SAFETY INFORMATION

Always prioritize safety during installation, operation, and maintenance. Failure to follow these instructions may result in serious injury or property damage.

- **Read the Entire Manual:** Understand all instructions before beginning installation or operation.
- **Proper Installation:** Ensure the garage door opener is installed correctly and securely according to all local building codes.
- **Door Balance:** Verify that the garage door is properly balanced before installing the opener. An unbalanced door can cause severe injury.
- **Obstruction Sensors:** Install and test the safety reversal sensors as instructed. These sensors prevent the door from closing on people or objects.

- **Keep Clear:** Do not allow children or pets near the garage door when it is in motion.
- **Manual Release:** Familiarize yourself with the manual release mechanism for emergency situations.

OPERATION

Your Chamberlain C3000 opener offers multiple ways to control your garage door.

Remote Control

The included 1-button remote control provides convenient access from your vehicle. Press the button once to open or close the garage door.

Wall Control

The sleek 1-button wall control offers simple, reliable access from inside your garage. Press the button to operate the door.

myQ App (Smartphone Control)

The myQ app allows you to open, close, and monitor your garage door from anywhere using your smartphone. Download the myQ app from your device's app store and follow the in-app instructions to connect your opener.

The advertisement features a dark blue background with a house silhouette. At the top, the text "CHAMBERLAIN" is in large white letters, with "POWERED BY myQ" below it. Five circular callouts highlight different products: "GARAGE KEYPAD" (a white keypad), "VIDEO DOORBELL" (a black doorbell), "SMART LOCKS" (a black lock), "OUTDOOR CAMERAS" (a white outdoor camera), and "INDOOR CAMERAS" (a white indoor camera). In the center, a hand holds a smartphone displaying the myQ app interface, which shows a "Garage Door" status and download links for the App Store and Google Play. Below the products, a large white garage door opener is shown. At the bottom, the text "All-in-one access + monitoring" is followed by a paragraph: "Only myQ gives you total control and visibility to every access point of your home—giving you peace of mind your home is safe and secure".

MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your garage door opener.

- **Monthly Door Balance Test:** Disconnect the opener and manually lift the door. It should stay in place at any point of travel. If not, contact a garage door professional.
- **Monthly Safety Reversal Test:** Place a 1.5-inch object on the floor in the door's path. The door should reverse upon contact. If not, adjust the travel limits or contact support.
- **Inspect Chain Tension:** Check the chain for proper tension. It should not sag excessively. Adjust if necessary according to the installation instructions.
- **Clean Safety Sensors:** Wipe the lenses of the safety reversal sensors with a soft, dry cloth to ensure clear visibility.
- **Battery Backup Check:** Periodically test the battery backup by unplugging the opener and operating the door. Replace the battery when its performance degrades.

TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Opener does not respond to remote/wall control.	Power outage, remote battery dead, remote out of range, opener unplugged.	Check power supply, replace remote battery, ensure remote is within range, plug in opener.
Door does not close completely.	Safety sensors obstructed or misaligned, travel limits need adjustment.	Clear obstruction, align sensors, adjust travel limits as per manual.
Door reverses unexpectedly.	Safety sensors obstructed, force settings too low, door unbalanced.	Clear sensors, adjust force settings (consult manual), check door balance.
Light bulb not working.	Bulb burned out, loose connection.	Replace bulb (use LED bulbs up to 60W equivalent), check connection.
myQ app not connecting.	Wi-Fi issues, incorrect myQ setup.	Check Wi-Fi connection, re-link opener to myQ app, ensure strong signal.
