5.2 Using the Storage Footrest

The footrest serves a dual purpose: a comfortable place to rest your feet and a hidden storage compartment.

- **To use as a footrest:** Simply place your feet on the top surface.
- **To access storage:** Lift the lid of the footrest. The internal compartment can hold small items.
- **To store under the chair:** The footrest can be pulled out for use and then stored neatly under the chair when not needed, saving space. Use the pull strap for easy retrieval.

6. CARE AND MAINTENANCE

Proper care will extend the life and appearance of your Yaheetech chair.

6.1 Velvet Fabric Care

- **Regular Cleaning:** Gently vacuum the velvet fabric regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain and damage the pile. For stubborn stains, use a mild, water-free solvent or dry-cleaning product. Test on an inconspicuous area first.
- **Avoid Moisture:** Do not saturate the fabric with water or cleaning solutions.
- **Brushing:** Occasionally, gently brush the velvet pile in its natural direction with a soft brush to restore its texture.

- Avoid using harsh chemicals or abrasive cleaners on any part of the chair.

7. TROUBLESHOOTING

If you encounter any issues with your chair, please refer to the following common problems and solutions:

- **Issue:** The chair feels wobbly.
Solution: Check all assembly screws and bolts. Tighten any loose connections. Ensure the chair is on a level surface.
- **Issue:** Footrest does not hold its shape.
Solution: Ensure the base panel is fully inserted and flat at the bottom of the footrest.
- **Issue:** Fabric appears flattened or matted.
Solution: Gently brush the velvet pile with a soft brush in the direction of the nap.

- **Issue:** Difficulty pulling out the footrest from under the chair.
Solution: Ensure there are no obstructions. The footrest should slide smoothly on its designated track.
