Using Storage Chaise

To access the storage compartment, lift the top cushion of the chaise from the front edge. The lid will open to reveal the storage space. Close by gently pressing the lid down until it is secure.

Using USB Charging Port

Locate the USB charging port on the side of the armrest. Connect your device's USB cable to the port to charge. Ensure the sofa is connected to a power source if required (check specific model for power requirements).

MAINTENANCE

- **Fabric Care:** The cloud-like plush fleece fabric is soft and breathable. For general cleaning, vacuum regularly with a

soft brush attachment to remove dust and debris.

- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa away from direct sunlight or use curtains/blinds.
- **Hardware Check:** Periodically check all screws and bolts to ensure they are tight. Re-tighten as necessary to maintain stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Sofa feels unstable or wobbly.	Loose fasteners.	Check and tighten all screws and bolts. Ensure all connection points are properly engaged.
Pull-out bed mechanism is stiff or not extending smoothly.	Obstruction or misaligned parts.	Ensure no objects are blocking the mechanism. Verify all assembly steps for the pull-out bed were followed correctly. Apply a silicone-based lubricant to moving parts if necessary.
USB charging port not working.	Not connected to power, faulty cable, or device issue.	Ensure the sofa's power cable (if applicable) is plugged into a working outlet. Try a different USB cable or device to rule out external issues. Check for any pinched wires during assembly.
Cushions feel too firm or too soft.	Normal break-in period or personal preference.	Cushions may soften slightly with use. The sofa features high-density foam and pocket springs for balanced support.
