

uaue T70-AI

uaue AI Smart Watch T70-AI Instruction Manual

Model: T70-AI

Brand: uaue

INTRODUCTION

Welcome to the comprehensive instruction manual for your uaue AI Smart Watch, Model T70-AI. This guide will help you set up, operate, and maintain your smartwatch to fully utilize its advanced features, including the built-in ChatGPT AI assistant, Bluetooth calling, extensive health monitoring, and diverse sports modes. Please read this manual carefully before use to ensure optimal performance and longevity of your device.

WHAT'S IN THE BOX

- Smartwatch
- Charging Cable
- User Manual

SETUP

Charging Your Smart Watch

Before first use, fully charge your smartwatch. The device uses magnetic charging for convenience.

1. Align the magnetic charging cable with the charging points on the back of the watch.
2. Connect the USB end of the charging cable to a compatible USB power adapter (not included).
3. The watch screen will display a charging indicator. A full charge typically takes approximately 2 hours.

Magnetic Charging

App Installation and Pairing

To unlock the full potential of your uauue AI Smart Watch, you need to install the 'GloryFit' app on your smartphone and pair the devices via Bluetooth.

1. Enable Bluetooth on your smartphone.
2. Scan the QR code provided in the manual or search for 'GloryFit' in your phone's app store (Google Play for Android, App Store for iOS).
3. Open the 'GloryFit' app and follow the on-screen instructions to add your device. Select 'T70' or 'T70-AI' from the list of available devices.
4. Confirm the pairing request on both your phone and the smartwatch.

MAINTENANCE

IP68 Waterproof Rating

The uauu AI Smart Watch has an IP68 waterproof rating, making it resistant to sweat, splashes, and light rain. It is suitable for daily activities but **not recommended for hot showers, swimming, or diving**

Image: The uauu AI Smart Watch demonstrating its IP68 waterproof capabilities for everyday use.

Battery Life & Charging

The smartwatch is designed for extended use with efficient power management.

- **Normal Use:** Up to 7 days.
- **Standby Time:** Up to 30 days.
- **Charging Time:** Approximately 2 hours for a full charge.

TROUBLESHOOTING

Heart Rate Signal Missing

If your smartwatch is not consistently detecting your heart rate, ensure the watch is worn correctly – neither too tight nor too loose on your wrist. After adjustment, verify that real-time heart rate monitoring is enabled in the 'GloryFit' app. If the issue persists, consult the app's help section.

Cannot Pair Watch with Phone

If your phone cannot pair with the watch, first check if Bluetooth is enabled on your phone and if the smartwatch signal is visible in your phone's Bluetooth settings. If the watch is already paired with another device, unbind it from that device. For iOS users, you may also need to 'forget' the device in your phone's Bluetooth settings before attempting to pair again.
