Karini OR011

Karini Large Package Delivery Box H42inch Instruction Manual

Model: OR011

1. Product Overview

The Karini H42inch Large Package Delivery Box is designed to provide a secure and weather-resistant solution for receiving packages and mail. It features dual compartments for different item sizes and an anti-theft design to protect your deliveries.

- **Dual Secure Compartments:** Includes a top locking mail slot for letters and a large bottom compartment for oversized packages.
- **Magnetic Delivery Sign:** Comes with a "Package Delivery" sign to guide delivery personnel.
- **Massive Capacity:** Generous dimensions of 42"(H) x 20"(W) x 17.13"(D) accommodate multiple large packages.
- **Adjustable Feet:** Four manually adjustable feet ensure stability on uneven surfaces.
- **All-Weather & Anti-Theft Protection:** Professionally coated with a weather-resistant outdoor powder finish, sealed with waterproof strips (IPX3-level protection), and features a robust, locking design with discreet hinges to deter theft.
- **Easy Assembly:** Designed for quick and tool-free setup.

2. Safety Information

- Always handle the package delivery box with care due to its weight (approximately 55.3 lbs). It is recommended to have two people for lifting and positioning.
- Ensure the box is placed on a stable, level surface. Use the adjustable feet to compensate for uneven ground.
- If permanently mounting the box, follow local building codes and use appropriate anchors (not included).
- Keep children and pets away from the box during installation and operation to prevent accidental injury.
- Do not climb on or lean heavily on the box.
- Regularly check all locks and hinges for proper function and security.

3. Package Contents

Verify that all components are present before beginning assembly.

- Package Delivery Box (Main Unit)
- Magnetic "Package Delivery" Sign
- Adjustable Feet (x4)

- Keys for both compartments
- Screwdriver (x1)
- Expansion Screws (x4) - for optional permanent mounting
- Thickened Cushion/Padding for bottom compartment

4. Setup and Installation

The Karini Package Delivery Box is designed for easy setup. Follow these steps for installation:

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Attach Adjustable Feet:** Turn the box upside down. Screw the four adjustable feet into the designated holes at the bottom corners of the box. Adjust them as needed to ensure the box is level on your chosen surface.
3. **Install Locks (if not pre-installed):** Secure the locks for both the mail slot and the main package retrieval door using the

provided screwdriver and screws.

4. **Place Internal Padding:** Insert the thickened cushion into the bottom compartment to protect packages upon delivery.
5. **Optional Permanent Mounting:** For enhanced security, the box includes pre-drilled holes for permanent mounting. Use the provided expansion screws to secure the box to a concrete surface. (Note: Additional anchors may be required depending on your mounting surface, not included).
6. **Attach Magnetic Sign:** Place the magnetic "Package Delivery" sign on the front of the box to clearly instruct delivery personnel.

5. Operating Instructions

5.1 Receiving Mail (Top Slot)

For letters and thin envelopes, delivery personnel can simply open the top mail slot and drop items inside. The internal baffle prevents direct access to the contents from the top.

Image: A delivery person is shown placing mail into the secure top mail slot of the Karini Package Delivery Box.

5.2 Receiving Packages (Main Compartment)

For larger packages, delivery personnel should open the top lid of the box. This action automatically activates an anti-theft baffle, preventing access to previously dropped packages. They can then place the package into the open compartment. Once the lid is closed, the package drops into the secure, locked bottom compartment.

5.3 Retrieving Deliveries

To retrieve your mail and packages, use the provided key to unlock the bottom access door. Open the door and collect your items. Remember to lock the door after retrieval.

6. Maintenance

- **Cleaning:** Wipe the exterior of the box with a soft, damp cloth to remove dust and dirt. Avoid abrasive cleaners that could damage the powder-coated finish.
- **Weather Protection:** The box is designed to be waterproof and weather-resistant. Periodically check the waterproof strips for any signs of wear or damage and replace if necessary to maintain IPX3-level protection.
- **Lock Care:** Lubricate the locks periodically with a graphite-based lubricant to ensure smooth operation, especially in harsh weather conditions.
- **Adjustable Feet:** Re-check the tightness and adjustment of the feet occasionally to ensure continued stability.

7. Troubleshooting

- **Packages not dropping:** Ensure the top lid is fully opened and closed firmly. Check for any obstructions in the drop mechanism.
- **Difficulty with locks:** If a key is stiff, apply a small amount of graphite lubricant to the key and insert it into the lock, turning gently. Do not force the key.
- **Box is unstable:** Adjust the four leveling feet at the base of the box until it sits firmly without wobbling.
- **Water inside the box:** Verify that the waterproof seals are intact and properly seated. Ensure the box is not positioned in an area where water can pool around its base.

8. Specifications

Feature	Detail

Feature	Detail
