4. MAINTENANCE

4.1 Cleaning

To clean the remote control, use a soft, dry cloth. For stubborn dirt, lightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials, as these can damage the remote's surface or internal components.

4.2 Battery Replacement

Replace batteries when the remote's response becomes sluggish or stops working. Always replace both batteries at the same time with new ones of the same type (AAA). Remove batteries if the remote will not be used for an extended period to prevent leakage.

4.3 Storage

Store the remote control in a dry place, away from direct sunlight, extreme temperatures, and high humidity. Avoid dropping the remote or exposing it to strong impacts.

5. TROUBLESHOOTING

- **Remote not responding:**
  - Check if the batteries are inserted correctly with the correct polarity.
  - Replace old batteries with new ones.
  - Ensure there are no obstructions between the remote control and the soundbar's infrared receiver.
  - Make sure you are within the effective range of the soundbar.

- **Some functions do not work:**
  - As a replacement remote, it may not support all advanced or specific functions of your original soundbar remote. This is normal for generic replacement units.
  - Verify that the soundbar itself supports the function you are trying to use.
