## 1. IMPORTANT SAFETY INSTRUCTIONS

Read all instructions carefully before installation and use. Keep this manual for future reference.

- **Electrical Safety:** Always turn off the main power supply at the circuit breaker before installing, cleaning, or performing any maintenance on the fixture.
- **Qualified Electrician:** Installation should be performed by a qualified electrician or a person with adequate knowledge of electrical wiring to ensure safety and compliance with local electrical codes.
- **Voltage Compatibility:** Ensure the voltage of your power supply matches the fixture's requirements (220-240V).
- **Mounting Surface:** Mount the fixture only on a structurally sound surface that can support its weight.
- **Wiring:** Ensure all electrical connections are secure and properly insulated. Do not expose wires to sharp edges or abrasive surfaces.
- **Heat:** Do not touch the light fixture immediately after operation, as it may be hot. Allow it to cool before handling.
- **Indoor Use Only:** This product is designed for indoor use only. Do not expose to moisture or outdoor elements.

## 2. PRODUCT OVERVIEW

The Goeco 12W LED Wall Lamp (Model 922/VM4-307) is a modern indoor lighting fixture featuring a unique leaf-shaped design. It provides warm 3000K light, suitable for various indoor spaces.

### Key Features:

- **Modern Design:** Chrome-plated metal frame with two light sources forming a decorative leaf shape.
- **Acrylic Lampshade:** High light transmittance, excellent heat dissipation, and durable.
- **Integrated LED Chips:** Provides 3000K warm light, 12W power, with no flicker or glare, ensuring a long service life.
- **Durable Construction:** Robust iron base and aluminum body, galvanized for a smooth, bright finish.

### LED Chips Light Source

No flicker, no glare, long service life

### Acrylic Lampshade

High light transmittance,  
good heat dissipation, not fragile

**Figure 2.1:** Goeco LED Wall Lamp Components. This image highlights the acrylic lampshade, known for its high light transmittance and good heat dissipation, and the integrated LED chips that provide a flicker-free, glare-free light source with a long service life.

### 3. SPECIFICATIONS

Brand	Goeco
Model Number	922/VM4-307
Power	12 Watts
Voltage	220-240 Volts
Light Source	Integrated LED Chips
Color Temperature	3000K (Warm Light)
Luminous Flux	1350 lm

<b>Material</b>	Iron, Acrylic
<b>Finish</b>	Painted, Galvanized (Chrome)
<b>Dimensions (L x W x H)</b>	30 cm x 11.5 cm x 4.5 cm (approx. 11.81 in x 4.53 in x 1.77 in)
<b>Weight</b>	Approx. 400 g (0.88 lbs)
<b>Installation Method</b>	Semi-flush mount, Wall Mount
<b>Usage</b>	Indoor use only (Bedroom, Living Room, Hallway, Staircase, etc.)
<b>Batteries Required</b>	No

## 4. PACKAGE CONTENTS

---

Verify that all components are present and undamaged before proceeding with installation.

- Goeco 12W LED Wall Lamp (1 unit)
- Mounting Material (screws, wall anchors, etc.)
- Instruction Manual (this document)

## 5. INSTALLATION INSTRUCTIONS

---

The product comes pre-wired for easy installation. Follow these steps carefully. Ensure the power supply is OFF before

starting.

### 1. Prepare for Installation:

- Turn off the main power supply to the installation area at the circuit breaker.
- Gather necessary tools (e.g., screwdriver, drill, wire strippers).

### 2. Mark Mounting Position:

- Determine the desired location for the wall lamp.
- Use the mounting bracket (if separate) or the lamp's base as a template to mark the drilling points on the wall.

### 3. Drill Holes and Install Wall Anchors:

- Drill holes at the marked positions.
- Insert appropriate wall anchors into the drilled holes, if required for your wall type.

### 4. Connect Wiring:

- Carefully connect the lamp's wires to your household electrical circuit wires. Typically, this involves connecting live to live, neutral to neutral, and ground to ground. Refer to local electrical codes for proper wiring color conventions.
- Ensure all connections are secure using wire nuts or terminal blocks.

### 5. Mount the Lamp:

- Align the lamp's base with the mounting holes.
- Secure the lamp to the wall using the provided screws. Do not overtighten.

### 6. Restore Power:

- Once the lamp is securely mounted and all connections are checked, turn the main power supply back on at the circuit breaker.
- Test the lamp to ensure it functions correctly.

## 6. OPERATION

---

The Goeco 12W LED Wall Lamp operates as a standard wall-mounted light fixture.

- **Turning On/Off:** Control the lamp using your existing wall switch connected to the fixture's circuit.
- **Light Output:** The lamp provides a consistent 3000K warm white light. It is not dimmable unless connected to a compatible dimming switch and the lamp itself is specified as dimmable (this model is not specified as dimmable).

Figure 6.1: Visual representation of the Goeco LED Wall Lamp in its 'Turn On' (illuminated) and 'Turn Off' (unilluminated) states.

## 7. MAINTENANCE AND CARE

---

Regular maintenance ensures the longevity and optimal performance of your LED wall lamp.

- **Cleaning:**
  - Before cleaning, ensure the power supply to the lamp is turned off.
  - Wipe the lamp's surface with a soft, dry, or slightly damp cloth.
  - Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or acrylic.
- **Bulb Replacement:** The LED chips are integrated and not user-replaceable. The lamp is designed for a long service life. If the LEDs fail, the entire fixture may need replacement.
- **Inspection:** Periodically check for any loose connections or signs of damage. If any issues are found, consult a qualified electrician.

## 8. TROUBLESHOOTING

---

If you encounter issues with your Goeco LED Wall Lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not turn on.	<ul style="list-style-type: none"><li>◦ No power to the fixture.</li><li>◦ Loose wiring connection.</li><li>◦ Faulty wall switch.</li></ul>	<ul style="list-style-type: none"><li>◦ Check the circuit breaker and ensure power is on.</li><li>◦ Turn off power, then check all wiring connections. Tighten if loose.</li><li>◦ Test the wall switch with another device or replace it if faulty.</li></ul>
Light flickers or is dim.	<ul style="list-style-type: none"><li>◦ Loose wiring connection.</li><li>◦ Incompatible dimmer switch (if applicable).</li><li>◦ Voltage fluctuations.</li></ul>	<ul style="list-style-type: none"><li>◦ Turn off power, then check all wiring connections.</li><li>◦ Ensure the lamp is not connected to an incompatible dimmer. This lamp is not specified as dimmable.</li><li>◦ Consult an electrician to check household voltage stability.</li></ul>
Lamp makes buzzing noise.	<ul style="list-style-type: none"><li>◦ Loose wiring.</li><li>◦ Incompatible dimmer switch.</li></ul>	<ul style="list-style-type: none"><li>◦ Turn off power, then check all wiring connections.</li><li>◦ Ensure the lamp is not connected to an incompatible dimmer.</li></ul>

If the problem persists after trying these solutions, please contact customer support or a qualified electrician.

## 9. WARRANTY AND SUPPORT

---

This product is covered by a manufacturer's warranty. Please refer to your purchase documentation for specific warranty terms and conditions.

For technical support, replacement parts, or warranty claims, please contact Goeco customer service through the retailer where the product was purchased.

**Manufacturer:** Goeco

**Model Number:** 922/VM4-307
