pouseayar B0FR7P8XT5

pouseayar Professional Electric Spa Table/Chair with LED Light User Manual

Model: B0FR7P8XT5

Introduction

This manual provides detailed instructions for the safe and efficient operation, setup, and maintenance of your pouseayar Professional Electric Spa Table/Chair. This versatile unit features a fully electric 3-motor adjustment system, RGB LED ambient lighting, and an ergonomic design suitable for various professional applications.
Key features include:

- **Fully Electric 3-Motor Adjustment System:** Independent control for height, backrest, and leg rest.
- **RGB LED Lighting:** 7 selectable colors with 3 adjustable brightness levels, controlled by a wired handheld remote.
- **Ergonomic Design:** 27.6" wide surface, contoured backrest, and adjustable leg rest for client comfort.
- **Heavy-Duty Stability:** Full aluminum alloy lift column and reinforced steel frame support up to 550 lbs (250 kg).
- **Multi-Purpose Use:** Ideal for massage, facials, medical exams, tattoo work, waxing, and beauty treatments.

Safety Information

Please read and understand all safety instructions before operating the spa table/chair. Failure to follow these instructions may result in injury or damage to the product.

- Always follow the assembly instructions carefully.
- Do not exceed the maximum weight capacity of**550 lbs (250 kg)**.
- Be cautious when adjusting the electric motors to prevent injury. Ensure no body parts or objects are in the path of moving components.
- Keep the power cord away from heat sources, water, and sharp objects to prevent damage.
- Always turn off the power supply and unplug the unit before making any adjustments, cleaning, or performing maintenance.
- This product is intended for adult use only.

Setup

The pouseayar Electric Spa Table/Chair is shipped in two separate packages for easier handling and protection during transit. Carefully unpack both boxes and identify all components before beginning assembly.

Image: The spa table/chair components are delivered in two separate packages, labeled "Electric Bed - Top" and "Electric Bed - Bottom", to facilitate easier movement and setup.

1. **Unpacking:** Carefully remove all components from both packages. Check the packing list to ensure all parts are present and undamaged.
2. **Base Placement:** Place the main base unit (containing the lift column and foot controls) on a flat, stable surface where the chair will be used.
3. **Attach Top Section:** Securely attach the top bed section to the lift column according to the detailed assembly instructions provided in the physical manual. Ensure all connections are firm.
4. **Connect Power:** Plug the power cord into a grounded electrical outlet.
5. **Leveling:** The base is equipped with 4 adjustable leveling feet. Rotate these feet to ensure the chair is stable and balanced on any surface.

Image: Close-up view of the adjustable leveling feet located at the base of the spa table, designed to provide stability on uneven surfaces.

Operating Instructions

3-Motor Adjustment System

The spa table/chair features three independent electric motors for precise adjustment of height, backrest, and leg rest. These can be controlled using either the foot pedal controls or the wired handheld remote.

Image: Visual representation of the electric adjustment capabilities, illustrating the range and speed of height (25.5"-33.5" in 52 seconds), backrest (up to 90° in 19 seconds), and leg rest (up to 90° in 22 seconds) movements.

- **Height Adjustment:** The table height can be adjusted from 25.5 inches (65 cm) to 33.5 inches (85 cm). This adjustment takes approximately 52 seconds for a full range of motion.
- **Backrest Adjustment:** The backrest can be adjusted up to a 90° angle, taking approximately 19 seconds for full movement.
- **Leg Rest Adjustment:** The leg rest can also be adjusted up to a 90° angle, taking approximately 22 seconds for full movement.

Control Mechanisms

The unit offers dual control options: a foot pedal system integrated into the base and a wired handheld remote.

Image: Detailed view of the foot pedal controls on the base, showing buttons for lifting/lowering the backrest, leg rest, and overall bed height.

Image: A practitioner operates the foot controls for hands-free adjustment, while a client uses the handheld remote to adjust their position, demonstrating the dual control system.

- **Foot Pedal Controls:** Located on the base, these allow practitioners to make hands-free adjustments. Each button requires a second press to activate adjustment, preventing accidental operation.
- **Handheld Remote Control:** Provides precise control for both practitioners and clients to adjust the chair to their preferred sitting or lying position. This remote also features the anti-mistouch design, requiring a second press to activate.

RGB LED Ambient Lighting

The integrated RGB LED lighting system enhances the atmosphere of your treatment space. It is controlled via a dedicated wired handheld remote.

- **Color Selection:** Choose from 7 distinct colors: Red, Emerald Green, Deep Blue, Warm White, Purple, Light Blue, and White.
- **Brightness Levels:** Each color has 3 adjustable brightness levels.

- **Operation:** Use the dedicated LED remote to cycle through colors and adjust brightness to create the desired ambiance.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your spa table/chair.

- **Cleaning:**
  - Always unplug the unit before cleaning.
  - Wipe down the PU leather surfaces with a soft, damp cloth and mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the material.
  - The headrest features a detachable and washable design for easy cleaning.
- **Inspection:** Periodically inspect all electrical cords for damage. Check all moving parts and connections for wear or looseness.
- **Lubrication:** Moving parts and motors are generally maintenance-free. Do not attempt to lubricate internal components unless specifically instructed by the manufacturer.
- **Storage:** When not in use for extended periods, store the chair in a clean, dry environment.

Troubleshooting

If you encounter issues with your spa table/chair, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Chair does not respond to controls.	• Power cord not securely plugged in. • Power outlet is not active. • Anti-mistouch feature requires a second press.	• Ensure power cord is fully inserted into the chair and wall outlet. • Test the outlet with another device. • Press the control button twice to activate the function.
Motor makes unusual noise or movement is slow.	• Overload (exceeding weight capacity). • Obstruction in moving parts. • Normal motor sound during rapid adjustments (backrest/leg rest).	• Reduce load on the chair. • Inspect for any obstructions and remove them. • Note that backrest and leg rest motors may produce a slight sound due to faster adjustment speeds. Height adjustment is calibrated for quieter operation.
LED lights are not working.	• LED remote not connected or damaged. • Power issue.	• Ensure the LED remote is properly connected. • Check main power supply to the chair.

If the problem persists after attempting these solutions, please contact customer support.

Specifications

Feature	Detail
