Gitelsnour GCT006SMU

Gitelsnour Cat Tree Instruction Manual

Model: GCT006SMU

Size: 49.2 inches

INTRODUCTION

This manual provides detailed instructions for the assembly, usage, and maintenance of your Gitelsnour GCT006SMU Cat Tree. Designed for small cats and kittens, this multi-level cat tower offers various features for play and rest, including scratching posts, a cozy cat house, a hanging basket, and multiple platforms. Please read all instructions carefully before assembly and use.

SAFETY GUIDELINES

- Ensure all screws are tightened securely before use and periodically check for any loosening.
- Place the cat tree on a flat, stable surface to prevent wobbling.
- Utilize the provided anti-tip device to secure the cat tree to a wall for enhanced stability, especially if you have active or multiple cats.
- Regularly inspect the cat tree for loose parts, frayed ropes, or any damage. Replace or repair components as needed to maintain safety.
- This cat tree is specifically designed for small cats and kittens. It is not recommended for large or heavy cats due to potential stability and size limitations.
- Keep the cat tree away from open flames, heaters, and excessive moisture to prevent damage or hazards.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. A detailed parts list with corresponding labels is typically included in the product packaging. Below is a general overview of the types of parts you should expect:

- Base Plates (various shapes and sizes)
- Plush-covered Posts (various lengths)

- Sisal-wrapped Scratching Posts (various lengths)
- Platforms (various shapes and sizes)
- Cat Condo/House
- Hanging Cat Basket
- Hanging Toys (e.g., plush balls)
- Hardware Pack (screws, Allen wrench, anti-tip kit)

ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. Refer to the labels on each part and the diagrams in your product's physical instruction manual for precise guidance.

Step 1: Assemble the Base

Lay the largest base plate on a flat surface. Attach the designated scratching posts and plush posts to the pre-drilled holes on the base using the longest screws. Ensure each post is securely fastened to create a stable foundation.

Step 2: Install the First Level Platforms

Place the first set of platforms onto the posts assembled in Step 1. Secure them firmly with the appropriate screws. Then, attach the next set of shorter posts to these platforms, preparing for the next level.

Step 3: Construct the Cat Condo

Position the cat condo onto the posts from Step 2, aligning the holes. Secure the condo to the posts and the platform below. If applicable, attach any internal cushions or spring toys to the condo as indicated in your manual.

Step 4: Add the Hanging Basket and Mid-Level Platforms

Attach the hanging cat basket to its designated location, typically supported by posts or a platform. Ensure the basket is securely fastened. Continue by adding any remaining mid-level platforms and posts, following the sequence in your manual.

Step 5: Finalize the Top Platform and Toys

Install the highest platform(s) and the removable top platform. Secure all connections. Finally, attach any hanging plush balls or other interactive toys to the designated points on the cat tree. Once fully assembled, gently test the stability of the entire structure.

PRODUCT FEATURES

Top Removable Perch with Funny Toy

Removable Top Platform with Toy

This cat tree features a spacious top platform that is detachable for easy cleaning. A single pole with three plush balls is designed for interactive play.

Comfort Cat Cave

Hanging Cat Basket

Comfort Cat Condo & Hanging Basket

The cat house is covered with soft plush fabric, providing a comfortable resting space. The hanging cat basket, supported by an inner iron ring, offers a strong sense of security.

Stable Small Cat Tree

The separate baseplate design makes this kitten tree more stable.

Safe P2-grade particleboard

Sturdy Cat Tree Design

The separated base plate increases the bottom area for better stability. An anti-tip device is included for wall attachment, providing additional safety.

Cat Scratching Sisal Ramp

The sisal board at the bottom allows the cat to climb up and down easily.

Stepped Activity Route & Sisal Ramp

Stepped structures on both sides allow cats to climb and jump easily. Multiple sisal-wrapped posts and a sisal ramp provide ample scratching opportunities.

USAGE GUIDELINES

- **Encouraging Use:** To help your cat adapt to the new tree, place treats, catnip, or their favorite toys on different levels. Gently guide them to explore the various platforms and enclosed spaces.
- **Scratching:** The sisal-wrapped posts and ramp are designed to satisfy your cat's natural urge to scratch, helping to protect your furniture. Encourage them to use these areas.
- **Play & Rest:** The multi-level design offers opportunities for climbing, playing with hanging toys, resting in the cozy condo or basket, and observing their surroundings from elevated perches.

CARE AND MAINTENANCE

- **Cleaning:** The removable top platform can be detached for easy cleaning. For other plush surfaces, use a lint roller, soft brush, or a vacuum cleaner with a brush attachment to remove loose fur and dust. Spot clean any soiled areas with a mild, pet-safe detergent and a damp cloth, then allow to air

dry completely.

- **Inspection:** Periodically check all screws, bolts, and connections to ensure they remain tight. Retighten as necessary. Inspect sisal ropes for excessive wear and tear.
- **Damage:** If any part of the cat tree becomes damaged, such as a broken platform or severely frayed scratching post, discontinue use immediately and replace the affected component to ensure your pet's safety.

TROUBLESHOOTING

- **Instability/Wobbling:** Ensure the cat tree is placed on a completely flat and level surface. Double-check that all screws and connections are fully tightened. If wobbling persists, ensure the anti-tip device is correctly installed and secured to a wall.
- **Cat Not Using the Tree:** Cats may need time to adjust to new items. Try placing catnip, favorite treats, or familiar toys on different levels of the tree. Gently encourage your cat to explore by playing with them around the tree.
- **Loose or Damaged Parts:** If you notice any loose screws, tighten them immediately. For damaged components like platforms or scratching posts, contact customer support for replacement parts. Do not allow your cat to use a damaged tree.
