## 5. MAINTENANCE

### 5.1 Cleaning Instructions

- **General Cleaning:** For routine cleaning, wipe the upholstery with a damp cloth.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. For tougher stains, use a water-based cleaning agent (Upholstery Cleaning Code: W). Test any cleaning solution on an inconspicuous area first.
- **Vacuuming:** Regularly vacuum the sofa using a soft brush attachment to remove dust and debris.

### 5.2 General Care

- Avoid direct sunlight to prevent fading of the fabric.
- Rotate cushions periodically to ensure even wear.
- Do not use harsh chemicals or abrasive cleaners.

## 6. TROUBLESHOOTING

If you encounter any issues with your VanAcc Sleeper Sofa, please refer to the following common solutions:

- **Sofa feels unstable:** Check all leg and section connection bolts and screws. Tighten any loose fasteners.
- **Pull-out bed mechanism is stiff:** Ensure no obstructions are blocking the mechanism. Apply a silicone-based lubricant to the moving parts if necessary.
- **Cushions appear flat:** Fluff and rotate cushions regularly. Over time, some compression is normal.
- **Fabric pilling:** Use a fabric shaver to gently remove pills. This is common with certain fabric types and does not affect durability.

For issues not covered here, please contact VanAcc customer support.
