2. Package Contents

Verify that all items are present in the package:

- 1 × Hac Sa Beach 10.8" Android Car Stereo Head Unit
- 1 × ISO Wiring Harness
- 1 × RCA Cable
- 1 × Camera Cable
- 1 × Original USB Adapter
- 2 × USB Cables
- 1 × Radio Antenna Cable
- 1 × CANbus Cable
- 1 × GPS Antenna
- 1 × CANbus Box
- 1 × User Manual (this document)
- 1 × 720P HD Rear View Camera

3. Setup Instructions

3.1 General Installation

Professional installation is recommended for car electronics. Ensure the vehicle's power is disconnected

before beginning installation. Connect the provided wiring harness, RCA cables, and other necessary cables to their corresponding ports on the head unit and your vehicle's system. Refer to your vehicle's specific wiring diagram if needed.

3.2 Backup Camera Connection

The unit includes a 720P HD rear view camera. Connect the camera cable to the designated camera input on the head unit. The system is designed to automatically display the reversing image when the vehicle is shifted into reverse gear. This connection is compatible with the original vehicle's reversing line for direct installation.

4. Operating Instructions

4.1 Wireless CarPlay & Android Auto

To use Wireless Apple CarPlay or Android Auto, ensure Bluetooth and Wi-Fi are enabled on both your mobile phone and the car stereo. Tap the 'ZLink5' icon on the stereo's interface to access the connectivity menu. Pair your phone via Bluetooth. Once paired, the system will automatically connect to CarPlay or Android Auto. For wired connection, use the provided 4-pin or 6-pin USB cable.

4.3 Bluetooth Connectivity

Utilize the built-in Bluetooth for hands-free calling and audio streaming. The unit includes a built-in microphone and supports an external microphone for clear communication. Pair your phone via Bluetooth settings on the head unit.

4.4 Steering Wheel Control

The car stereo is compatible with your vehicle's original steering wheel control buttons. This allows you to manage functions like answering calls, adjusting volume, and changing tracks directly from your steering wheel. The system supports learning these controls for customization.

6. Troubleshooting

If you encounter issues with your car stereo, please refer to the following common solutions:

- **No Power:** Check all power connections and fuses. Ensure the ACC and BATT wires are correctly connected.
- **No Sound:** Verify speaker connections and audio settings. Check if the volume is muted or too low.
- **Touchscreen Unresponsive/Inaccurate:** Perform a touchscreen calibration as shown in Video 4.5.
- **Bluetooth/CarPlay/Android Auto Connection Issues:** Ensure Bluetooth and Wi-Fi are enabled on both devices. Try restarting both the phone and the car stereo. For first-time connection, ensure proper pairing as shown in the video below.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
