SAFETY INFORMATION

- Always assemble the unit on a soft, clean surface to prevent scratches.
- Ensure all parts are securely fastened before use. Periodically check and tighten all connections.
- Do not exceed the maximum weight recommendation of 150 pounds for the countertop.
- Keep small parts and packaging materials away from children and pets to prevent choking hazards.
- Use caution when moving the island, especially on uneven surfaces, to prevent tipping.

PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. The package includes:

- All necessary parts, clearly labeled.

- Instruction manual.
- All required assembly tools.
- Hardware kit (screws, bolts, etc.).

If any parts are missing or damaged, please contact customer support for assistance.

ASSEMBLY INSTRUCTIONS

Assembly is required for this product. While the instructions are designed to be clear and easy to follow, the process can be time-consuming. It is recommended to have ample space for unpacking and organizing parts.

General Tips for Assembly:

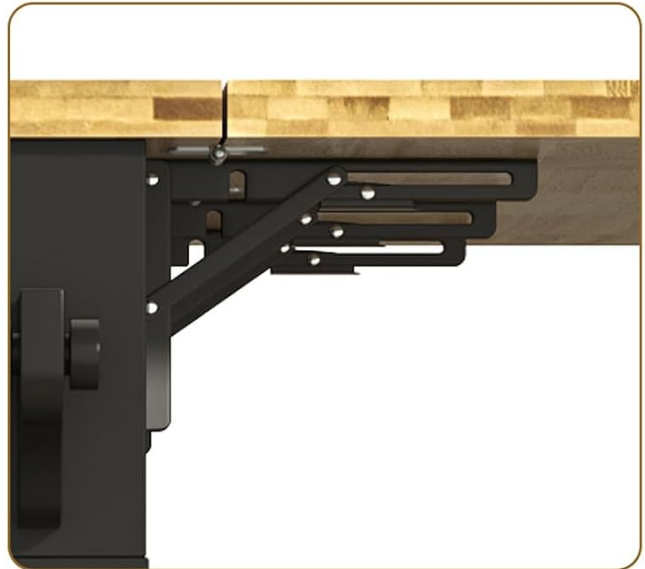

- **Organize Parts:** Lay out all labeled parts and hardware according to the instruction manual.
- **Tools:** All necessary tools are provided. A power screwdriver can expedite the process, but use caution to avoid overtightening.
- **Pilot Holes:** Some pilot holes for screws may benefit from additional drilling to prevent stripping screw heads, especially when using a powered driver.
- **Drawer Assembly:** Pay close attention to the placement of specific components (e.g., item 'O' for drawers) to ensure smooth operation. Incorrect placement can affect drawer functionality.
- **Door Alignment:** When attaching cabinet doors, ensure proper alignment before fully tightening screws. Slight adjustments to hinge placement may be necessary.

Follow the step-by-step instructions provided in the included manual for detailed assembly guidance.

OPERATING INSTRUCTIONS

Drop-Leaf Countertop Extension:

The kitchen island features an expandable drop-leaf design to provide additional workspace when needed. To extend the countertop:

1. Locate the drop-leaf section on the side of the island.
2. Gently lift the drop-leaf until it is horizontal.
3. Pull out the sturdy frame supports from underneath the main countertop until they lock into place, securing the drop-leaf.

To fold the drop-leaf back down, release the frame supports and carefully lower the leaf.

1 *Fold up*

2 *Expand to a Large Countertop*

Mobility and Stability:

The island is equipped with 5 heavy-duty smooth-rolling casters for easy movement. Two of these casters are locking wheels to ensure stability when the island is in a desired position.

- **To Move:** Ensure all locking casters are in the unlocked position. Gently push the island to its new location.
- **To Secure:** Once the island is in place, engage the locks on the two locking casters by pressing down on the lever. This will prevent unintended movement.

EASY MOVEMENT AND DAILY CONVENIENCE

Storage Features:

- **Drawers:** Utilize the two deep drawers for cutlery, utensils, or other small kitchen items.
- **Adjustable Shelves:** The large cabinet features 3-level adjustable shelves. To adjust, remove the shelves, reposition the shelf pins to the desired height, and reinsert the shelves.
- **Door Shelves:** The two cabinets with door shelves provide additional storage for spices or smaller items.
- **Spice Rack & Towel Rack:** Use the integrated spice rack and towel rack for convenient access to frequently used items.

MAINTENANCE AND CARE

- **Cleaning:** Wipe the surfaces with a dry cloth. For stubborn marks, use a slightly damp cloth and dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Wood Care:** The rubber wood top is durable but can be protected with food-safe wood conditioner or oil periodically to maintain its appearance and prevent drying.

- **Hardware:** Periodically check all screws and bolts to ensure they are tight. Retighten as necessary to maintain structural integrity.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood and engineered wood surfaces.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawers do not slide smoothly or close properly.	Incorrect placement of drawer slides or internal components (e.g., item 'O' during assembly).	Review the assembly instructions for drawer components. Disassemble and reassemble the affected drawer, ensuring all parts are correctly aligned and secured.
Island feels wobbly or unstable.	Loose hardware or uneven floor surface.	Check and tighten all screws and bolts throughout the unit. Ensure the casters are locked if the island is stationary. If the floor is uneven, consider using shims under the casters.
Drop-leaf does not stay extended.	Support mechanism not fully engaged.	Ensure the frame supports are fully pulled out and locked into place beneath the extended drop-leaf.
