to your desired heating level.
3. **Power Off:** To turn off the heater, set the temperature gear switch to the "O" position. Unplug the heater from the power outlet when not in use or when leaving the room.

Safety Precautions

To reduce the risk of fire, electric shock, or injury, always follow these important safety instructions:

- Do not place the heater directly under a power outlet. Ensure the power outlet, plug, and power lead capacity are above 10A.
- Do not insert foreign objects into the air inlet or outlet. Avoid directing the heater towards power outlets, plugs, or power cords.
- This heater is for indoor use only. Do not use in environments with flammable or explosive materials, dust, or oil pollution.
- Ensure adequate air circulation around the heater during use. The ambient temperature should not exceed 30°C (86°F).
- Always unplug the heater when not in use or when leaving the room.
- Do not use this portable heater near bathtubs, shower heads, swimming pools, or any wet areas.
- If the heater malfunctions, contact the dealer or manufacturer for repair. Do not attempt to dismantle or repair the unit without authorization.
- Do not place anything on top of the heater. It is strictly forbidden to touch the protection net cover when the heater is

operating to prevent burns. Exercise caution, especially with children.

- To prevent overheating, do not block the air inlet and outlet of the heater fan with any foreign matter.
- The heater is equipped with **Tip-Over Protection**, which automatically shuts off the unit if it is accidentally knocked over.
- The heater also features **Overheating Protection**, which automatically shuts down the unit if it reaches an unsafe temperature.

Maintenance

1. **Cleaning:** Always unplug the heater and allow it to cool completely before cleaning. Use a soft, damp cloth to wipe the exterior surfaces. Do not use abrasive cleaners or solvents. Ensure no water enters the interior of the heater.
2. **Storage:** When not in use, store the heater in a cool, dry place. It is recommended to store it in its original packaging to protect it from dust and damage.
3. **Air Inlet/Outlet:** Periodically check the air inlet and outlet for dust or debris accumulation. Use a vacuum cleaner with a brush attachment to gently clean these areas. Do not obstruct them.

Troubleshooting

If you encounter issues with your heater, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Heater does not turn on.	Not plugged in; power switch off; tip-over switch activated; overheating protection activated.	Ensure plug is securely in outlet. Turn power switch to 'I' or 'II'. Place heater on a flat, stable surface. Allow heater to cool down if it was recently overheated.
Heater stops working unexpectedly.	Tip-over protection activated; overheating protection activated.	Check if the heater has been knocked over and reposition it. Ensure air inlets/outlets are not blocked and allow the unit to cool down.
Reduced heat output.	Air inlets/outlets blocked; incorrect mode selected.	Clean air inlets/outlets. Ensure 'II' (Hot Air Gear) is selected for maximum heat.

If the problem persists after attempting these solutions, please contact customer support or the manufacturer for assistance. Do not attempt to repair the heater yourself.

Specifications

Brand	Bubbacare
Model Number	1
Special Feature	Fast Heating
Color	Dark Gray
Form Factor	Pedestal
Indoor/Outdoor Usage	Indoor
Product Dimensions (LxWxH)	5.98" x 5.59" x 8.46" (approx. 15 x 14 x 21 cm)
Mounting Type	Tabletop Mount
Room Type	Bedroom, Home Office, Study Room
Heating Coverage	Up to 200 sq. ft.
Heating Technology	PTC Ceramic
Power Modes	800W (Low), 1200W (High)
Fuel Type	Electric
Number of Speeds	2
Max Temperature Setting	185 Degrees Fahrenheit
Item Weight	1.7 pounds
